BLOOMSBURG, PA.

FRIDAY, JANUARY 11, 1889.

The democratic State Committee of Pennsylvania will meet at the Belton House, Harrisburg, Pa., on Wednesday January 16th, 1889, at eleven o'clock in the forenoon, to elect a Chairman, Secretary, and an Executive Committee, and to transact such other business as may be brought before it. Benj. M. Nead, Elliott P. Kisner,

Secretary. Chairman.

The legislature met last week, Tues day, and after a session of two days adjourned until Wednesday last. The six days thus wasted are counted in the 100 days for which the members of the legislature receive \$1000, so that the pay goes on notwithstanding

There are many things in this world that are beyond human comprehension But if there is one thing more uncerpolitician who has got a taste of pu'lle office and wants to stay there. The world must not be surprised at any moment to see him bowing in humility efore those who in his innermost conscience he heartily despises, even as a cur fondies and whines at the feet of its master, no matter how hard the kicks it has received therefrom.

The Supreme Court of the state be gan its sessions in Philadelphia last Monday. The court now corsists of Chief Justice Paxson, and Justices Sterrett, Green, Clark, Williams, and the recently elected members, Mitchell and McCollum. For the first time the Judges wear Oxfords gowns. The other courts where gowns are worn are the Supreme Court of the United States, and the Court of Appeals of New York. There will be no election for Judge of the Supreme Court until 1895, unless there is a death or resignation before that time.

WASHINGTON LETTER

Senator Reagan, when asked about the rumors of opposition to the re-election of Senator Coke, laughed good-

naturedly and said: "It's all bosh, Coke will be unanimously re-elected. Texans always know when they have a good thing.

Senator Cullom raised quite a laugh at the expense of Senator, or, as he is oftener called here "Granny" Blair, Saturday, when he presented to the Senate resolutions adopted by the Columbia Turnverein of Lake, Illinois. The resolutions after reciting their opposition to Mr. Blair's bill for compulsory religious instructions in public schools, etc., recommends "that Congress make an appropriation sufficient to pay tutors to instruct such Representatives or Senators like Mr. Blair in the rudiments of history and other studies calculated to develop and broaden their minds, so that they may no longer disgrace our nation in the eyes of the world by resolutions and bills to which there is no present ds one forcib f Spain in the fifteenth century This is rather rough on Blair and his kind, but as long as they act on the obsolute idea that people can be made good and virtuous by the enactment of

laws, they can expect no better. Senator Brown, of Georgia was in his seat Saturday for the first time this His health has improved

session. His health has improved slightly.

The republican comet, Blaine, has arrived here. His arrival has created great commotion in the political nament; his satellites, such as Senators Hiscock, Plumb, Chandler, and Representatives Phelps, Boutelle and dissection, no study of anatomy or others are sailing around with an air pharmacy. A sort of superstition such as Senators Sherman and Edmunds, are revolving around with great dignity and given diplomas in two months and taking especial care to keep out of If their time is limited or they are in the way of the fiery tail of the comet; a hurry they will be made M. D. 's in they realize that there is great danger to them, should a collision take place. The appearance of a comet in the sky has from time immemorial been considered the certain forerunner of wars and a number of books which attempt to disturbances, and the longer the tail the greater the disturbance or war. The Blaine comet has a very long tail, and the war pressged is likely to be correspondingly long and bitter, ending only with the destruction of the combatants. But as the combatants are all doctor factory has been called directly batants. But as the combatants are all in the republican party, there need be no great grief over their annihilation.

