Visitors speak of the great beauty of West Pittston's residences and think it would be a great improvement to our beautiful homes to remove the fences.

In 1854 the production of cane sugar i Louisiana was 459,156,000 pounds. In 1861-62 the production was 528,321,500 pounds, an amount never exceeded. The production for 1887-88 was 353,855,877 pounds. It will be perceived that the heavy duties on sugar collected for the last 25 years have not stimulated production to the extent reached under the revonue tariff of 1846. As a means of raising money the sugar tax answers an excellent purpose; but as a means of raising more

sugar it is a failure. An excellent concert was given in the Opera House last Friday evening, under the auspices of the Y. M. C. A. social committee of Danville, Pa. Brains in Demand.

THE OPPORTUNITIES FOR BEIGHT YOUNG ME TO GET RICH.

"I hear a good many young fellows," said an old New York merchant recently "growling nowadays that the chances to make a fortune in this city are all gone that is, for men whose only capital is their brains. They look around at the great business houses already established and consider the tierce competition in every branch of trade and their hearts fail them. The truth is that there never were such chances to make money as now for young nen of real ability in this city. It is a average talent to get along in, but brains are needed here as never before. Merchants who have built up great trades and want to 'let up' a little in their labors, must have smart men to whom they can safely entrust details.

The complaint that the 'bosses' ' relatives are put over the heads of more deserving clerks is not true. That scheme is played out and will not work. No wise man will risk his business in the hands of an incompetent son or nephew if he can get a better and more faithful employe to attend to it. It would pay him better to pension the relative. These men get salaries that were unheard of in my day, and although the prices of land have risen greatly since then cure a home of his own, within easy reach of his business, were never better than they are in New York to-day .- N Y. noon hour, and in half an hour it passed About nine o'clock on Thursday morning over, leaving a drizzling rain to beat down upon the roin that had been caused over the most fertile part of the richest farming stretch of Lackawanna County. The tornado came upon the village with terrific along young Bloom and two others thought velocity in the form of a buge whirlwheel it was coming toward them, and becoming that revolved in the air like a great black panic stricken, started to run, and miscalball, speeding directly from West to East. From this city the great black cloud was een skimming along the mountain top in was caught between the log and a tree, at awful grandeur, and when it gathered over the notch about Providence it looked like fast. The other men were afraid to move monster of devastation, and for a time it was feared its work of destruction was t e among the mining hamlets of the Lacka wanna Valley. The break in the mountain evidently deflected its course, as it swooped down on the cultivated fields beyond. Its journey Eastward was broken beyond Clark's Green, when it struck the heavy imber of the mountain side, and the swath on Thursday, and taken to Sunbury. of the great mower of wind was marked for a stretch fully a half mile wide. The village of Clark's Summit felt very little of the force of the cyclone, it veered on its very borders and struck the new dwelling of Simon Cermody, in which were five men engaged in plastering. The building was Rocky Mountains. For diseases of the licked up and hurled upon its side, a proken mass, nearly seventy feet away, cure. For constipation and clearing up but strange none of the men were injured, save slight bruises in the shaking up. Portions of the roof were carried away

undreds of yards. Then the wind galloped with maddening yur on towards Clark's Green, tearing rom its foundation a large new barn being built by James Hunt and leaving it a wrecked mass thirty feet away. Henry Robinson's barn was similarly served and so was that of E. G. Carpenter, the roof of which was carried over against the brick arm house, crashing into it with a force that shook it from cellar to garret. The porch was torn from the front of Silas White's country seat and blown 300 feet away. The roof was torn from Ed. Eisses' shoe shop. In one of the fields of Mr. Hodes' farm a horse was lifted up and sent of the owner. It is also made an ofcarried 100 feet against a building and fense for any person to deface the name tiffed. In the wrecked barns many horses and cattle were injured. Large shade trees snapped beneath the pressure of the hurricane and covered roadways and fields with their flying branches and prostrated trunks. Every orchard that felt the force of the torm was wrecked, trees being torn by he roots and carried many yards, and altogether there has never been in North-

Not Negotiable. In the suit of the Citizens' National Bank of this place against Hon. V. E. Piollet. the Supreme Court decided an interesting point of commercial law. Mr. Piollet was sued as the indorser of a promissory note across the end and on the face of which, in immediate proximity to the words of the note, were the words, "this note is hard place, of course, for men of mere given for advancement, and it is the understanding that it will be renewed at maturity." The Supreme Court holds that the agreement, to rene w the note at maturity, destroyed its obligation as an absolute unconditional contract to pay at maturity, and violated the rule that commercial pa per, to be negotiable, must be certain, unconditional and not contingent. -Bradford Argus.

What 5-A Means. The Record, one of Philadelphia's leading the soldiers' graves at Afton and Light daily newspapers, pupilshed the following esting advertisements are appearing in our A suggestion more of sheen in columns: Wm. Ayres & Sons, manufacturers of 5-A horse blankets, lap dusters, horse sheets, fly nets, etc., are the larges makers of horse clothing in the world. They believe in making strong, honest goods, which will stand rough usage, and be delivered by Rev. Isaac Putterson, of in liberally advertising them. This wise policy has led to an enormous business, and 5-A horse clothing has become known throughout the entire United States as the best and strongest. 'The 5-A manufacturers have three large mills in Philadelphia in addition to their New England mills giving employment to a very large number of working people. Owing to their superer facilities for spinning the yarns, weaving the cloth and making up the goods, they are enabled to make strong goods at as low a price as other manufacturers can make weak goods. Many are asking what 5-A means. 5-A on a horse blanket means that it is the strongest which can be obthis trade mark (the figure 5 followed by an A) was suggested by the fact that there were five Ayres in the firm, the father and four sons. The great success of this house shows the benefits of newspaper advertising. People appreciate a good thing when they know of it and nothing is so rotent as printer's ink to make a thing known.
