PROF. WALLER'S RESIGNATION. On Saturday morning last Dr. D. J. Waller took the oath of office as Superintendent of Public Instruction, before J. C. Brown, Notary Public. At a meeting of the Board of Trustees of the Normal School held in the evening of the same day at the residence of William Neal, President of the Board, the resignation of Dr. Waller as Principal of the School was presented.

It reads as follows: BLOOMSBURG, Pa., Feb 25th, 1890. William Neal, Esq., President of the Board of Trustees of the State Normal School: DEAR SIR: Permit me through you to present to the Board my resignation of the position of Superintendent of Public Instruction.

The only motive is my appointment to the position of Superintendent of Public Instruction. I cannot close without assuring you of my profound appreciation of the unwavering support received, and of the cordial relations that have existed between the Board and myself for almost thirteen years. Very truly,

D. J. WALLER, JR. The resignation would have been handed in on Tuesday preceding, but the regular meeting of the Board was adjourned until Saturday.

After some remarks by several of the trustees as to the value of Dr. Waller's services to the school, and the difficulty in filling his place, the resignation was accepted, to take effect at the end of the school year, which will be next July.

On motion a committee was appointed to take appropriate action upon the resignation of Dr. Waller. The committee consisted of William Neal, Jas. M. Clark, Geo. E. Ewell and C. G. Barkley.

There has been a marked feeling of strong effort to induce Dr. Waller to remain with the school, and that took definite shape in the following petition signed by all the members of the Faculty: BLOOMSBURG, Pa., Feb 10, '90. To the Trustees, Bloomsburg State Normal School, Gentlemen:

We the members of the Faculty of the Normal School, cannot otherwise than with you share the honor that has been conferred upon our School by the appointment of Principal Dr. D. J. Waller, Jr., to the highest educational office in the State. But while we sincerely honor him, we at the same time feel that the continued prosperity of the School depends upon his connection with it as its Principal. Seriously therefore believing as we do, we deem it our solemn duty to entreat you to use every effort in your power to retain him.

Very respectfully yours, H. H. CURRIAN, CHAS. H. ALBERT, W. NOBLE, H. E. CHAPIN, H. C. WILBUR, ANNA R. LAMBERT, I. W. JENKINS, CLARA E. HARTLEY, ENOLA B. GIERK, JOHN G. COPE

The Senior class presented the following: To the Trustees of the Bloomsburg State Normal school, GENTLEMEN: At a meeting of the Senior Class held on the 21st inst., the following resolution was unanimously adopted:

WHEREAS, The Governor has seen fit to appoint our esteemed Principal, Dr. D. J. Waller, Jr., to the position of Superintendent of Public Instruction of the Commonwealth of Pennsylvania, and, whereas, we realize that the success of the present as well as of future Senior Classes depends upon his remaining with us, be it therefore Resolved, That we respectfully ask you to make it as advantageous as possible for him to stay. Signed, EDWARD HAYMAN, JENNIE DUNDEE, Com. J. W. BECKE.

On motion, these petitions were referred to the above named committee. The committee could be more interested in retaining Dr. Waller's services than the Board of Trustees, but it was the unanimous feeling that while they would part with him with deep regret, it was not right for them to stand in the way of his promotion by refusing to accept his resignation.

Dr. Waller went to Harrisburg on Monday morning and assumed control of the office of State Superintendent.

Patrick Lynch died last week Wednesday, leaving a wife and seven children. The Ashland Local says: A heart rending scene was witnessed by your reporter as he was on his way home on Monday evening. On reaching McLaughlin's corner a loud cry of murder was heard coming from the direction of Park Street. Hastening to the spot he found a mother almost broken hearted, endeavoring to get her fourteen year old son home, who was intoxicated and in a semi-conscious condition, uttering oaths and exclaiming now and then "I am going to Hell!" Then the mother stated that the whiskey was given her son by men who are well known, and whose names are withheld for the sake of their families.

SILVER BELLS. The twenty-fifth anniversary of the wedding of Mr. and Mrs. E. P. Williams was celebrated at their home on Fifth Street, Friday last, February 29th. Invitations were issued to the number of about two hundred, most of which was to friends in distant points. By reason of the lute season many were debarred from attending who otherwise would have been pleased to attend. There were present about thirty couples. The announcement had set apart 8 o'clock as the hour for convening, but owing to the exceedingly fashionable invitations of the good people of the town it was nearly ten o'clock before the guests arrived. The wedding march was played by Mr. Bacus of New York city, and soon after dancing and card playing was freely indulged in. At 11 o'clock a bounteous repast was served. About the time the month of February was closing March quickly stealing upon the happy guests, and card playing was abandoned and resumed and continued until about half past three, when all reluctantly separated. In addition to the many friends from this place there were present Mr. Bacus, of New York City, Messrs. Hodgson and Dare of Scranton, the Misses Toole and Mrs. Johnson and daughter of Northumberland, Mrs. Carter of Binghamton, N. Y. Among the many beautiful presents given were the following articles of Silverware: Cake knife, pie knife, berry spoon, fish fork, salad fork and spoon, set of silver tea knives, sugar after, soup ladle, pepper and salt box, glove butterer, oil fork, butter pick, silver carving set, pudding dish, dried beef fork, olive castor and fork, silver tea set, fruit dish, cream jug and sugar bowl, high German silver dining table, silver chocolate set, doton pitcher. In addition to the silverware were handsome towels, and tablecloths, several checks, old oak buffet and handsome cut downers. All present enjoyed themselves hugely and extending their congratulations to the host and hostess, wished them long life and continued happiness and prosperity.