It is only that the destruction of the combatants are all doctor factory has been called directly to public notice. For some years the reputable physicians of all schools have denounced the vitapathic College in was the bearer of Blaine's ultimatum to Harrison; it not only demanded that Blaine should sit at the head of the eabinet table, as Secretary of State but he should have the naming of at least two other members of the cabinet. Harrison has not yet given his answer, and the sudden appearance of the Blaine comet at the capital, and the marshalling of the various planets into a brill iant constellation, is all for the purpose of impressing the Harrison sun with practices were indulged in. Parodies

The Senate plods along in its con-sideration of the tariff bill. The re-blessing the milk, which, he said was publicans have struck a dangerous snag in the sugar question. When the paragraph reducing the duties 50 per a portion of the milk poured into small cent on imported sugar was framed it glasses. Then followed a still more was known by the republicans that it prefane mockery—spiritual baptism would bankrupt the sugar planters of and vitapathic ministerial ordination. Louisians, but for that they cared nothing, as they expected no votes from that state; but now they have discovered that it will do equally as much damage in republican Kansas to accept the whole armor of vitapathy and California, both of which states for the benefit of humanity. He placed have protesting delegations here now; that of the latter peing headed by Claus Spreckles, known all over the

Filibustering seems to be natural in the present House, which has practically been a deadlock since last Thursday. The committee on rules reported a resolution for the purpose of stopping the introduction of bills on the 'wo Mondays in the month known as suspension days. About thirty members opposed this resolution, and owing to the small attendance they have been able to tree. attendance they have been able to pre to comfort the afflicted, relieve the vent its adoption by refusing to vote, distressed, heal the sick, cummune with

thus breaking a quorum. Telegrams have been sent to absent members, and it is expected that enough will be present by to-morrow to pass the reso-jution in spite of the filibusterers.

The Act of 1887, Dividing Cities, Declared

In affirming the judgment of the Common Pleas Court of Luzerne county, from which an appeal was tak-en by D. P. Ayars, the Supreme Court monday delivered an important de-cision holding that while the Municipal Corporation act of 1874, dividing the cities of the state for the purposes of legislation into three classes was constitutional, the subsequent acts of 1876 increasing the numbers of classes to five, and that of May 24, 1887, increasing it to seven, were unconsti-tutional and void. The County Court simply decided that the act of 1887 was not yet operative. The pernicious system of special legislation practiced for many years before 1874, had become general and deep-rooted and the evils resulting therefrom so alarming that the people determined to apply the only remedy that promised hope of any release, and the result of that determination was the adoption of the Constitution. One of the manifest objects of that instrument was to eradi-cate that species of legislation and sub-stitute in lieu of it general laws, when-

ever it was possible to do so." After quoting several provisions of the acts to show the lack of necessity for any further classification Judge Sterrett answers the argument that the question of necessity for classification is a legislative and not a judicial one is a legislative and not a judicial one in this way: "The answer to that is obvious. The people have seen fit not oaly to prescribe the form of enacting laws but also, as to certain subjects."

There is a legislative and make human life immortal. All the power is now yours. Go and perform the duty well, and the life and power and love of vitapathy with you forever." laws but slso, as to certain subjects, the method of legislation, by ordaining that no local or special law relating to those subjects shall be passed. Whether in any given case the Legislature has transcended its power and passed a law in conflict with that limitation is essentially matter in hand at its comming session. a question of law and must neces sarily be decided by the courts. To warrant the conclusion that the people intended so invest their law-makers with judicial power and thus make them the official arbiters of their own acts would require the clearest and most emphatic language to that effect. No such intention is expressed in the Constitution and none can be inferred from any of its provisions. That these limitations were designed to establish doubted. But if the ultimate applica-

the judgment of the body on which it was intended to operate nothing could be more fl-xible. "No such proposition can be entertained by the courts without abandon ng one of the most important branches of jurisdiction given to them by the fundamental law, namely, the power to ultimately determine whether or not a given law is local or special and has been passed in disregard of the constitutional limitation that has been placed upon the power of the Legisla-ture. It follows that the decree of the court below is correct, not only on the ground that as to the city of Wil-kes Barre the act of 1887 is not yet operative, but also on the broader ground that the act is unconstitutional and void."

The bold ness with which the establishment is conducted almost staggers belief. It teaches what is known as vitapathy. There is no regular course of instruc-tion, no scientific lectures, no classes in of great importance, while his rivals, which possesses neither logic or ment is vitipathy. Stadents are graduated
