That last Saturday was St. Patrick's Day could easily have been told by any one not play of green ribbon and sprigs of green pinned on coats and worn in button holes by a large majority of passers-by on the streets. Dry goods and millinery stores did a good trade in ribbon of the most verdant bues last week. The first intimation that "St. Patrick's Day in the mornin" had arrived was given by the sound of fife and drum at an early hour, as a party of fifteen or twenty students from the Normal marched down Main street to the tune of 'Wearin' o' the green." This was the only celebration of the day at this place.

The Des Moines (Ia.) State Register says of "Muldoon's Pienic," which will be playthe funniest of plays, "Muldoon's Picnic". It looks as if the people would soon have a currency that may be sent through the mails. There has been a loud demand for it ever since the old shinplasters were called in, for everyone knows how difficult it is to send a silver coin in the mails, and how troublesome are postage stamps as a substitute. When the chesp postal note was adopted it was thought that it would take the place of fractional currency, but the public wants something that will not require them to go to the post-office or bank. The greatest demand for mailable money comes from the country towns, where people are in the habit of shopping through the mails, and from the newspaper offices, where the subscribers have to send in postage stamps for fractions of a dollar. The Committee on Banking and Currency has agreed to the bill providing for the issue of not more than \$80,000,000 in denominations of 5, 10, 15, 25 and 50 cents. and it is rocks and fossils makes a grand lecture thought that it will pass without any ob-

The value of a great public improvemen annot be fully estimated at once. The at antages derived from the Bloom-burg and Sullivan R. R. by agriculture, by manufactures and by trade in the Fishingcreel valley have been enlarged upon; but there s one advantage scarcely inferior to any other, that has not yet been enjoyed. If an educational institution with property to the value of \$120,000 and a corps of 14 superior teachers had been set in the middle of the valley there would have been rejoicing throughout its length, and wonderful results would have been anticipated for the rising generation. This has been done practically by the Bloomsburg and Sullivan R. REPORT OF THE DANVILLE DISTRICT READ. Rev. M. L. Ganoe, Presiding Elder of Danville District, read an earnest report. touching upon the death of Rev. John L. Seishitne, "one of their best." Rev. 1. H Torrence was reported to be cheerful in his total blindness. On the liquor question the report declared: "Methodism is fast becoming a synonym for Prohibition."

The conversions in the district were 910; the additions to the membership being 940.

An allusion to the great strike was made, by which 40,000 men were idle and over five millions of dollars lost in wages, seriously affecting one-third of the district and impairing the work this year. Ever under all these obstacles \$1.700 more for all benevolent purposes including missions had been raised than for last year. On the building improvements, \$20,280 had been paid; the debt had been reduced at each charge; a total of \$14,000 on old debts had been paid; an aggregate paid by thirty-six charges on building, improving and debts of \$33,199.40; present in lebted ness, \$20,-026.17. The sums raised and paid for home work this year are equal to all the present debt and half as much more. - Williamspor.

In 1820 the Rev. Mr. Snowden became rector of St. Paul's church Bloomsburg Up to that time the congregation had been worshipping in a log building at the church property at the corner of Main and Iron streets. During his incumbency the question of a new church was agitated, and the church was incorporated by an act of legislature in 1824. Rev Mr. Eldred succeeded Rev. Mr. Snowden in 1825, and in 1827 " new frame church was erected, and occupied by the congregation until 1837. When or how this frame church building was removed to the spot where it has stood until Tuesday, we have not been able to ancertain, but it is said that the back part of what has been known as the "Arcade" was the Episcopal church of 1827. It has been used as a school room, printing office, &c. and now disappears entirely to make room for a modern structure. Bishop Onder donk preached in this church in 1833. It is not known that Bishop White was ever in Bloomsburg. The vestry of the church man, Littleton Townsend, Isaac Green, Robert Green, Philip Appleman, Elias Bidleman, Peter Melick and John Barton and they or some of them, no doubt had something to do with the erection of the church of 1827.

Low and Warry Allebach, at Fork's, Charles Kelchner, at Stillwater, Judge McHenry, and at Benton, J. B. McHenry, P. McHenry and S. Mc Henry, and Silas McHenry, of Cambra, joined the party. From Edson's, the pres ent terminus of the B. & S., the party was taken in sleds and sleighs to the mouth of Cole's Creek, where 22 hounds were turned loose on a trail. Darting into the under wood and running but a short distance they routed Reynard and away pellmell went the chase for the North Mountain After circling several times, back they came over Fritz Hill, across Coles Creek, down near Edson's, and across Big Fishingereek, up the west side and recrossing back over Fritz Hill to the Mountain about noon. Nothing more was heard of the chase until about 4 o'clock when they returned near Central, then east and down Cole's Creek and across Fritz Hill again where nearly all the dogs were caught and taken off.

The party then returned to Benton and freely partook of a sumptuous supper got-ten up expressly for them at B. J. Mc-

WORK-OTHER ITEMS OF INTEREST.

The local institute of the fifth district neld at Cambra, Luzerne Co. Friday evening and Saturday, March 16 and 17, [was in every sense a success. The attendance at all the sessions was large and the undivided portance of local institute work was evinced by a largely increased attendance of both teachers and directors. Friday evening's lecture by Prof. Noetling of the if the Mllky Way had changed to know that one mouth in jail and \$500 Bloomsburg S. N. S. was thoroughly pracits orbit and was taking a turn fine are two things that are not picked up tical and well timed. Saturday morning around the store. American Prof. C. C. Hughes, of Cambra, opened the institute with a most practical address on School Discipline." Prof. Hughes closed his address with a very cordial welcome on behalf of the citizens of Cambra to the

eachers and other visitors. Following the address was a general talk from Prof. Noetling in which many valuable suggestions were given to the friends

and patrons of public school work. Saturday atternoon's session was made especially interesting and profitable by the address of Prof. Will S. Monroe, of Nanticoke, on the subject of "Reading." Prof. Monroe's "How, Why and When to Read" was presented so clearly and forcibly as to convince all present of the paramount importance of the subject under consideration. The institute was favored also with a pleasing talk from Prof. Kline. of Plymouth. The closing remarks of the occasion made by Prof. Noetling were such as tended to make impressive the talks 371/2 C. given during the three sessions and lead to the removal of any barriers to the greatest success possible of the work in the district. The vocal music rendered by the Cambra choir and the instrumental music by Messrs. Wm. Robinson and Stanley Mc-Henry, also the recitations given by Misses Carrie Dorsey of Huntington township, Bessie Hughes of Shickshinny, Zell Krick baum and Zell McHenry of Cambra were some of the pleasing and highly entertain ing features of the institute. The people of this district manifest a deep interest

Calhoun, has simed to give a thorough, practical, systematic course of instruction, such parasol, the ribbon, the lace covas would meet the demands of all seeking a liberal education. The third term consisting of fifteen weeks will open Monday, April 2. The prospects for success of the school for this term are bright, as already a large number of teachers and others have signified their intention of entering and mind, from tires to top. with a continuation of the practical methods of work already adopted success is assured. No person of school age under favorable circumstances, can afford to lose the golden opportunity of attending this school. t only came too late for our benefit, but we hope those within the school belt will make the best of it.
