A little descriptive piece entitled "Over the Guns," from the Detroit Free Press, of which we give a paragraph, reminds us that great advertisers, like H H. Warner & Co., proprietors of Warner's Safe Cure, might get a hint from it.

get a hint from it.

Here is the paragraph:
Shoot to the right or left, over the guns or under them. Strike where you will, but strike to destroy. Now the hell surges down, even to the windows of the old farm-house—now back under the apple trees and beyond them. Dead men are under the ponderous wheels of the guns, and d vils are slashing and shooting across the barrels. To one seems to know friend from foe.

Shoot, slash, kill and—
"But the hell is dissolved. The amoke is lifting, shricks and screams grow fainter, and twenty or thirty livfrom the guns. Three hundred dead in the face.

They tell of war and giory. Look over this hell's acre and find the latter."

Sared him is himself b can in the face.

A hint the latter. Youngst win And in just as deadly a strife, though And in just as deadly a strife, though noiseless, are men falling at our right and left to-day. Is it war? Yes, war of the blood. EDITORS COLUMBIAN: DEAR SIRS: In your issue of March 29 I see a communication from A. J. Derr, in which he says the former articles in favor of Prohibition are some thing extremely silly, and that the preachers are preaching it in preference to the gospel, and quotes numerous passages of scripture in defence of his theory that this is a crime on the part of the prechers. Now air are we to infer the prechers that the precher is the precher that the precher t for from his arguments that whoever advances opinions contrary to his are not of sound mind. Also that were the Saviour of the world to live in this advanced age of the world be would beong to that class known as moderate drinkers, and to that extent be an advocate of the liquor traffic. Now then I believe that to successfully preach the gospel, sin in its various forms must be shown to men, and in the matter of the rum traffic there is no middle ground as it is held by Mr. Derr. if the rum traffic and its train of 60,000 souls in many years, although once yearly hurled into perdition is wrong then Probibition certainly is consistent and to the Copenhagen Musuem. with the Scriptures because we are commanded to shun the very appear-at ce of evil and this implies that if we vote to continue this great evil we lar. Criticism of Commissioner Tanner's scheme to pension everybody is re-ceived by the surplus spenders and vote-estehers as "hostility to the Union

It is not hostility but true regard for honorable veteraus to wish to keep the pension list a roll of honor. That list will be anything but a roll of bonor when the bummers and the shirks are given an equal place upon it with the brave and faithful soidiers, and when the able bodied and prosperous share the nation's bounty with the disabled and the dependent.

It is said, in one of the true words

spoken in jest, that "Co paral Tanner will da his best to make the next war popular." Yes with mercenaries. To pension everybody who volunteered is to make a lost virtue of patriotism. To induce men to enlist, not in de fense of their country but in the hope of getting a life-support at the country's expen e, is to degrade cit-zenship to a Hessian basis.

The country should be and has been liberal and generous without stint in its care of wounded, disabled and en-feebled soldiers. A pension list of \$87,000,000 is a testim by and a warning. To swell it further by the reck less L gistature proposed would be a injus or to self-respecting veterans and to the overburdened taxpayers.- World.

CATARRH, Catarrhal Deafness and Kay Fever.

A NEW HOME TREATMENT. A NEW HOME TREATMENT.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and enstachian tubes. Microscopic research, however, has proved this to be a fact and the result is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks. N. B.—For catarrhal discharges peculiar to females (whites) this remedy is a specific. A pamphlet explaining this new treatment is sent on receipt of ten cents by A. H.
