The subjoined unsolicited testimonials are from your friends and neighbors, ladies and gentlemen you know and esteem for their honor and straightforwardness, and who would scorn to be a party to any deception. WEST PHILADELPHIA, (3738 Centre St.) Jan. 1st. 1888.—My grandmother suffered ten years with kidney disease and irritation of the bladder. She could not walk straight nor could she sleep ten minutes at a time. She had seep ten minutes at a time. She had several doctors, but they all failed to give her relief. She took "Warner's Safe Cure"—six bottles in all—together with several bottles of "Warner's Safe Pills" and was cored. This was 4 years ago and she has been well ever since. Her came is Mrs. Mary Evans, No. 3738 Centre St., West Philadelphia, Pa. All of my relatives as well as myself take "Warner's Safe Cure." I recommend it to all of my friends.

As a last resort, and without faith, I commenced using "Warner's Safe Cure" and "Tip-pecance" with surprising results. De-tails would be revolting—it was one of the severest cases on record. I will gladly reply to any letter and will give particulars. I hope this statement will be the means of influencing some one to employ the same means for their recovery.

A. E. Baldwin CHESTER, Pa., (710 Hinkson St.), Jan. 16th, 1888.—I have been cured by the use of "Warner's Safe Cure" of a very severe form of kidney disorder at-tended with excruciating pain so that I was unable to be on my feet for any length of time without the most un-bearable pain. I think "Warner's Safe Cure" has saved my life.

The fruit-dealer in an up-town corner, who is raising a family in America but is still a comparatively young man, offered a reporter a nice orange his advice about savings banks. Mr. M. S. Hamilin, one of the best known insurance men in North Carolina, writes from Winston, as follows: "Ever since I was seven years of age I have had what the doctors call hip disease, and which I call white swelling. My hip was drawn out of place. There was a swelling at the knee-joint, where there is a profuse running, which has been there for years. Of course this has greatly depleted my system, together with surgical operation on the leg bone. I tried svery known blood purifier to build up my system, but none did me good until I took S. S. S. I use it every spring. It always builds me up, giving me appetite and digestion, and enables me to stand the long, trying, enervating, hot summer days. To me there is no such medicine for purifying the blood and building up the wasted system as B. B. S. On using it I soon became strong of body and easy of mind. My color changed from a pale, worn look to a healthy, robust complexion.

Mr. G. N. Frizzel, of Farmersville, Texas, writes: "About August 1st, 1865, an cruption appeared on my arms and legs, which pained me much and seemed to affect my physical condition generally. On the advice of a physician at this place, I finally commenced using Swift's Specific. I am glad to say that after using three large bottles the sores have all healed."

About three weeks ago I was sent for by his son, and tound him suffering from an acute attack of kidney disease, attended by uremia. He rallied and was able to ride out until ten days ago, when he was again pros-trated. After he had rallied from his

first serious attack he very in prodently drank a bottle of ale. This proved an irritant, and perhaps hastened his death, although I believe he had passed beyond the reach of human skill long before that time."

Mr. Brewster leaves one son, sixtee years of age, and an only sister, the brilliant letter writer, Anna Brewster,

A fata'ist might well believe, say the Wilkesbarre Record, that by the death of the son of President Wilbur. of the Lehigh Valley Road, the line of disaster that has followed the Packfamily had been broken. Hardly ten years ago the golden wedding of the late Judge Packer was attended by all his children and a large number of hi-relatives and friends. Notes.—V. 42. Watch, because of the unexpectedness and suddenness of His coming. V. 43. House broken, dug through, for houses in the east were built of sunburned clay, which was often dug through. V. 44. Ready, not only watchfulness, but prepared for His coming. V. 45. Faithful and wise, watching and ready. V. 46. Blessed, used by Christ, always denotes something exceptional and rare. V. 47. A great reward for a rare man. V. 48. Evil, because unfaithful-unfaithfulness springs from unbelief. V. 49. Unbelief leads to cruelty, rioting and wickedness. V. 51. Asunder, cut off from God's people and God's pressure. Weeping and gnashing of testh, excluded forever from hope, "weeping" because of the opportunities lost eternally, "gnashing his teeth" as he remembers the folly of his course; his eternity is made up of regrets and self censure. This the fire that is never quenched.

Jesus had left the temple never to return to it again. He had predicted its destruction. In company with his disciples, he journeys toward Bethany. On the way over the hill he tells them many things about the destruction of Jerusalem, the end of the age and of his coming again. The Greek word for watch is closely allied with the word wake. The master enjoins not a curious looking for his coming, but a vigilance and differences, unfaithfulness and all the

in no indolence.

We, too, must watch against temptations, evil influences, unfaithfuiness and all the wiles of the devil.

We must watch for his coming with hope and joy. And hasten it by watching for the signs of his spiritual presence, and for openings and opportunities to serve him. The obscurity and uncertainty as to the time of his coming is the reason why we should watch. The event itself is as certain as death, but the time of the event is most uncertain. The destruction of Jerusalem was a

death, but the time of the event is most uncertain. The destruction of Jerusalem was a
type of Christ's second coming, which will
take place in due time.

V. 43. The duty of watchfulness is illustrated by one watching against robbers.
Not knowing when they may come, the prudent householder must keep a constant watch.
Otherwise there is no safety. If he knew the
day and hour when the burglar would come,
constant watchfulness would not be a necessity.

Whereas. It being a self-evident fact that the only way to rid our land of the most prolific source of all evils with which we have to contend—the licensed liquor traffic—is by political action, therefore.

Resolved, That we reaffirm our allegiance to the National Prohibition party as a means for accomplishing the ends we are striving for.

Resolved. That we fully believe that Resolved. That we fully believe that the first and the fully believe that the first and the fully believe that the first and the burglar would come, constant watchfulness would not be a necessity.

V. 44. Included in this state of watchfulness is the idea of preparation. Only those not ready find his coming uncomfortable. Not only must we profess but our lives must be in accordance with our profession. Readings without any warning at all, is the duty of every Christian.

ty as a means for accomplishing the ends we are striving for.

Resolved, That we fully believe that the ballot in the hands of woman will be to only hasten the abolition of the saloon, but be an act of justice due to the women of this land.

Resolved, That we recognize in the W. C. T. U. a valuable auxiliary to the party in its efforts to overthrow the

Specimen Washington Tramps.

It is quite astonishing, the number of well meaning people who come up to Washington in search of a pension. They seem to think that all they have to do is to make personal application at the bursau and the money will be handed out to them at once. There is a general impression that nearly sveryhody is getting a pension; that the pot is boiling, and now is the time to tip in. A few days ago a forlorn looking man walked into the pension bureau. He had walked 300 miles from near Wheeling, W. Va. He had but one shoe, was pennilses and hungry and simple—as any man must be who would do such a foolish thing. He could not legally prove that he was entitled to a pension, and of course could not get one. In fact, he could not prove anything, and in a sort of a half dazed condition he started to walk back. Some of the clerks in the bureau passed around the hat and raised 24 for him, that he might not starve on the road.

Washington is a bad place for a poor man.
