SELECT STORY.

A TERRIBLE LESSON

FEARFUL DISASTER. The broad canvass flapped heavily the frigate rolled to port, then slowly by starboard in the last swell that lift ed the buge fabric, and, a minute later, she lay nearly motionless as the faint flutter of the breeze died away aloft, and even the heaving of the great with a convulsive grasp, while my othcean seemed to subside.

We were becalmed off the line under the burning sun, whose rays melted had been too swift to enable me to re-

the tar upon the shrouds, heated the tain my hold. As my body "righted" anchors as if they had just been drawn my hands kept to therope but for a few from the furnace and started the pitch from the deck-planks, which fairly scorched the feet of the men through air continued. In some degree my the soles of their pumps, in spite of grasp of the line had checked the the awning that covered almost every force of my fall, but I had as yet depart of the upper or spar-deck. Some of the hands fairly gasped for breath, and I heard the old coxswain of the first cutter say that it was the me and the deck, when, to my surprise,

"tightest" day he had "weathered" since he was a boy. In fact, among the whole of that ship's crew of five hundred men, even found myself swaying like a pendulum the strongest felt the effects of the in mid-air, with a rope securely tied heat, and many of the broad-shoulder-

d, sun-embrowned fellows, who, be ore noon, had been sitting around on gun-slides and on the decks reading, while I was asleep, though by whom I conversing or mending their clother, were now iszily reclining at full length, while the young topmen, usually so brisk and lively, no longer stood erect in the tops but leaned wearily against the masts and the rigging. Therefore, when sturdy grown men thus acknowledged the power of old Sol, it seemed to me-a mere youthful novice, on his first voyage, in training for a reefer's warrant—that I had good reason to be provoked at our officer of the deck - Lieutenant Biddle - for I had braced myself against the rigsending me aloft, an hour before sun

where, though it was late in the day, I ould still feel the rays of the old scorcher" darted at my devoted head ike a bundred red-hot wires. "What need," I reasoned, "of ock-out being kept in a dead calm! by the phosphorescent gleam of the The little brig, our tender, which we ast saw a couple of leagues to lee ward, is no longer visible in the haze hereaway, and though my own father -Lieutenant Colton-is in command of her, I see no use of my watching or signals from him in this weather."

lown, to the foretop-gallant cross-trees

the Lieutenant, in a voice of thunder "Hard-a-port, sir, hard-a-port, or we will be a-foul of her!" These thoughts I expressed aloud to the stordy captain of the foretop, when ne came up, soon after, to attach and nang to the cross-trees a coil of rope for reeving new top-gallant halliards on the morrow. "Lieutenant Biddle knows what h s about, sir," the man answered, "Do from running into the craft ahead.

you see that thick haze off there to windward, as well as to leeward?" "Aye, aye, plainly."
"Well, that may mean a heavy blow, sir, or it may not. In either prevented my answering. One of the case you should keep a sharp lookout, as ordered. Always obey orders, my boy, if you would win your warrant; always do your duty without questioning why you were sent to perform it,

and you will do well; otherwise, you will get into trouble." The man went down to the to again, and I am sorry to say that I it was all my fault. Had not I gone had not deemed his advice of sufficient importance to give it much at-

As darkness closed about us, I made no very determined effort to rid my- have enabled us to keep the ship off self of the dull, drowsy sensation, engendered by the close, sultry night, and the consequence was that ere I was aware of it, with my arms twin- great frigate, in that gale, with nearly ed around the stay, near which I sat, I

R. B. Angell appointed reviewers. Rheumatism.

Is undoubtedly caused by lactic acid n the blood, acid attacks the fibrous tissues, and causes the pains and aches in the back, shoulders, knees, ankles, hips, and wrists. Thousands of people have found in Hood's Sarsaparilla positive care for rheumatism. This medicine, by its purifying action, neutralizes the acidity of the blood, and also builds up and strengthens the

whole body.

THE ANNUAL REPORT OF THE GENERAL STPERINTENDENT.

Lowrie Bell, the General Superinendent of the Railway Mail Service, has submitted his report of the operations of his bureau for the fiscal year

ended June 30, 1889. The report shows that during the rear postal clerks were employed in he distribution of the mails on 133,-10 miles, service on the remaining 7,271 miles having been performed by means of closed pouches, which were, while in transit, in the custody of the railway employes.

Upon the subject of city delivery "The importance of mails arriving at the great commercial contres has become so apparent that much attention has been given to the perfecting and enlargement of the arwhich, by the usual process of assorting at the postoflices, could not be delivered before noon, or during the

vice.

Cold Waves.

Are predicted with reliable accuracy, and people liable to the pairs and aches of rheumatism dread every change to damp or stormy weather. Although Hood's Sarsaparilla is not claimed to be a positive specific for rhenmatism, the remarkable cures it sadness to many a home circle. There has effected show that it may be taken is one remedial agent that will assist for this complaint with reasonable cernature in throwing off this terrible dis- tainty of benefit. Its action in neutraease, viz; Speer's Port Wine. It has lizing the acidity of the blood, which consciousness that my impending doom was the result of the neglect of doom was the result of the neglect of duty, I shot through space toward the far out over the hussing foam, we sud-
