Mrs. Henry Croop died at her home Fowlersville, and was buried Thursday of last week. She had been suffering with inflammation of the howels for some time previous to her death. While the friends were away from the house, attending the ourial ground, which was nearly two miles distant, Mr. Croop who was too ill to accompany the corpse, suddenly dropped rom his chair on which he was sitting, and expired. His sudden death was due to apoplexy. The funeral services of Mr. the body was laid alongside that of his aged wife. Six children survive the parents;

four daughters and two sons. The Bloomsburg Fire Department is in demoralized condition. The town is growing rapidly and fire protection is needed now more than ever, and yet according to report made to the Town Council by one of its committees, there are but 500 feet of hose that can be used. The Town Council should either procure sufficient good hose to be of some service in case of fire, or else stop paying for fire plugs that are at present utterly useless because of the lack of hose, and leave the community entirely at the mercy of the flames. The organization of the fire department was made by an ordinance, and this ordinance provides for recognition of the department by the town authorities, and it languishes for want of sufficient recognition. The boys are always on hand however when a fire breaks out and if the town does not provide hose, they might equip themselves with tin cups and

Window curtains, plain and dado at W. H. Brooke & Co's.

squirt guns.

R. S. Bowman has been reappointed post naster at Berwick. He was first appointed by President Arthur, just before President Cleveland took his seat, and was permitted to hold on all through the democratic administration, because the democrats of Berwick got up a fight among themselves as to who should be his successor, and the resident refused to interfere. A democrat ought to have been appointed under any ircumstances, but Bowman was lucky enough to hold over, while the republicans laughed at the chagrin of their democrati friends. Meantime a number of republicans had their eyes on the postoffice, and each one supposed there would be no trouble in ousting a man who had held office under a democratic President, but Bowman got ahead of them all, and while they were looking around getting ready to move, he was moving, and his appointmen was made before the others knew anything about it. The democrats are doing the laughing now, not because they like Bow man, but because all the other applicants were left so easily.

The resolution of lies not with the public school system. the Legislature authorizing the appointment of this commission directed that I many localities rejected, until its good reshould report : sults brought it in favor with all the people. The public school system was

The best means of promoting and main aining industrial education in its several grades; how far it is desirable to incorpor district. The system was established on ate it into the existing system of public in struction and the best method of training teachers for such school or departments. The commissioners, after giving a brief ecount of the origin of industrial education and quoting from a number of authorities

upon the question, say : school system. G. R. H. would find that Wherever an attempt has been made stroduce manual training into the public chools, whether in a special school, as it New York, New Haven and many other places, whether it has been supported by people of any institution in the annals of our appropriations from the municipal treasury government were it to be brought to a test. or by private contributions of public-spirit-Our public schools are a suburb of the ed citizens, the result has been the same teachers, pupils and parents vie with each and will continue to be represented in our other in their testimony to its heathful and public schools. Our public schools are as peneficial influence. We believe that no nstance can be formed where the work having once been begun by the proper an horities, has been allowed to stop or t lie schools moreover, are also the fundaliminish. On the contrary in nearly, if not quite every case, where even a small and entative beginning has been made, with the least possible expenditure of money, the land. If there was not sufficient power the work has been increased with the grow ing approval and confidence of the comcoming citizen would be mutinous to esablished authority and defy the laws of

THE GROWTH OF THE WORK. Its growth in New York City is cited as he most striking instance of the rapid exension of the system. Within seven months the number of children receiving that form of instruction increased from a few hundred to 10,000. After referring to the fact that manual training has not yet been attemptd in the rural schools, the report says: The commission has no doubt, therefore

who through self denial and perseverance that while it is entirely feasible to introduce accumulated a large fortune by following a manual training into the schools of our more favorable localities at once, it can not us how many boys and girls of that day be generally done, except under special were brought up who could neither read circumstances, until the body of common nor write, and when obliged to sign an obligation of any kind, could only make an special training for the purpose. For this eason we attach the very highest import-Now show me a child 10 years old that ance to the normal schools of the state with has not a fair knowledge of all the rudireference to this work. The experience of ments of the common branches required by Sweden and of France shows conclusively aw to be taught in the public schools, exthat a body of teachers can be very rapidly formed. Manual training is now being taught in nearly 800 schools in Sweden, and more than 100 schools in the city of Paris alone have work shops attached. Normal schools and special courses have been es-Marvin C. Brown, Druggist, Meredith tablished for the pupose of training teach-Village, N. H., says: I have sold your ers in the work. Suiphur Bitters for years, and, contrary to

In Sweden it is found that an ordinary teacher by spending six weeks in one year and five weeks in the following year in special course of manual training can acquire all that is necessary for teaching its elements successfully.

