The Funeral Month of March

An observant metropolitan barber says that he can tell one s physical con-dition by the state of the hair! The Bible tells us that with his bair

gone Samson lost his strength. The Romans considered baldness a serious affliction and Julius Casar was never quite satisfied with himself because his

poll was bare.

The face, however, is the open book and one can readily trace in its various expressious, lines, changes and complexion the state of the system.

The eye that is unusually bright and yet has a pallid brightness, the face upon whose cheeks nature paints a rose of singular beauty and flush, more marked in contract with the alsaster appearance of the forehead and noce and lower part of the face, is one of those whom the skilled physician will those whom the skilled physician will tell you will some day dread the funer-al month of March, because it is then that consumption reaps its richest bar-vest. Consumption they tell us is caus-ed by this that and the other thing, by microbes in the air, by micro-organ isms in the blood, by deficient nutri-tion, by a thousand and one things, but whatever the cause, decay begins with a cough and the remedy that will effectually stop the cause of that cough cures the disease of the lungs. That is all there is of it.

The cough is an evidence of a wasting. To stop it effectually, a remedy must be used that will search out the cause, remove that and then heat the lung and do away with the cough lung and do away with the cough. This is the power, special to itself, possessed alone by Warner's Log Cabin Cough and Consumption remedy. This is no new-fangled notion of narcotics and poisons, but an old-fashioned preparation of balsams, roots and herbs, such as was used by our ancestors many years ago, the formula of which has been secured exclusively by the present manufacturers at great trouble and expense. It is not a mere cold dryer. It is a system-searcher and cold dryer. It is a system-searcher and upbuilder and a consumption expellant. Where others fail, it wins, because it gets at the constitutional cause and re-moves it from the system.

J. W. Hensaw of Greensboro, Pa.,

on Jan. 15, 1888, reported that "he had derived more real benefit for the length of time, from Warner's Log Cabin Cough and Consumption remedy than he had for years from the best state physicians."

If you have a cough, night sweats, positive assurance in your own mind that you, oh-you, have no consump-tion," and yet lose flesh, appetite, cour age, as your lungs waste away, you may know that soon the funeral month of March will claim you, unless promptly and faithfully you use the ar-

ticle named. If other remedies have failed try this one thoroughly. If oth-ers are offered, insist the more on trying this unequaled preparation. Some persons are prone to consump-tion and they should never allow the disease to become seated.

Healthful Bread.

In spite of all that has been said on the subject, people will eat bread made from flour from which all the bran has bran. A number of years ago Prof. Horsford, of Cambridge, suggested the use of a baking preparation for raising bread, biscuit, etc., which would sup ply the requisite phosphates, thereby introducing these necessary elements into the food without cost or trouble. After years of experiment and labor he reparation, and if report be true, he succeeded wonderfully well in sell ing it. The preparation consists of an acid phosphate of lime which combined with bi-carbonate of soda in raising bread, biscuit, etc., leaves in the product the very phosphates required by the system, and which are essential to good health. The idea was an ingenions and valuable one, and needs only to be thoroughly understood to be fully appreciated. The well-known Rum appreciated. The well-known Rum-ford Yeast Powder is made according to Prof. Horsford's directions, and is positive evidence of the practicability of his idea.

Take Uare, Girls.

There are some things a well-bred young lady never does :

from a gentleman acquaintance unless engaged to him.

She never wears clothing so singular or striking as to attract particular at cool place and they will keep fresh for a year.

The covered in the cool place and they will keep fresh for a year.

The covered in the cool place and they will keep fresh for a year.

tries to stare people she doesn't know

out of countenance on the street. She never snubs other young ladies, even if they happen to be less popular or well favored than herself.

She never forgets her ball room engagements or refuses to dance with one gentleman and immediately dances

after attending the theatre unless ac-companied by a lady much older than herself. Among the singular relics of the Incas is a Peruvian "whistling jug" in the possession of the Tulane Museum at New Orleans. It is in the form of

two flat bottles connected at the necks, and by an ingenious arrangement, up-on pouring water into it various weird sounds are produced. In Every Household. -There should be kept a bottle of Pond's Extract, as it is invaluable in case of accidents, alight or serious, that are always liable to occur, such as Cuts, Barns, Bruises, etc. It is of the greatest benefit for Hemorrhages, Neuralgic Pains and Inflammation, while for Catarrh, Piles,

etc., it is the best known remedy. Ask your druggist to give you nothing but the genuine.

FARM NOTES

An Obio orchardist claims that apples at \$1.50 a barrel are more profitable than wheat at 75 cents a bushel.

