An Interesting Case. The case of Z. S. Robbins of this town against the Pennsylvania Railroad Company was argued on Sunday, May 3, 4, 5, and 6, before Judge Becher, Hon. P. W. Adams and G. B. Reimensnyder Esq. for the plaintiff and Mr. John Packer and W. C. Farnsworth for the defendant. Several hundred dollars were spent in conducting the suit, and much interest manifested.

The case was given to the jury Saturday afternoon; after being out all night they returned a verdict at 2 a. m. Sunday in favor of the railroad company. We take the following particulars from the Sunbury News of May 11th:

The action was brought to recover damages from the defendant by reason of his being put off a train on the Alexandria and Fredericksburg Railroad at Woodbridge, Va., on the morning of the 21st day of May, 1888. On the morning of the 21st day of May, 1888, the plaintiff, who was a resident of Bloomsburg, Columbia county, purchased a ticket at that place over the Delaware, Lackawanna and Bloomsburg Railroad for Harrisburg. He boarded the train and on his way to Sunbury was informed by Mr. Trench, a friend, that there was an excursion going to Fredericksburg, Va., and was invited by him to go along. Expressing a willingness to do so, Mr. Trench presented him with an order for an excursion ticket, the order having been issued to the regular association of the 131st regiment, P. V., the ticket to be purchased at Sunbury. On his arrival at Sunbury he presented the order at the ticket office with \$5.00, the price of the ticket. On the main part of the ticket there was printed, among other things, that it entitled the holder to one first-class passage to Fredericksburg, Va., and return, and that in selling the ticket for passage over other roads the Pennsylvania Railroad Company only acted as agents for them and assumed no responsibility beyond its own line. There were coupons attached to the ticket designating the points between which the holder of the ticket could travel, but no coupon attached to the ticket naming that portion of the trip from Fredericksburg to Baltimore on the return trip. Captain Orwig, who represented the organization which was instrumental in getting up the excursion, had made special arrangements with a steamboat company to bring the excursionists from Fredericksburg to Baltimore by boat at the rate of \$1.50 for each excursionist in addition to the \$5.00 paid for the ticket. On the morning of the 21st of May, the plaintiff started on his journey from Fredericksburg on the morning of the 24th of

May, it having been intimated to him the evening before that the excursionists to be invited to take the boat. He attempted to use the ticket purchased at Sunbury in which there was a gap, so far as the coupons were concerned, from Fredericksburg to Baltimore, although the main part of ticket stated that it entitled the holder to one first-class passage to Fredericksburg, Va., and return. After having rode some distance the conductor came to him and the ticket was presented, when he was informed by the conductor that it was not a good ticket for his train, but he would carry him to the next conductor, who would take charge of the train at Quantico. At this station another conductor took charge of the train and he also informed the plaintiff that it was not a good ticket for his train, and he would have to get off or pay his fare. After some parleying the conductor concluded to carry him as far as Woodbridge, the first stop that was to be made, and that there the plaintiff would have to get off or pay his fare. The plaintiff refused to pay his fare, and, as is alleged, he was ejected from the car at this station at about half past 9 o'clock in the morning, a place where he contends there was no accommodation by which he could procure food, or that he was able to get away from the place until about 4 o'clock in the afternoon. Witnesses were called on the part of the defendant to prove that there were accommodations at Woodbridge sufficient to accommodate a traveler, a boarding-house and restaurant being located not far from the railroad station. The defendant further contended that this ticket was prepared at the solicitation of Captain Orwig especially for the benefit of the surviving soldiers of the 131st Regimental Association, and that it was not intended to include other than members of that association. They also presented evidence to show that they received no portion of proceeds arising from the sale of the ticket purchased by the plaintiff, but that the money was appropriated through their auditor to railroad companies other than the Pennsylvania Railroad Company. They also showed that they had nothing to do in making special arrangements with the steamboat company and for that reason had made no provision by the issuing of the special ticket for the excursionists to come back from Fredericksburg to Baltimore by rail.