Beaton. The cold wave has struck us at last, hope it will remain long enough to make some ice.

The local Institute held here last Saturday, proved quite a success, notwithstanding the muddy roads. The principal subjects embraced were "School Improvements," "Higher Wages for Teachers," and "More Luxurious School rooms." It is a wonder to us who is going to pay the bill, when we have to sell wheat for 80cts per bushel.

Very pertinent from Mr. "Farmer" in your last issue was carefully perused, and found very article to the subject. We would like to hear from more farmers on the subject until we get at the real cause, then probably a remedy can be applied.

Miss Lena Cole and her friend Miss Hurdman of Jamison City attended our Institute.

A delegation of the I. O. O. F. of Orangeville visited the Lodge at this place last Saturday evening for the purpose of giving a social to our new members. They returned the same evening by special train on the B. & S. It was with much anxiety that the Beaton Choir rendered some very excellent music at the Institute.

Parties are negotiating with H. H. Hulme for his timber tract. Our interesting citizens are anxiously awaiting for spring to open, that building can be resumed. We expect a great many new houses to be built this coming summer. Beaton is the town of upper Columbia.

We were sorry to see our old friend Will Brown leave us, on Monday, for Montana. Will is a good steady fellow and a sams to be quite a favorite among the ladies. From all appearances last Sunday night, we think he will be back soon. Then Charlie will have to keep an eye on him.

ATLANTIC CITY. IMPROVEMENTS ON THE READING RAILROAD'S SEASHORE LINE. Those of our readers who know Atlantic City only as a winter resort would be amazed to witness the evidence and activity now observable there. The largest of all our coast resorts, it well deserves its title of "The American Brighton," having within the past few years been metamorphosed from a mere summer pleasure place to a great and permanent sanitarium and abode of recreation. The Spring season is now opening, all the leading hotels are open, and the daily promenade along the beach is crowded with visitors of fashion and seekers after health and rest. The remarkably heavy business done on the Reading Railroad's Atlantic City line last year has encouraged its management to still further improve that excellent road. By the liberal & judicious expenditure of large sums of money in strengthening the permanent way, and increasing the equipment, supplemented by wide and skillful advertising, this route has jumped to the front of seashore lines in a way that astonished conservative railroad men, and the courage and enterprise of President Corbin and his able coadjutors were amply rewarded by an enormous increase in the road's patronage.

In anticipation of a still greater volume of travel during the coming Summer, the Reading Railroad has purchased at its entire length with 70-pound steel rails, and it is expected that this improvement will be completed by April 1st, making the Reading the first, and, for the present, the only double-track railroad between Philadelphia and the seashore. This will enable trains to be moved with increased promptness, and it will also have the effect of establishing an additional safeguard against accident.

The Reading's new depot at Atlantic City is said to be the finest and most complete railway structure on the coast. It is 550 feet long, with a frontage of 300 feet on Atlantic Avenue—the main thoroughfare. The train sheds are 450 feet long, with room for six tracks, and between these are platforms twenty-five feet wide. The capacious waiting rooms are artistically finished in oak, with masonry furnishings and rich carvings. Architecturally, the station is a beauty, and its great dimensions will enable the railroad people to handle immense crowds without difficulty or delay. Arrangements have been made to augment the motive power and car equipment to meet the expected "boom," and Reading officials predict a phenomenally big season of travel.

GUAVA. The people seem well pleased with their singing master, and are learning very fast. The oyster supper at Bruce Stuffs, on Thursday and Saturday night, for the benefit of Rev. Perry was largely attended, but we are unable to give amount taken in yet.

The social party at J. N. Pennington's was not very well attended on Saturday night. The party it was made up for, failed to put in an appearance, on account of bad roads. But we learn it will be some other evening before long.

Rev. Shortess preached his farewell sermon in the M. E. Branson church, on Sunday evening. We hope he will get back on this charge again.

John Fritz closed his school this week. Chas. Stucke took the train for Bloomsburg on Monday, he was called to the latter place on business.

