Our attention has been called to the fact that the wording of our report of the death of Mrs. Demott is in Jacoby county, and our office may give a wrong impression as to the action of Drs. Willis and McKelvey in the matter.

Dr. Williams was first called in and examined Mrs. Demott, and on being asked by Mr. Demott whether he could do anything, replied that "it was all over."

He knew that she had died beyond all possibility of doubt, and there was nothing that he could do.

He remained in the room a half hour, instead of going out immediately. Dr. McKelvey was called in, and he too saw at once that Mrs. Demott was past human aid, and that there was nothing to be done.

Neither was anything done, or any medicine administered, and had they been able to do so, it would have been of no avail.

Dr. F. W. Redeker of Esop, lost an interesting child of about seven months yesterday last. It was taken sick the evening before. Death is supposed to have been caused by brain fever.

James P. Sands died at his home in Mordantville on Friday last, after an illness of several months. His age was thirty-four years, eight months and twenty three days, and he leaves a wife and four children to mourn the loss of an affectionate husband and a kind father.

Sands is a daughter of Benjamin Eves. The funeral services were held at the house on Monday afternoon, and were conducted by Rev. J. P. Tustin. At the grave the Masonic ritual was read, Mr. Sands being a member of that order.

James P. Sands was a son of the late Joseph E. Sands. He had been for several years engaged in the mercantile business. He enjoyed the confidence and respect of his community. It is said that he did many deeds of charity, and that he never refused an appeal for aid. He was always quiet and gentlemanly in deportment, and made many warm friends wherever he went. The funeral was largely attended, thus evincing the estimation in which he was held by his acquaintances at home and abroad.

After a short visit to Jamison City, of less than an hour, I was requested to write a description of the place.

However, in former years, I had made several fishing trips, and do not feel entirely a stranger. From my first visit I was greatly amazed at the stupendous grandeur, perhaps not as much so as Halbos when he first discovered the Pacific Ocean, or made half the ado about it, but my appreciation of the Fishing Creek valley, has never slackened.

Within the radius of civilization there are perhaps few places having the magnificent natural scenery and wholesome elements as this one, that have not become noted and sought after by people from every section of the country.

Then, for various reasons we can with propriety, introduce Jamison City to public notice as destined to become a great Mecca, for public resort, for health, rest, pleasure and knowledge of natural scenery. The village itself is less than a year in growth, and contains about a hundred buildings, including Steam Saw Mills, planing mills, but factory and lannery, all of which in full operation will give employment to not less than a thousand hands, besides other industries.

The place reached by the B. & E. railroad, which connects at Bloomsburg with the D. & W. & P. R. railroads. At Bloomsburg we stepped into the cars and coursed for thirty miles up the creek, running through one of the most beautiful valleys in the State of Pennsylvania. In about two hours we arrived at Jamison City. The valley at this point is but a few hundred yards in width and two or three miles in length and nearly level land, very fertile and probably of great depth of soil, as