BENEFIT TO REFORMATORIES. The report next speaks of the importance of the introduction of this system into the reformatory institutions for youth of both sexes. In support of this the commission says: The rapid increase of juvenile vice and

Prof. Housenecht, principal of the school at this place, has recovered from a severe ly noticed and deplored. This evil, with its attendant evil, pauper'sm, is chiefly The debating society of this place has confined to our cities and larger towns Here great numbers of children, especially those of poor families, are growing up in ress of the Pine Grove school, was called idleness and in ignorance of all manual octo her home near Huntington Mills by the cupations. These children are brought up serious illness of her mother. We hope in an atmosphere of vice and immorality, to welcome her back to finish the term. take up with crime at an early age and se Also to teach the next, the first term in become the enemies of society and an exour new school building, as she is well pense to the State. The amount of pernibooked, well liked and her government is clous literature devoured by them, is conclusive proof that illiteracy can no longer There are a great many ill in this vici-

be blamed for juvenile delinquencies. When it is remembered that at this time two-fifths of the population of the State reside in towns, the importance of this subject will be appreciated. In the opinion of the commission it is high time for the State to exert itself to find a check for this condition of things. To us there appear two remedies at hand. The first is manual training for the public schools; the second, State handicraft schools for all pauper, vagrant and homeless children. THE RECOMMENDATIONS.

The report of the commission concludes

with these recommendations: That provision be made for the introduction of manual training into each State normal school, with a prescribed course of woodwork for all students, ironwork for young men and sewing and cooking for young women, such courses to be subjecto modification from time to time unde Dan Butt moved his saw mill on Judge Sydney McGensey, of Milton, went down proper authority. The work should be accompanied at every step with a progressive

course of drawing.

That an appropriation of \$5000 be made to each State normal school for the establishment of the proper plant, including building tools, equipments, etc., and further sum of \$2000 annually for main

That after April, 1890, no certificate of diploma be granted by a normal school to any pupil or graduate who shall not have completed at least the equivalent of a six

weeks' course in woodwork. That for the purpose of providing facilities for pursuing this course of training to to call on any druggist and get a free teachers already employed, and who may wish to acquire it, provision be made for the maintaintenance at present of a short Summer course in woodwork and iron work at the State College where such instruction has been maintained for several

That the State make a moderate appropriation to be given on a uniform hasis to such districts as shall undertak the establishment of manual training in o in connection with the public schools, with that amount purchased the Lehigh and specific provision, however, that such funds whether provided by the State or the district, shall not be used for the teaching of That for the purpose of securing direc

encouragement, oversight, guidance and The road runs through Pike, Monroe and inspection of all such work in the State, special deputy superintendent of public in struction be appointed in the manner now provided by law, with a sufficient salary t secure service of the highest order, who shall be assigned by the superintendent of public instruction to special duty as in spector of manual training.

That provision be made for the immed ate introduction of manual training, ar ranged upon an educational method and for educational ends, in connection with prescribed course of elementary studies into the reformatory institutions provided by the State for youth of both sexes, but that in such cases no attempt be made to teach specific trades, except so far as such trades may be necessarily carried on for the purpose of supplying articles needed for consumption in the institutions them-

If the commission may venture to sug-

which it was appointed we would respectfully and most earnessly recommend that any change that may be made in provision for the maintenance of the soldiers' orphan schools, shall require the introduction nanual training, at least in woodwork for boys and sewing and cooking for girls, as an essential part of the course of instruc

Accompanying the report are papers pre pared by individual members of the comnission to aid in reaching the general con lusions. The report also contains nearly four hundred pages devoted to the growth of the system in the various states.

Representative Bean has already intro uced in the House a bill embodying the commendation of this commission. He as also preented a bill asking for an appropriation of \$1,000,000 for manual trainne schools. This bill has been negatived the Committee on appropriations. Col. Bean will, however, endeavor to have the bill placed upon the calender in the House. He thinks the time for beginning the work of industrial education in Pennsylvania has arrived, and he will do his level best to convince the House of this fact. The chances, however, of getting an extra \$1,000,000 for this work at this session are egarded by some of the leaders of the louse as very poor indeed. There will

The popular blood purifier, Hood's Saraparilla, is having a tremendous sale this eason. Nearly everybody takes it. Try

Maple shade trees for sale at Rabb Rehm's, south extremity of 3rd St. When Macbeth ironically, asked, "Canst hou minister to a mind diseased?" he little knew that mankind would one day be blessed with Ayers' Sarsaparilla. In puri-

Surprise Party.

