In answer to the oft repeated question of the past few weeks, "What's the matter with Harrison?" we are forced to admit that there doesn't seem to be anything the matter with him just now.

The Republicans had their final parade on Tuesday night. Lieutenant Spotts has been drilling them and they marched well. The Bloom Band and Gorchow Band of Berwick were in the line.

It is said that yellow fever never attacks a cigarette smoker. The fever is thought to believe in fair and honest competition, and is perfectly willing that the cigarette should have its share of the victims.

If all the bets on the election in this town were known, and claimed by the Directors of Bloom Foot District, there would be no occasion for levying a poor tax here for the next year at least. Thousands of dollars changed hands.

We went to press last week on Thursday morning before the official table of votes had been made up, and as the table was put in type on Wednesday, we were necessarily obliged to take some of the figures from unofficial sources. In this way a number of errors occurred in the table. The corrected vote appears this week.

The performance of the Rinehart-Delaware company was given at the Opera House Monday night to a large audience, which was, however, well pleased with the entertainment, judging from the frequent outbursts of approbation. The contortions of Delaher, the "Human Frog" were most wonderful, and elicited round after round of hearty applause. The play was interspersed with good music and variety acts, and the performers were all good, making altogether an excellent performance.

Ex-commissioner Tripp and son Milo are erecting a large boarding house at Jamestown city, Columbia county. The ex-commissioner gives a glorious account of the new building. He is selling for \$100 each and new manufacturing enterprises are constantly locating there. Jamestown city like Lopez is destined to be our enterprising town in the near future.—Sullivan Republican.

The State Fish Commissioners announce that German carp will be supplied to those citizens who may desire to have offer about the largest accepted, as this carp is a fish that will thrive in waters where the trout and various other kinds cannot exist. It is not as fine a food fish as some others, but is far from being distasteful. The fact that it is such a rapid propagator of its species is one of the strongest reasons why farmers and others should give it attention.

On July 1, 1888 the price of the COLUMBIAN was reduced to \$1.00 a year. The paper is the largest in the county. At the reduced price it is necessary that we should have prompt payments. Every subscriber knows whether he owes anything on subscription, without being informed by a special duan. If all who would send in the money, they would save us the trouble and expense of sending bills by mail, and themselves the annoyance of being dunned. There are those who are always prompt in the payment of all their bills except newspaper subscription, and yet lose their tempers when reminded by the editor that he has furnished them with reading for a year or more without pay. The best way in the world to avoid a dun is to pay up.

The Philadelphia Inquirer, of a recent date, has a long article commenting on the Bloomsburg and Sullivan railroad, and among other things says: "But there is another point still beyond. About ten miles above the Central in Berwick, the mines of the State Line and Sullivan Railroad are located. The coal mined there has been sent principally to Northern markets, as there was no direct Southern outlet, the coal passed North over the State Line and Sullivan Road to the Lehigh Valley, and found its chief market in the North. When the Bloomsburg and Sullivan Road is extended through a pretty direct line will be formed in connection with the Northern Central to Baltimore and the South. The distance to Baltimore from Berwick will be fully 150 miles shorter than the present route. In fact there is no coal sent there now, as the distance is so great that the cost of transportation is practically prohibitory. It is expected that a main line of silk hays will adorn the heads of lucky betters; one young man will pay a month's board for a republican friend. On Monday night a great deal of amusement was created on Main street by a procession formed at J. Salzer's. Mr. Salzer appeared in full Republican Club uniform, and took part on a wheelbarrow decorated with two torches and two flags. F. B. Hartman was the wheeler, and he started up the street with his load, surrounded by a big crowd of boys. At each corner Mr. Hartman who is a staunch democrat, was obliged to stop and say, "Hurrah for Harrison," that being one of the conditions of the bet.

Just behind this party came an immense wheelbarrow containing William Shutt with a flash light torch. Leg Harman furnished the motive power. Mr. Harman wore his high Cleveland hat draped in front of the barrows, and placing big sticks before the wheels, and the result was that the occupants were frequently dumped out of the barrows.
