BUBBLE PARTIES. NE of the most amusing, as well as easily arranged entertainments for the Holidays, is a "Bubble Party." Twenty or more ladies and gentlemen, enough clay pipes so each will have one, three or four bowls of soap-suds, and, say, half a dozen trifles, for prizes, are all that is required, the prizes to be awarded to those who blow the largest bubbles, one of the party to act as

The suds should be of Ivory Soar, as it gives a clean, white, and abundant lather, with an entire freedom from oil or grease; and as the materials of which it is made are so clean and pure, it is not at all offensive to the smell or taste, like ordinary soap.

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'lvory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and invist upon getting it. Copyright 1886, by Proctand Gamble

Senator Beck's absence has been seriously felt in the Senate since the re-publican tariff bill has been taken up. He is the one democratic Senator who has the whole subject at his fingers ends, and hope that he would be able to resume his seat at the present session, together with the idea, which for some reasons was prevalent among the democratic Senators, that the republicans would not take up the tariff at this session has doubtless prevented the democratic Senators from preparing themselves to make as stout a resist ance as was expected of them to the passage of the bill. This may be remedied yet, but as it stands now, the lemocrats of the House are expressing great dissatisfaction at what they call he "apathy" of democratic Senators. Mr. Cleveland is also understood to be dissatisfied. In the meantime Senator Beck's physician has ordered him to spend the winter in the south, and he will go to Aiken, S. C.

The would-be speakers of the next House are all on the anxious bench.

Secretary Whitney has ordered three naval vessels to proceed to Hayti as soon as they can be made ready for sea, to enforce the demand made by the State Department for the release of an American vessel illegally seized by the Haytian Government.

the Senate tariff bill, made the fact very plain that he does not approve of that measure as it now stands. He called attention to the duty on silvered glass, which caused every bureau manufactured to cost from two to three dollars more than it otherwise would. It is not made in the United States, and Mr. plumb thinks that it should go on the free list. He also spoke of the steel trust, and mentioned the fact that large sums of money have been saved in the construction of the State House of Texas and a public building at Wichita, Kansas, by the purchase of steel joistes, beams etc., abroad. If Senator Plumb is not more careful in his speeches he will rise up some morning and find himself read out of the republican party.
