WASHINGTON LETTER.

From our Regular Correspondent.]
Washington, Dec. 31st 1888. Mr. Cleveland has once more shown that he has the race faculty of saying the right thing at the right time. In a letter of regret from him at a banquet given by the Boston Tariff Reform League last Friday night, he blazes the way for the weak-kneed members of the party to uphold the principals voted for by a plurality of more than 100,000 in the total number of voters in the country last November. After expressing his regret at not being able to attend the banquet Mr. Cleveland wrote: "Our institutions were constructed in purity of purpose and love for humanity. Their operation is adjusted to the touch of national virtue and patriotism, and their rerults under such guidence must be the prosperity and happiness of our people; and so long as the advocates of tariff reform appreciate the sentiment in which our institutions have their origin, so long as they apprehend the forces which alone can guide their operations, so long as they, in a spirit Schuy lkill County Bascals.

Brave words, these, for a defeated candidate, and very badly needed too, for many Democrats in Congress have recently shown a very decided weakness of the spine on this subject and have talked about compromising with the enemy to the extent of passing a bill making large reductions in the internal revenue, leaving the unjust import duties to remain as they now are, etc.
