There are rumors abroad that Goy. Hill of New York is a candidate for the democratic presidential nomin He will find it up Hill work.

The strike in the coal regions is drawing to a close. An order was is-sued at Pottsville on Saturday by Master Workman Lewis for the miners in the Schuylkill regions to return to work. There is some hesitation in some quarters, but the prospects are that all will go to work in a short time. not exist.

Since Blaine has declined to be a candidate for the Presidential nomina-tion, the Republicans have been at sea. Amo ig others whose names have been mentioned is that of Gen Sheridan. But he says he is not a candidate, and will not accept the nomination under any circumstances. It is possible that John Sherman of Ohio may be induced to accept.

The various county courts set the time to various county courts set the time to various county courts set the time to the performance of the performance of the performance of the time and place for holding the National Nominating Convention. Delegations from various cities who are desirous of getting the Convention, are already suit their own conveniences, when petitions must be presented to them. In Juciata county applications will not be filed until March 24, and the hearing San Francisco is offering all sorts of inducements to have it held there, while thereof will not take place until April. In Fayette the hearing is fixed for the first Monday in April, and all licenses will date from the first Monday in May. In Snyder county liquor dealers have until the fourth Monday in April to present their petitions. Two applica-tions are still pending in Cameron

county. A strong fight is being made in be-half of temperance in most of the counties, notably Erie, Chester and Dauphin. More applications were made in the latter county than ever before, but the chances are that a number of petitioners will be refused licenses. The C-art has the reputation of being very rigid in its scruciny, and among the 171 applicants this year are some who were rejected in 1887. Huntingdon has had no licenses for a year, and up to this time no ap-plicants have presented themselves for the current year. Indians is another strictly temperance county, although application for license has been made by a solitary brewer. His fate will be decided next month. All who applied for licenses in Montour had their requests granted. Clarion county pe-titions were heard last month and

there was no change in the number. The table which follows, although The table which follows, although incomplete, will give a general idea of the number of liquor saloons and tav-erns now doing business in the counties and the number of applications which have already been made. WASHINGTON, Feb. 21.—Tho Presi-dential special for Florida drew out of the Baltimore & Potomao station at ten minutes to twelve today. It con-sisted of two cars, the "Newport," a Pulman sleeper and dining car som-bined aud a combination Pullman smoking and baggage car. A dis-tinguished party came to the station to bid farewell to the journeyers. The president was looking remarkably well. Mrs. Cleveland was dressed in a close-fitting traveling dress of dark creen, for Jacksonville, Florida, whither they go in response to a very urgent invita-tion from the state officials. The party will spend two days in Florida, and on the return trip will make several short stops. The party is sure to meet with the wildest enthasiasm in the South, where the President is extremely popular, on account of the good old fashioned Democratic administration which he has given the country. The Democratic National Committee fitting traveling dress of dark green, trimmed with white fur; and a fawn-colored tailor-made jacket. Intending purchasers of Ponp's Extract cannot take too much precaution to prevent substitution. Some druggists, trading on the popularity of the great Family Remedy, attempt to palm off other preparations, unserupulously asserting them to be "the same as" or "equal to" Posp's Ex-TRACT, indifferent to the deceit practiced upon and disappointment there-by caused to the purchaser, so long as larger profits accrue to themselves.
