J. H. Hartman of New Columbia recently purchased a new farm wagon of the firm of Appleman & Bros., Benton, Pa. The wagon is a handsome and substantial one, made after the best style of that well known firm. The shops of Appleman & Bros. are vell supplied with the best machinery for he manufacture of farm and spring vagons, and they are skillful mechanics. A call at their shops will well repay those who need anything in their line.

The dwelling of William Rabb, on the cott town hill was entered on Wednesday norning at two o'clock by a burglar, who got in through a side window that had been left ufastened. He lit a kerosene lamp and was helping himself, when he was heard by the family, and he made a hasty exit brough the same window before he could be captured. Nothing was missed but a mouth organ, and a purse containing a few dollars that lay on the table.

Mr. John Kressler who received a paraytic stroke about ten months ago, has not yet fully recovered from its effects. His arm and left limb which were totally useless for a time have partially regained their usual strength, but the difficulty now seems to be paralysis of the bowels. Some days he is apparently much improved but others, his affliction is aggravated. He bears his trials well and is much comforted by visits from his numerous friends.

There is enough printing ordered from parties out of town by the several corporations, and by business men, to support a first class office. Instead of going to home printers to learn their facilities and prices, many order their work away from home on the general supposition that what they want can't be done here. The best way is to inquire first what you can get at clerks. In about a week he gave up all athome before sending your money out of town for printing, or for anything else. The Columbian office is the most complete in this part of the state, outside of Wilkes-Barre, Scranton and Williamsport. Patronize home industries

About a year ago a numbering machine was purchased for this office, in which the numbers had to be changed each time by and. The demands of our trade have so ncreased that a larger machine became ecessary, and this week we received a new one costing seve : times what our first one cost, and capable of doing the best work. Bl ank books, checks, receipts, and all kinds of printed blanks can now be numbered here. A new perforating machine has also been added to our machinery, which gives us facilities unequalled in this section, and fully as good as city offices DOSECSS.

Phillip Hess, one of the citizens of Espy, departed this life Aug. 7, at the age of 66 years, 10 months and 15 days. The cause of his death was apoplexy. His funeral services were held in St. John's Lutheran church, at Espy, where he was accustomed to attend religious service since he had be come a resident of the above mentioned place. The remains were borne to the

Afton cemetery. Many relatives and friends of the deceased were present to pay their last tribute of respect to the departed one, and to sympathize with the bereft widow and her children. May the consolations of Divine

grace prove adequate to the support of the bereft family.

The Columbian seems to harp on the tatement that the job presses in that office are run by power, and also adds that in all the other offices in the county footpower is employed. We don't like to contradict our esteemed contemporary, but have been for the past ten y ars that we the are aware of. We might add that the Cot-UMBIAN presses are run by water power .-

News Item. We accept the amendment, and cheerfully make the correction. The News Item the game played : runs its job press and newspaper press by steam power. The Communan discarded a steam engine eight years ago and put in its place a water motor, because of its being a cleaner and better power, and with this we have propelled our news press and one job press, the latter almost constantly, ever since. We always have "steam up." Now we are running a new fast running book and job press also, and the best of i is that the presses are kept busy. No "harping" about this, Brother Randall, they are solid facts.

Two men, one giving the name of John Shuster, and the other, Jerry Devine, of Danville, were riding furiously through the streets of Bloomsburg on Tuesday afternoon, driving a horse dripping with perspiration, and on whose sides and back were great welts raised by blows from the whip. After they had driven in this manner for some time, John W. Gibbs who is in the livery business, and distikes to see a horse abused, concluded to put a stop to it, and so sent for Chief of Police B. B. Freas, who soon appeared, and the fellows were stopped in front of the St. Elmo. Chief Freas ordered them to get out of the wagon, but Shuster who was driving refused, whereupon Silas Mosteller who was near by, removed him from his seat in a manner more hurried than dignified. Chief Freas, vigorously assisted by Mosteller, took him before Esquire Jacoby where he was fined \$10 and costs, on a charge of cruel treatment to the horse. The other man was not arrested as he was only in company with Shuster and did all in his power to prevent the abuse of the animal. Shuster refused to pay the fine, but when the Justice wrote out a commitment, and there was no other alternative but to pay or go to jail, he paid. JUDGE CUMMIN DEAD.

