mitted to a vote of the people on June 18, next. From now ustil that time it will be the absorbing topic of discuss-ion everywhere. It is our intention to give everybody a chance to be heard who has any thing to say, under cer-tain restrictions. The preference will be given to those who have the courage of their convictions, and are willing to have their communications printed over their own names. In all cases articles must be signed by the writer, and the name will be printed unless otherwise directed. All unsigned communications will go into the waste-basket with-out being read. The discussion must be kept within the limits of propriety, and no tirades against the temperance people on the one hand, nor the liquor dealers on the other, can fird a place in these columns. We invite honest, earnest and temperate discourses from both sides, but we have no room fo mere abusive effasions from either side
