A point for Amandment campaign-ers is the fact that twenty years ago instean out of every twenty farms in Maine were mortgaged, while now not more than one in twenty is so encum-bered. In 1868 about 1,800 writs of foreclosure were issued, last year nct more than fix. more than five.

Ex-President Cleveland and party, which includes Messrs. Bayard, Vilas, and Dickinson, are in Cuba at present,

arriving there on the 23rd. Mr. Cleveland and his companion were welcomed on the wharf by the American Consul and Vice Consul and a large number of other gentlemen. The party took carriages and wer-driven to the Hotel Passaje, where an aide in the name of the Governor Gen-eral welcomed them to the island, Mr. ceeding. Fred Grant is not a brillian Cleveland declined the invitation of man by any means, but he has not openly been guilty of anything disgarce-ful, while Badeau by his actin is suing the wife of the man who raised overnor General Salamanca to make the Governor General's mansion his home during his stay in Havanna.

Some years ago when a bill was in the House, increasing the salary of country Judges to \$5.000, the Act was opposed, on the ground that \$4.000 was liberal pay. Two years ago when it was proposed to re-tire Judges who had served two full terms on two thirds pay, it was op-posed on the ground that they ought to be able to save enough on a salary of \$4000 a year to five on after the All the clerks in the First Assistant 'o-tmaster-General's office are working three hours a day extra time owing to the immense number of applications for the fourth class post-offices which are pouring in. He has been appointed Consul General of \$4000 a year to live on after the expiration of their term of office. If this was right then, there certainly has at London.

this was right then, there certainly has been no change in the situation that should induce a change of opinion. Within the past thirty years such men as Woodward, Wilmot, Mercur, Conyngham, Gamble, Pearson, Jordan, DEAR SIRS :--Some time ago in looking over your paper I saw that your columns were open for discussion pro and con on prohibition. Within the past twenty five years the salary has been increased five hundred dollars at a time until it finally reached \$4000. At nearly every session of the Legislature efforts have been made to increase it, but all have failed. The business of the country courts is on the decrease rather than the increase, and the Judiciary of the state is composed of no abler men than have served any years at the same or a less salary than now. If there was no reason for increasing the Judges' pay ten or twen ty years ago to \$5000 there certainly can be none now for raising it to

\$6000. For our part we have always be-lieved, and believe now, that the Judges' salaries are inadequate. They can en gage in co other business, they must bigh office, and unless they have a private fortune, they must depend upon the savings from their salaries for au

Washington, Mar. 25, 1889 President Harrison's appointment of "Corporal" Tanner to be commissioner ions is a great victory for the of Pensions is a great victory for the ring of Washington pension sharks, all of whom are rejoicing t their prospects for growing rich during four years of Tanner's favorable decisions. Prepara tions are being made to flood the country with circulars inviting every ex-soldier, including those who have een refused pensions, to make new stions for them.

within an hoar after Tanner's nom-ination had been sent to the Senate, one agent here ordered 1,000,000 circa one agent here ordered 1,000,000 circa lars printed and bought fifty baskets of obampagne to celebrate his brilliant viotory. Conservative people are somewhat alarmed at the appointment of Mr. Tanner, who has long been known to favor the giving of indis Almost universal sway, but one law to obey and the violation of that law was death. Did they obey it ? Nay ver ily, they transgressed and were driven from that lovely garden and the pres-ence of the Lord, to earn their bread by the sweat of their face. Our pension list is now nearly \$1,000,000,000 a year, and it will be in Mr. Tanner's power to largely increase that amount by decis-ions under the present laws. There is some talk of trying to defeat his con-firmation by the Senate, but it will hardly be possible, as every Republi-ean will sote for him—they dare not do o herwise.