When the birds have swelled heads or eyes, or hoarse breathing, ten

Professor Storer says that many farmers in New England have found that mixtures of bone meal and wood

Voelcker found from analysis that in farm-yard manore which had been rotted for three months there were per ton 24 pounds of potash, 6 of phosshoric acid and 15 of nitrogen. Allowing 5 cents a pound for the potash and phosphoric acid, and but 10 cents for the nitrogen, the ton of manure will be worth \$3.

Any community of farmers can, by co-operation in the purchase of a thor-oughbred male, greatly improve their stock in a single season, and at but a small expense to each, shile the en-hanced value of the stock would more

Kindness controls and guides all animals, says the Live Stock Indicator. This is true when their life commences with such treatment. A bull or a heif-

The Woman's Journal, of Boston Mass., reports Mrs. A. Hill, of Skow-hegan Falls, Wis., as a successful beekeeper, her stock in three years having increased from two colonies to forty-one, and the surplus honey, after enough had been sold to pay all costs. averaged eighty-two pound per colony.

The Repentant Cardinal.

W THE CARDINAL PRIMATE OF POB TUGAL EXCOMMUNICATED THE WHOLE WORLD.

She never turns around to look after the point of the street.

The Poultry Record gives this method of liming eggs for long keeping: To one pint of salt and one pint of fresh lime add four gallons of boiling water. When cold put it in stone glass of wine at a dinner or entertainment.

She never accepts a valuable present from a gentleman acquaintance unless engaged to him.

She never accepts a valuable present from a gentleman acquaintance unless engaged to him.

She never wears clothing so singular or striking as to attract particular at cool place and they will keep fresh for the district where the portward gives this method of liming eggs for long keeping: To one pint of salt and one pint of fresh lime add four gallons of boiling water. When cold put it in stone in the ear.

A good many years ago, while traveling by recting to a liming to principal, I arrived at a plac called Lamego, situated in the Nortward proposition of the kingdom and in the centre of the district where the portward it is also renowned, throughout the peninsular, for excellence of it hams, the hogs being fed principall on scorns in the ear.

A good many years ago, while traveling in Portugal, I arrived at a plac called Lamego, situated in the Nortward proposition of the kingdom and in the centre of the district where the portward it is also renowned, throughout the peninsular, for excellence of it hams, the hogs being fed principall on scorns in the edge with the fluid, so they will spoil. Put the eggs in whenever you have them fresh. Keep covered in cool place and they will keep fresh for the district where the portward it is also renowned, throughout the peninsular, for excellence of it hams, the hogs being fed principall on scorns in the adjoining forest. Seeing a cardinal's hat hung up in the principal church I inquired whose it was, and apropos of this the verger to the district where the portward in the cardinal transfer.

She does not wear her monogram about her person or stick it over her letters and envelopes.

She does not permit gentlemen to join her on the street unless they are very intimate acquaintances.

An oblong square, as long again as wide, is the most profitable shape for a garden, as the rows are equally long and less time is taken up in turning the horse. The size of the same should be in proportion to the number of the family, bearing in mind the fact that the Cardinal-Archbishop, in making a tour through the kingdom, visited the town, and at displaying the horse. The size of the same should be in proportion to the number of the family, bearing in mind the fact that the Cardinal-Archbishop, in making a tour through the kingdom, visited the town, and at displaying the same somewhat inchristed, and before retiring to rest tottered to the balcony of his room in the inn and the particular to the particular to the particular to the particular to the cardinal-Archbishop, in making a tour through the kingdom, visited the town, and at displaying the particular to the one-fourth of an acre well manured called out with a stentorian voice and cultivated will produce more and "Tutte I mondo excommunico, salvo better vegetables than a whole acre not so well attended to. vino di portoe presciutto di Lamego, (I excommunicate the whole world ex cepting port wine and Lamego ham), and then his Eminence went to bea and the whole world remained in a She never forgets her ball room engagements or refuses to dance with one gentleman and immediately dances with another.

She never speaks slightingly of her mother and says she "don't care" whether her behavior meets with maternal approbation or not.

She never takes supper or refreshments at a restaurant with a gentleman after attending the theatre unless according to the spring. The system having become accustomed to the bracing air of winter, is weakened by the warm days of the changing aware of it. On the following morning, however, the ban was removed, for the Cardinal was reminded by his suite of what he had done and he was compelled to proceed and builds up every part of the body, "Tutto "I mondo absolvo" (I absolve all the world). In penance he sent his blood. Try it this season. Cardinal's hat to the church.

unleached ashes.

Dettwiler, a German chemist, has cow will produce fourteen tone of manure of one cow for one year estimated on four different farms in Germany was respectively \$11, \$14, \$5 and \$28, or an ayerage of \$12.

Mr. A. I. Root thinks that if he should own a small apiary an I discover foul brood in it he would burn up the typeriment.

