MURDER AMONG TRAMPS.

Arrangements have been made at Shenandoah for the publication of a newspaper in Russia.

John L. Sullivan arrived in London last Monday afternoon, and was received with great enthusiasm.

Much valuable property has been destroyed the past week by raging forest fires in Indiana and Illinois.

Six dynamite bombs were found last Sunday in condemned Anarchist Ling's cell, in the county jail at Chicago.

Cases of yellow fever are still reported at Tampa, Florida, but it is believed to be disappearing and the worst is over.

Several deaths and much illness have been caused at Mt. Carmel during the past few weeks by an epidemic of typhoid fever.

The whole crowd was in such a drunken condition that the stories told by them last night could scarcely be relied on.

At about half past five two of the party came in to town hunting for a Justice of the Peace, and finding Squire Jacoby the revolver that did the murderous work was handed over and William McCue gave himself up as the confessed murderer of Thomas Brennan.

Constable McHenry was at once sent after the remainder of the party and succeeded shortly afterward in bringing in John Layton. The testimony of Francis Ganley (one of the tramps from Towanda) was to the effect that the party had met near the engine house and were raising money among themselves to get liquor.

The little fellow—Wm. Eberhart—had but 30 cents to show for his day's work and some of the party attempted to commit sodomy on the person of Eberhart, and in protesting him from this inhuman act the fracas was brought on and the murder was committed. McCue made no concealment of the part he took in the shooting and exonerated all others from any blame whatever.

By the testimony it appeared that the affray took place below the engine house and hence would have been in Columbia county, therefore Squire Jacoby committed them to the Columbia county jail; but later in the evening it was found that the case belonged to Luzerne county.

Squire Evans held the inquest, the jury finding that Thomas Brennan came to his death at the hands of Wm. McCue, Squire Jacoby handed over all his papers in the case to Squire Evans and the men were then committed to the Luzerne county jail, where they were taken this morning.

The dead man was about twenty-eight or thirty years old, a pudgy by trade, and worked while in the rolling mill at this place some nine years ago. McCue is about the same age, and is said to belong to a respectable family in Pittsford.

Vote in Bloomsburg.

The following is the vote cast in Bloomsburg at the election Tuesday, November 8th.

Table showing election results for various candidates including State Treasurer, County Commissioners, and other offices.

Rectal at the Opera House.

Mrs. Margaret Custer Calhoun will give a recital at the Opera House, Friday evening, November 11th, under the auspices of the G. A. R. Mrs. Calhoun is a sister of General Custer, and is said to be strikingly like him in appearance. The Seattle Sunday Star says:

"The recital" tendered Mrs. Margaret Custer Calhoun last evening was a general ovation. The members of the Grand Army demonstrated, by their presence, their loyalty to their comrade, the gallant Custer, and the general public joined heartily in willing recognition of the many graces and talents of the fair recipient of the occasion. Mrs. Calhoun has a splendid stage presence, and in all her selections evinced a thorough knowledge and appreciation of the art of elocution, and in every appearance she won, if possible, fresh laurels. Into the tender and pathetic as well as the dramatic and humorous, she carried her audience with her."

Prof. Lolette's Memory Discovery.

Prof. Lolette's new system of memory training, taught by correspondence at 237 Fifth Ave., New York, seems to supply a general want. He has been twice named in Yale as one of the best of Oberlin College, 300 at Norwich, 100 Columbia law students, 400 at Wellesley College, and 400 at University of Penn., &c. Such patronage and the endorsement of such men as Mark Twain, Dr. Buckley, Prof. Wm. R. Harper, of Yale, &c., place the claim of Prof. Lolette upon the highest ground.

Accident in a Theatre.

The stairway leading into Ferguson's Theatre, Shenandoah, gave way Saturday evening and dropped into the cellar, a distance of fifteen feet. There were some thirty persons on the stairs at the time and all were precipitated to the bottom, but none received any serious injury. For a time all was confusion, and it was feared some were fatally injured.

A Handy Pocket Atlas.

An attempt to put in pocket size the contents of a large reference Atlas is usually accompanied by rough, inaccurate, and inelegant engraving and printing, but in the New Pocket Atlas of the World, published by Irwin, Bakeman & Co., 755 & 755 Broadway, New York, this is not the fact.

Ninety-one Maps, containing nearly every geographical point of interest throughout the world, are given, and each is a gem of the engraver's art. Delicately yet distinctly colored, these maps are exquisite illustrations of the best color printing of today obtainable.

While the maps leave nothing to be desired by way of fullness, they are fully up to date, and show every recent discovery, or change of boundary. One hundred and twelve pages of terse, well arranged, and accurate information concerning every important country or state on the globe, follow the maps in this compact volume.

In fact, the Atlas is not only a comprehensive Atlas, but also a condensed Gazetteer of the whole world, and all put in an attractive and substantial binding, and sold for fifty cents. If not found at your booksellers, on the receipt of this sum the publishers mail it to you at once.