Judge H. H. Cummin, of Williamsport, died at Cresson, on Sunday morning. Although he railled a little about midnight, he did not return to consciousness, but continued in a state of coma until his

death. About the mildle of July the Judge went to Johnstown to take charge of the State Commission, which was first organized at Cresson. He then went to Johnstown to organize the work, appoint his clerks and begin the onerous duties involved. After remaining there about three days, he returned to Cresson and had his work arranged so that by working daily from eight in the morning to three in the afternoon he could run down to Johnstown in the morning and return to Cresson in the evening.

It was then that his disease, Bright's, began to manifest itself, and he only made two or three trips down the mountain. Acting under the advice of his physicians he made Cresson his headquarters and did a very large amount of work there, af, or office hours planning all the work of his tempts to work, and from that on the disease made rapid inroads to his system until death relieved his intense sufferings The funeral took place on Tuesday

afternoon, in Wildwood, Williamsport. Hugh Hart Cummin was of Scotch-Irish ncestry, and was born May 25, 1841, at Liverpool, Perry county, Pa. He was educated in the public school at his native village and afterwards became teacher in the same institution. Until 1862 he lived a Liverpool. In that year he removed to Williamsport, where he has since resided. His legal reading was done in the office f the late George White, and in August, ly went out of the room. 1864, he was admitted to the Lycoming county bar. He enlisted in the army in 1864 and went to the front, serving until the close of the war, when he returned nome and formed a partnership with his Soon afterwards Dr. Heister Hower, neph former preceptor, under the firm name of ew of the dentist, Dr. Harter, and M. The Rochester Business University appears in this issue with a new advertisement, which we commend to the attention of those young men and young women who contemplate pursuing a commercu course, or who wish knowledge that will materially promote their interests. The new catalogue mentioned in the advertisement is an elegant book, setting forth the claims of an excellent school in a very pleasing manner.

The State Normal School, Bloomsburg made a reduction in the rates a year ag-

which was followed by the largest attendance the school has ever had. The dormitory was not large enough to ecommodate the patrons. To meet this difficulty and to provide adequately for Manual Training a wing one hundred and three feet by forty has been begun.

One thousand dollars will be expended upon the kitchen, the fittings of which will be similar to those used in Girard College and will come from the same firm. The trustees have added more than four

acres to the grounds during the year, three of which include the beautiful grove on the north of the school; they have opened a well supplied reading-room, have added materially to the cabinet of specimens in Biology, and have fitted up a chemica aboratory which is in the hands of Prof. Chapin from Johns Hopkins University. A military company has been organized and equipped with muskets, that the young graded, guttered and paved, from East

men may obtain the great benefit of military training. Membership in the company is not compulsory. The drill officer, Prof. Chapin, holds a certificate from the United States Government. The prayer-meetings, that have been sustained for years by the young men and

young women separately, developed during he year into organizations of the Young Men's and the Young Women's Christian Associations. The school has been made even moreasily accessible by the completion of the Bloomsburg and Sullivan, and by the construction of the Rupert and Bloomsburg

Railroads which latter is continuous of the

BOONE-BURKE. And so S. D. Boone has deserted the ranks of bachelorhood, and has decided to change his method of life-to live a reformed life, as it were. A few days ago he left Hailey in a queer sort of way for Salt Lake city, ostensibly on business. The next thing heard from Mr. Boone is that his business was to get married, and that the eremony was performed last Sunday morn-

"If I pay you that sum tor it, will you buy it back when I return?" asked the customer, and upon receiving an affirmative reply, he promptly put up the cash. Ten days later se returned and driving into the stable, he alighted and entered the office, saving, Well, here is your team and now I want my money back." The sum was passed to him and he turned and was leaving the place when the liveryman called out. 'Look here, aren't you going to settle for that team?" "For what team?" asked the drummer, in a surprised tone. "For the one you just brought back." "Well, now," drawled the drummer, "you aren't fool enough to think that I would pay anybody for the use of my own property, are you?" and he shook the dust of the place from his feet. - Bangor Commercial.
