How the Betting Stands in Indiana-

There is a popular impression that the trend of betting on election results is a good indication of the way things are drifting. Admitting such to be the case, the Democrats have the best of it to all intents and purposes in this State. They post their money freadily and are not so particular as to the amount, while the Republicans hesitate and prefer small sums. That is, they abstain from the thousands altogether and are satisfied with a few indred. As a rule the Republicans here have nothing to stake on the gen-eral result. When they put up it goes even money to say that Harrison will carry Indiana. There is a Demoeratic syndicate in this city that covers, without odds, every Republican dollar to be found, whether on the State or the issue at large. - Courier-

Thurman to Colored Democrats.

Judge Thurman received on Thursday a delegation of colored Democrats, who through W. H. Furbish, of Aakansas, presented an address expressing their thankfulness for favors from the Democratic party, expressing a belief in the division of the colored vote as for their best interest and stating a firm belief in the election of Cleveland and Thurman.

Judge Thurman greeted them warm-ly and spoke as follows: I know very well that I have been described, and am still described, as an enemy of the colored people. There never was anything more unjust in the world. When my family came to this State my grandfather brought with him all his property, which consisted chiefly of slaves, and he set them all free. My father never owned a slave; my mother never owned a slave; I never owned a slave, and would not if I could. Now, I might almost say I was raised among colored

No man can say with truth that I have denied the equality before the law of colored people. I stand and Grover Cleveland stands on the plat form of the Democratic party, which pronounces for equal rights for all without regard to race or color.

New York Democratio-

THE REPUBLICAN HOPE IS TO FORCE CLEVELAND AND HILL INTO A COMBAT.

New York, September 29.—The result of Co onel Lamont's visit showed to-day in the increased feeling of confidence among all Democrats as to the success of both national and State tickets. Both Cleveland and Hill are stronger than the usual Democratic vote, but in different ways, and the only hope the Republicans have is to drive from Cleveland the regular Democrats who belong to what was and it should be the sum of each director, formerly the Hill element in the party and of all the inhabitants to secure better and to keep the Cleveland Democrats results than in seasons past. No teacher from Hill. The regular Democratic vote by itself is eaough to carry the State, but the floating vote, if it goes all one way, can turn the State and election. This year two-thirds of the Independent voters, as a moderate estimate, are for Cleveland, and the German Republican voters are for Hill. Unless alienations can be made to offset those gains, the State will go Democratic. So to stir up dissension between the Cleveland and the Hill Democrats is what the Republicans

vent their success. He came as a friend of the President and assured the Hill mansgers that the President tearnestly desired the victory of the State ticket and was pained that anyone could suppose or charge that his Democracy is not thorough and sterling. In 1885 the President sent a check to the State committee to help billity of not getting one to fill the vacant Colonel Lamont's visit was to pre-Governor are a Republican invention.

Governor Hill in his speeches and the President, through Colonel Lamont, have given proof sufficient for every dislike the teacher. Thus her efforts may become counterbalanced by some trivial of cord. Aside from their parsonal forms.

be political foolishness.

It is not likely that the State will go high enough up in the party councils to know personally of the relations be-tween the Governor and the President, the Republicans are simply doing some campaign manævring.

Our country schools will soon be open should be engaged who does not intend to make teaching a life work. No teach should be selected who is not permeate with the grandness of the work, who is not willing to devote all her time to the wants of her pupils. No person should be allowed to teach until some special preparation had been made

for this good work. Again, no community should be so unjust as to ask a qualified teacher to superintend a school where the wages are such that necessities compel the teacher to resort to manual labor to defray board bill and clothing expenses. Not that a teacher is a person that labor will injure, but that the