A genuine surprise was given to Mr. and Mrs. D. F. Weiss, Friday evening of last week. About thirty friends gathered together and at half past five crowded into their house, completely surprising them The ladened baskets were soon unpacked he tables spread, and at about seven o'clock the merry friends joined in having a merr feast. It was a late hour when the party broke up. The wish of all was that many more such surprises could be given.

Mrs. Marsh's goods are finer than before Prices lower. Come and see.

Consumption Surely Cured

To THE EDITOR-Please inform your read that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send wo bottles of my remedy PRES to any of your readers who have consumption if they will send me their express and post office address. Respectfully, T. A. SLOCUM M. C. 181 Pearl St., New York. [sept-21-1y

WANAMAKER'S. PHILAPELPHIA, Monday, March 18, 1889.

A Bordered-Dress-Stuff season. Of course so pleasing a style runs into black goods. Surprising what grace an alongthe-edge band of ottomon, or tape, or cord, or camel-hair effect gives to the somberest stuff. You'll find the Bordered Blacks mostly among the Serges crime in recent years has been very general. and Armures-\$1.25 to \$1.50

Three weights in the new Black Mohairs-three names. Mohair Sicilian, 50c to \$1.50: Mohair Tamise, 65c to \$1.50; Pure Mohair, 65c to \$1.25.

We are showing nearly three hundred distinct styles of Rib bons. The plain and moire satin edge, to 3 inches, lead in favor for ordinary dress trimming. Picot edge is the popular style for richer effects. Moire and plain gros-grain and satin and gros-grain, all widths, hold their own.

But no matter what sort of Ribbon may be uppermost, we have a place for all the others. The trifling "Daisy" or No. 1 has as much care accordingly

as the most imposing Sash. Sashes grow on your liking They keep pace with the rich ringes that in three months have jumped so far into favor.

Velvet Ribbon is the kind that "goes with everything." Think and heaters very low to make room for their player, cultivators, bay rakes, complanters, &c. 5c, No. 12 at 20c, No 16 at 25c! Half price.

course you know it's here, but new rags, bright colors, choice styles. Chesper than you can make them. Rag do you know that the turndo you know that the turna state of things isn't a happen so. Business doesn't grow that spring. way. There's a reason for such a trade success. Every Book in Wolf's. way. There's a reason for such the store has its price plainly pencil-marked on a back fly-leaf. The lowest possible price; likely as not half or quarter of what

Medicine for Throat and Lung Diffi culties has long been, and still is, Ayer's Cherry Pectoral. It cures Croup, Cherry Pectoral. It cures Croup, Whooping Cough, Bronchitis, and Asthma; soothes irritation of the Larynx and Fauces; strengthens the Vocal Organs; allays soreness of the Lungs; prevents Consumption, and, even in advanced stages of that disease, relieves Coughing and induces Sleep. There is no other preparation for dis-cases of the throat and lungs to be compared with this remedy. "My wife had a distressing cough with pains in the side and breast. We

tried various medicines, but none did her any good until I got a bottle of Ayer's Cherry Pectoral, which has cured her. A neighbor, Mrs. Glenn, had the meastes, and the cough was relieved by the use of Ayer's Cherry Pectoral. I Cough Medicine

to every one afflicted."-Robert Horton, Foreman Headlight, Morrillton, Ark. Foreman Headight, Morrillon, Ark.

"I have been nollicted with asthmator farty years. Last spring I was taken with a violent cough, which threatened to terminate my days. Every one pronounced me in consumption. I determined to try Ayer's Cherry Pectoral. Its effects were magical. I was immediately relieved and continued to improve until entirely recovered."—Joel Bullard, Guilford, Conn.

"Str. mouths are I had a severe home."

Guilford, Conn.

"Six months ago I had a severe hemorrhage of the langs, brought on by an incessant cough which deprived me of sleep and rest. I tried various remedies, but obtained no relief until I began to take Ayer's Cherry Pectural. A few bottles of this modicine cured me." Mrs. E. Cobara, 19 Second st., Lowell, Mass.

Mass"For children afflicted with colds, coughs, sore throat, or croup, I do not know of any remedy which will give more speedy relief than Ayer's Cherry Pectural. I have found it, also, invaluable in cases of Whooping Cough."—Ann Lovejoy, 1257 Washington street, Boston, Mass.
