Terrible Accident. Wesley Derr, aged about 35 years, and well known throughout the country as an upright and respectable citizen met with a most horrible accident on Tuesday afternoon of last week near White Hall. His occupation is that of a stone and stump

blaster. In blasting he used dynamite. A charge had just been placed under a large stump on the farm of John Moser, discovered that in some unaccountable manner the fuse had become ignited and was burning within a few inches of the cap. A minute's time and he would be blown to atoms. This Mr. Derr realized, and he Weber. immediately begin stamping the treacherous, smoking fuse in the ground. In his excitement the unfortunate man forgot about the cap and he accidently struck the latter with his heavy boot. The shock

thus occasioned caused the dynamit : to explode, and the result was a borrible one MR DERR'S MANGLED BODY. The unfortunate man was blown a dist ance of about twenty feet, and when the other workmen reached the spot where he lay a horrible spectacle presented itself. Derr's right leg had been blown off below the knee, while his right cheek and eye were literally blown away. It was indeed sickening sight, and the men could scarce find courage to lift the poor unfortunate from the ground. A thorough search

for the detached limb only revealed portions of that member, and had the force of the charge but struck a foot higher Derr's body would doub'less have been blown to atoms. As it was he still lived, and he was carried to the nearest farm house while a messenger was immediately dispatched for surgeons. In a very short time Drs. Reed. Swisher and McHenry were on hand and attended the man's injuries. The physicians state that he has one chance out of ten to recover. - Danville Intellige neer.

To the County Commissioners. EDITORS COLUMBIAN: DEAR Sins: - We were always under the impression that public officials were the peoples' servants not their masters. But alas! How mistaken were we! What a "spectacle" the commissioners cut in las week's Columbian; replied to our articles, but neither admitted or denied anything. Gracious, how the tax-payers were colight ened. If the commissioners expect to conquer by bluffs they mistake their man. If we made any misrepresentations, why not call the public attention to the facts? If the truth was told, why such a storm of indig-

Stealing Steel Plans. DANVILLE, March 31. There has been rouble for some time between Johnstow people and the North Branch Steel Company of this place over the manufacture of an alleged steel rall, and for some time litigation has been kept up. Parties have been sent here disguised as workmen, and various attempts made to discover the exact method of manufacture, but so far

This morning, at 2:30 o'clock, four men entered the drafting room at the works, and opening the safe, took from it drawings and plates of rolls used in the making o rails. When they attempted to escape they ran into the arms of three detectives, who had posted themselves in regard to this atempt, and were waiting to bag their game Three were arrested and placed in jail The fourth escaped, but it is said he was drawing the others into this ciever trap. The burglars gave the names of Rober

Murphy, Henry Shea and E. B Enter soll and registered at the hotel as from Philedelphia, but in telegraphing for money for ball they sent to Johnstown. On Monday the men were brought to Bloomsburg and had a bearing before Judge Ikeler who held them in \$1900 each

The Laws of Subscription Newspaper subscribers are probably norant of the laws protecting the pub lishers, and what follows will no doubt I news to many people in some respects When it is taken into consideration that the individual who takes a paper gets it for a mere song, the wonder is that any should neglect to pay for it, or not wanting it, should fail to notify the home office of that fact. As will be seen by a careful perusal of the de cisions of the United States Court on the subject, as recently compiled by Dr. Tuck. erman Editor of the Workman, at Cleveland, much trouble may be avoided and money

saved. Here are the decisions: 1. Subscribers who do not give express notice to the contrary are considered as wishing to renew their subscriptions. 2. If subscribers order the discontinu ance of their periodicals, the publishers may continue to send them until all arrear.

6. If subscribers neglect or refuse to take their periodicals from the post-office to which they are directed, they are responsible until they have settled their bills and ordered them discontinued. 4 If subscribers move to other places

5. The courts have decided that refusing to take periodicals from the office or re moving and leaving them uncalled for is prima facie evidence of intentional frau 1. 6. If subscribers pay in advance they are bound to give notice at the end of the time if they do not wish to continue taking it; otherwise the publisher is authorized to send it and the subscriber will be responsi-

Brown's Sarsaparilla is a good medicine. I know his as it has been in the house of my folks, and it is pronounced by them to be the best of sil the Sarsaparillas for the blood, and will work wonders after others have falled, and were I in need of any medicine for the blood I would take that in preference to sil others for the blood, kidneys, liver Dull and Langus of Evenury Santern Carel. D. Manyille, Evenury Santern Roser and Santern Roser In the latter part of the winter and spring of 1885, I sett—i don't know how; no life; no ambition; no strength; drown; no appetite worth naming, and no reliab for what little I did est. I bought t bottle of Brown's Sarsaparilla. It seemed to do no good until nearly gone, when a tremendous litching of my feet and legs commenced; I continued till I had used six bottles; my appetite returned, my food basted natural, and I, though now & years of see, feet and the latter of latter of the lat

and I, though now 83 years of age, feel as well and lively as I have for liventy years. I cannot speak too highly of Brown's Sarasparillis.

A very strong case showing
what Brown's Sarasparilla will do for the children is that of the little daughter of Don

A.H.Powers, Esq., of Houlton, Maine, brother of ex-Congressman Powers, and one of the leading lawyers of Acceptance sensors.

A.H.Powers, Esq., of Houlton, Maine, brother of ex-Congress mast little daughter of Bost leading lawyers of Aroostook county. His little five year old glot had been in delioned beatth, pale and with little appetite, for some time. Mr.Powers had never fried any outent medicines, and had little faith in them, but so numerous and strong were the worth of commendation that came to him from neighbors and through the press, that he was induced to try a bottle of Brown's Sarsaparilla for the little one. This was used according to directions, and a second one purchased. What was the result? Mr. Powers says the variable appetite gave way to a natural ral and hearty desire for food, increased vigor and vivacity were noticeable, glowing checks and bright eyes fook the place of the pallid face and sallow look, and the hearts of the parents were gladdened beyond expression by the wonderful change which had taken place in their darling.

Annle B. Blodget of Lisbon, N. H., writes: My husband and my nices have both taken Brown's Barsaparilla by my advice, and we would not be without a bottle of it in the house. It has relieved me of many pains which I have suffered from for years. I have great faith in your medicine and wlah I could commend II personally to all who are suffering from the many complaints of women caused by poor blood.

A. L. PRITZ. CLARENCE A. PETERMAN, Indigestion

Is not only a distressing complaint of become deprayed and the system en maladies. That Ayer's Sarsaparilla is the best cure for Indigestion, even when complicated with Liver Complaint, is proved by the following testimony from Mrs. Joseph Lake, of Brockway

Centre, Mich.;—
"Liver complaint and indigestion made my life a territor and came near four years I suffered untold agony, was reduced almost to a skeleton, and hardly had strength to drag myself about. All kinds of food distressed me, and only the most delicate could be digasted at all. Within the time mentioned several physicians treated me without giving reductions treated me without giving reductions to the first treatment of the second to do any permanent good until I continenced the use of Ayer's Sarasparilla, which has produced wooderful results. Soon after commencing to take the Sarasparilla I could see an improvement in my condition. My appetite began to return and with it came the abolity to digest all tice food taken, my strength improved each day, and after a few months of faithful attention to your directions. I found myself a well woman, ashe to strend to all beasehold dates. The medicine has given me a new lease of life."