From Aggie's Guide: "We presume that there are but very few readers of the Guide who are unacquainted with POSN'S EXTRACT, as regards its extraordinary curative properties. They have used it in our family during the past twenty years, and have realized its wonderful power in relieving pain, and its efficacy in curing Rheumatism, Gout, Neuralgia, Catarrh, Rheumatoid, and kindred pains. It is purely vegetable, and is used both internally and externally. It is useful to get a genuine bottle."

The Reading Color Test.

At last the color test controversy between the Philadelphia and Reading railroad company and its employees is fairly well toward settlement. The employees' assembly held Reading was in session Monday from 2 until 6 o'clock. B. J. Sharkey, of Philadelphia, chairman of the Color Test Committee, was present, and with apparatus illustrated and explained the methods operandi of the modified test proposed by the company. His explanation took up the entire time.

The plan was finally adopted by the assembly. It now goes before the general convention of the assemblies of the Reading system at Elizabethtown in December. Nearly all the local assemblies have adopted the plan. There are a few which have refused and several have not yet acted upon it.

All sorts of Poleson. Mr. F. F. Daley, Advertising Agent of the Brooklyn Elevated Railroad, writes: "Inflammation rheumatism swelled my legs and arms to twice their natural size. I suffered excruciating pain. Your wonderful medicine cured me. I have fully tested the virtues of Swift's Specific, both as a rheumatism cure and a tonic. It has done more for me than any other medicine I have ever used. I have written to the Swift Lithographic Co., Cincinnati, Ohio, and they will send you a bottle free of charge. Insipiensness.

Narcotics and sedatives murder sleep; the unnatural stupor is soon followed by ill effects. Simmons Liver Regulator removes the cause of restlessness and insipiensness by regulating the bowels, by establishing good digestion and by quieting the nerves.

"I have been a great sufferer from dyspepsia and loss of sleep. As soon as I feel he least nervous I take a dose of Simmons Liver Regulator and sleep all night."

WANAMAKER'S.

PHILADELPHIA, MONDAY, NOV. 7, 1887. Mixed Suitings, with silk enough in them to talk about. But that is not what makes them so roundly worn 37 1/2 c. The wool does it. Every fibre in them that isn't silk wool. They would be handsome stuffs and just as wearable if silk had never been heard of, but they wouldn't be so pretty. The silken specks and flecks light up the face of the fabric like flowers in a May meadow. Eight color effects, a brownish, a greenish, a plumish, and so on, all modestly rich, none glaring. Not the stuffs you look for at 37 1/2 c. Only a few days ago they were 50c. One of the unexpected price-slips.

Not the only one, Don't stir a step. Again the flaky raw silk dodging in and out, Coarser threads, looser weave, less sparkle. A plainish, homely, stand-by-you stuff. Last week down from 50 to 37 1/2 c.

So was the big and little bright-bar, all-wool Suiting alongside it; and the jostling, soberer stuff checked with gay silk threads.

An arm's-length away the 42 in. oddy pretty Shamrock Suiting; another 37 1/2 center. But we told you of that the other day, and we have been keeping scissors bright on it ever since. Can't do it much longer.

These from 6 feet of an 8-foot counter. Every other 6 feet is burdened with more of these medium-priced stuffs out of which \$2.50 or \$3 or \$4 will pull a handsome, stylish dress pattern for anybody.

Take a peep among the Books. It is the Holiday-Book army that has come in and jammed the shelves and pyramided the tables and narrowed the walking space of the Book section. Your wonder will be where the people will come from to buy so many Books. They will come, just the same, and get these, and tons and tons more that we have stowed away in upper and under space that you don't see.

The books are here in the bravery of gorgeous binding; in the undress of paper, and in all the between covers. Every proper sort of Book for big folks and little folks.

They are cheerful things to look at, but if you really like Books there is no more cheerful thing about them than the pencil marks on an inside cover—the price.

Book News is our monthly help to Book buyers. No one can do much of anything else and keep track of the new Books. That is a burden Book News picks up. No matter where the Book drops from, Book News jumps for the inside of it and tells you so much of what is there that you know whether it is something to be skipped or read. A choice miscellany, too, of special interest to readers, authors, and publishers, and with each issue an author's portrait fit for framing.

November Book News (48 pages) has a picture and life sketch of Hon. George H. Boker. 5c, 50c a year.

You can get the best selection of Books for the Holidays by buying now. Our Book Catalogue will aid you, and a postal card will bring it.

The Linen quarter of the Store is very properly the first thought just now with the good housekeepers overhauling the Linen closets. The Autumn compels the filling of the blanket shelves in the Linen closet just the same as the filling of the coal bins.

Cold snaps come in the night. Besides the Blankets and the Sheets there are the Damasks and all the other Linens. Mr. Irwin is over on the other side, and the boxes that bring the flaxen goodness in are all the time coming through the Custom House.

Here's a glance at some of the Damask prices:

Table listing various Damask fabrics and their prices per yard.

Very fine and soft finish Double Damask, 90c. It was generous value at \$1.25. Double Damask Napkins, \$1.50 to \$2.50; same, 3/4, \$2.50 to \$3.50.

Huck and Damask Towels just as worthful and more tempting to the casual eye. We have put a lot on a special counter near the foot of the Arcade stairs. Expect there will be much squeezing to get at them, even in that roomy place. \$1 to \$6 a doz.