A Goese Bone

The burial rites of the Burmese were performed the other day at a Washing ton cemetery over the remains of the noted Burmese hairy woman, Mah contained before it gets thoroughly cold after being removed from the pot and scraped. If the bone is left to stand the marks become dim and uncertain and the reading is very ansatisfactory. Having your bone prepared, the best way to study it is to go into a dark room and hold it before a bright (Mo.) police and upon being interrogated revealed the fact that she had been married twice and was the mother of two children.

A pie-eating match. merely corroborative. The most dis-tinguishing marks are in the shape of carets, braves, dots, and semicircles, and it is their position on the bone and the direction in which they are

It is said the way those pies disappear ed was enough to warp the digestive apparatus of a saosage machine.

A lad of Gilroy Valley, Cal., was bitten four times by a large tarantula the other day and was saved from death, it is thought, by his father, who hurriedly killed a young turkey and ripping it open laid it upon the boy's wounds. When removed the fowl was found to be hard and discolored from the absorbed poison.

Remarkable capine sagacity was displayed a short time ago by a Newfoundland dog near Williamsburg, N. Y. The owner of the animal being overcome by extreme cold while crosse stormy, disagreeable weather during November: pointing out at the other end of the bone, they indicate but weather for March. The ridge running along near the middle of the ke of the bone is indicative of the leng h and severity of the winter; if ridge extends, uninterropted, the length of the bone, and is dark and heavy, the winter will be a severe one; but if the ridge grows weak and in-distinct as places, for that part of thwinter the weather will be warm and

thawing.
All these features must be closely studied, first separately, and then to-gether. Anyone, by closely studyi g this bone, can correctly predict the general character of the weather dur-ing the three months; but it takes ime, study, and experience to dividthe bone into days, so as to locate the date of the different changes. In Kentucky many of the best readers of the bone do not worry about reducing the prophecy to days, but are content with learning the general character of the winter, and this information is of great value to farmers when they find t such that they can depend upon it.

Louisville Courier Journal.

What pure air is to an unbealthy le be milked in the same air in which they stand the milk will be bad, but it milked in fresh air the trouble will be obviated.

Farmers who keep sheep can accommodate each other by exchanging, so that each may have a half or quarter for use while it can be kept fresh.

In the cows and name of the wagon tires and taking mouthfuls of molten metal. All this it was said he did without any preparations and never sustained injury.

GOO BILOTE PILLS. BEWARE OF IMITATIONS. ALWAYS LITTLE SUGAR-COATED PILLS. Being entirely vegetable, they operate without disturbance to the system, diet, or occupation. Fat up in glass vials, hermetically scaled. Always fresh and reliable. As inxative, alterative, or purgative, these little Pellets give the most perfect smisfaction.

SICK HEADACHE,

SICK HEADACHE,
Billous Headache,
Dizziness, Constipation, Indirection
Billous Attacks, and all
derangements of the stomach and bowels, are promptity relieved and pertoanently
cured by the use of Dr.
Pierce's Pleasant Purgalive Pellets.
In explanation of the remedial power of these
Pellets over so great a variety of diseases, it
may truthfully be said that their action upon
the system is universal, not a gland or tissue
escaping their sensitive influence. Sold by
druggies, 25 cents a vail. Manufactured at the
Chemical Laboratory of World's Dispensary
Medical Association, Buffalo, N. Y.

Prof. W. HAUSNER, the famous mesmerist, of Rhaca, N. F., writes: "Some ten years ago I suffered untold agony from chronic mass incurable, and said I must die. My case was such a bad one, that every day, towards sunset, my voice would become so hoarse I could barely speak above a whisper. In the morning my coughing and clearing of my throat would almost strangle me. By the use of Dr. Sage a Catarrh Bemedy, in three months, I was a well man, and the cure has been permanent."

Thomas J. Rushing, Eaq. 1904 Pine Street, St. Louis, Mo., writes: "I was a great sufferer from catarrh for three years. At times I could hardly breathe, and was constantly hawking and spitting, and for the last eight months could not breathe through the nestrils. I thought nothing could be done for me. Lucking, I was advised to try Dr. Sage's Catarrh Remedy, and I am now a well man. I believe it to be the only sure remedy for catarrh now manufactured, and one has only to give it a fair trial to experience astounding results and a permanent cure."

ELI ROBBINS, Itingan P. O., Columbia Ca., Pu., says: "My daughter had catarrh when she was five years old, very badly. I saw Dr. Sage's Catarrh Remedy advertised, and ver-cured a bottle for her, and soon saw that it helped her; a third bottle effected a perma-nent cure. She is now eighteen years old and sound and hearty."
