West Point in 1828, served seven years in the army, and then became a cotton planter. In 1844 he was one of Mississippi's Presidential electors, voting for Polk and Dallas. In 1845 he was elected to Congress, when the Mexican war broke out he was made colonel of a regiment, and fought at Monterey and will be completed before the holiday Buena Vista. He was secretary of war in the cabinet of President Pierce. 1n 1861 he was made President of the Southeran Confederacy, and held the office until the close of the war and his capture. Since then amnesty was never granted him, and he has not held any office. Mrs. Davis and one daughter survive him. The G A. They both expect to is no doubt that these failures are return in time to hear Chief Justice brought abont by the inequalities of the tariff, by which foreign manu-facturers can put their products on our markets at a lower price than our factories can reach. There is but one way out of the difficulty and that is by placing wool upon the free list, as advocated by ex-President Cleveland 5, at 7:30, present P. S. Harman, President, in his last message to Congress. The and Messrs. Fetterman, Gross, Schwin, following which is being circulated among woolen manufacturers speaks Minutes of previous meetings were tread among woolen manufacturers speaks for itself.

TO THE HONORABLE SENATE AND HOUSE OF REPRESENTATIVES IN CONGRESS AS-SEMBLED.

The undersigned, being each and all of us engaged in growing, manufactur-ing, or dealing in wool, respectfully petition that the duties on raw wool may now be removed or greatly reduced for the benefit of our domestic wool growers and woolen manufacturers alike. At a recent meeting of woolen manufacturers in Boston, it was correctly stated "that the wholesale introduction into the United States of for eign wools in the form of finished fabrics, thereby displacing American wool, which would otherwise be consumed in Mills, is due to unjust and illogical arrangement of the tariff. While the imports of clothing and combing wools has not materially increased, and authorized to draw an order for interest American production is materially claimed by Sarah A. Petriken and Anna

C. E. The money was drawn from the Treasury by Silcott on salary receipts signed by Members of the House

of Representatives, and the Treasury officials claim that the men who signed the receipts will have to stand the loss, while the Representatives are generally of the opinion that the loss should fall on the Government, and that the Government will have to take its chance of recovering the money from Mr. Leedom. Several Treasury experts are now assisting a committee of the House to investigate the books of the Sergant-at Arms. As soon as their report is made the House will take some action. Gambling and women were the cause of Silcott's ruin. He is sup-

posed to be in Canada. The nomination of Judge D. J. Brewer, of Kansas, to be associate Justice of the Supreme Court was a complete surprise to everyone here, except the Kansas Senators. It was hardly a welcome surprise either to many of the republicans. The fact that Judge Brewer is a rampant prohibitionist adds nothing to the popularity of his nomination. There is no opposition to his confirmation, which will probably be pushed right through.

Bloom Poor District. MR. EDITOR :

The annual statement of our Poor District does not usually explain why aid is furnished to families' outside of keeping them at the house on the farm, which as many allege is the place for maintaining all who are dependent on the public for relief. Any variation from this produces a great outcry against the policy of the directors. If their motives were better understood there would be better satisfactive, o the present management is more tu na re and economical than to compel a heartless sep-

aration of families which the law forbids. Moreover we have no facilities to keep our insane poor, which is a heavy tax up a us for their support in the Danville Asylum. and orders drawn to the amount of \$3157.97.