C. F. Mann our prominent "Operator" has in his charge two stations now, Jamison City and Laubsch. He is carried to Jamison City in the morning on a freight train, and back on a passenger train on Saturday in the two places, he has secured the services of Frank Brunstetter at J. C. and B. R. Laubach student for Laubsch. We are expecting him soon to wear a new silk hat. He is deserving of one anyway.

Mrs. G. L. Hess and family were the guests of Andrew Laubach on Sunday last. They came up from Delaware to Pa. in a steamer, but were detained one day by the steamer running on a sand bar, where they were compelled to remain from 7 a. m. till 5 p. m., until the tide had risen. Mr. G. L. Hess will drive from Philadelphia to this place and expects to arrive some time during the week.

M. Kille and wife and a number of others took the train for Bloomsburg and other points on Saturday.

W. H. Bolinger formerly "Op" of Jamison City, was visiting Chas. Mann Thursday and Friday. Come again Mr. Bolinger, you are always a welcome visitor.

East Beaton. Mrs. William Iphor of Beaton township is in possession of a large and beautiful butterfly that measures 6 inches from tip to tip across its wings. We saw this beautiful object on Feb. 18th.

Sometime ago we reported the weight of Joseph Dietrick's hog, near Van Camp, erroneously. Instead of 490 it should have been 530 lbs.

At this stage of the progressive age, it is proposed to run the elections here after by steam. "Fraud and boodles" are too slow. The electric era is not far distant as experiments already prove a partial success, since lightning strikes in unexpected places. Verily "The world moves," but boodles move it.

We met John I. Creveling Esq. and his wife in Bloomsburg last Monday. We did not recognize the young attorney, even after a hearty shake by the hand. John was always a good boy, and is now a successful lawyer at the bar of the Luzerne county courts.

To all readers of the COLUMBIAN and to the travelling public, interested in good roads, who may favor the proposed schemes with regard to new road laws and road money taxes, we refer to the Shickshinny Turpike, on which the travelling public since its opening has been a great boon, and team and 14 cents per mile with 2 horse and 1 cent per mile on road to which the tax has been worked out, is in less fit condition for travel and carting, nor has been for the last six months than the Shickshinny Turpike. We do not ask you to take our word, but simply say you go and see for yourselves, and satisfy yourselves that the proposed road scheme will be the best road plan that has knocked at the door for a country road.

Interested People. Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The Large Bottles are 50c and \$1.00. We certainly would advise a trial. It may save you from consumption.

Notes From Epy. Birthday surprises seem to take the lead in our quiet town of late.

On last Friday evening a very agreeable surprise of this kind was given in honor of Mr. William Dietrick, one of our prosperous business men. The honorable gentleman upon returning from Bloomsburg in the evening, found his house well filled with guests waiting to greet him, and a table spread with a variety of the many good things in this life. After all had partaken of the bounteous repast, and enjoyed the music given by the young people, they returned to their homes feeling that they had an evening of delight, and converse with their friends.

Wanamaker's. PHILADELPHIA, MONDAY, MAR. 3, 1890. If you've watched the market you know how Cashmere and Henrietta and all that family have gone up in price. Bad for hand to mouth stores. We ordered before the advance, yours the saving.

For instance, here's an all-wool silk finish Henrietta, not simply French, but made in France. The 38 inch is 50 and 65c; the 46 inch is 75c, 85c, \$1, and \$1.25, cheaper, quality for quality, than last season. Forty three shades, including all the new and delicate tints.

Another from the same shearing. Drap'd Amazon. Has a broadcloth look; crowds the finest broadcloth hard in substance, dyes, finish, beauty—but lighter weight. A delightful stuff for women's Spring wear. 50 inches, \$1.50

Drap de Paris is still another friend winner. Spring wear and Spring shades. 48 inches, \$1.

Fancy Tricot that is remarkable for three things: 1—width (45 inches); 2—good looks; 3—bargain price on new goods. The broadish stripes are in saten weave, and are self-colored. All the desirable shades are in the line. But here's where the fun for you comes in: We practically give you nine inches of width with every yard you buy. 36-inch Fancy Tricot of this grade would be 50c; this 45-inch stuff is 50c—and two yards less of it is enough for a dress pattern.

Wool Surah. Like a very fine grade of serge, but cloth to the touch. Entirely new, and "just lovely" the salespeople say. They know. In twenty-three shades, including the most delicate of the season. 42 inches, 75c.

The little priced Cottons. We've been skipping their two or three hundred feet of counter all the season. An hour of quick looking and you'd not get at all their newness and brightness and sturdy worth.

Year by year these modest, unpretentious stuffs have been bettering and bettering. The wit of prouder goods is quick to show in them.

Take the Seersuckers, the crinkled ones, but the plain sturdy sort that has held friends for ten years. Gingham style and gingham beauty tied to the quality that every thrifty mother knows so well. 12 1/2c.
