Democratic Club.

A meeting of the Democratic Club of Bloomsburg was held in Dentler's Hall on Friday evening last, for the purpose of effecting a permanent organization.

The committee on constitution and bylaws made a report which was adopted. There are two classes of members, contributing and non-contributing. The latter have all the privileges of membership but voting. This arrangement was made so that every democrat in town can join the club, whether he can afford to pay anything towards the support of the club or not. The object is to keep up a perma nent organization, and if the movement meets with proper support, to maintain club room where the daily papers and oth er literature will be kept on file, and where democrats can meet and discuss the issues of the day. The following officers were elected : President, John R. Townsend, vertising goods as sold at Receiver's saic. Vice President, Geo. E. Elwell, Secretary. R. R. Little, Treasurer, Grant Herring Executive Committee, C. H. Campbell. G. W. Sterner, and W. F. Bodine. A committee on enrollment was appointed con sisting of F. D. Dentler, D. R. Coffman and W. F. County Superintendent. WHY MR. GRIMES OUGHT TO BE RETAINED.

WHAT THE LATE SUPERINTEND

ENT HIGBEE SAID

KEEP GOOD MEN IN OFFICE UNTIL RET-THE ARE TO BE HAD. LONG TERMS OF OTHER SUPERINTENDENTS. INTRRESTING PIGURES

The School Directors of Columbia county will meet in convention in Blooms burg on Tuesday, May 6th, for the pur pose of electing a county Superintenden for the succeeding three years.

The present incumbent, Mr. J. S. Grimes s a candidate for re-election. As is natural, a fair salary being attached to the position, there is an aspirant for it, and Mr Grimes meets with some opposition. It is o weak, however, as to hardly amount to The arguments used against his re-elecion indicate most clearly there is no just eason for his defeat. There is but one:

He has had it long enough. Give some

oody else a chance (at the salary .)

As to this: It may well be asked. Who the position long enough or not? Certain picture well worth seeing. As you watch the men at work on the banks, scattered for the money there is in it. Most assurhere and there, each with a lighted lamp, edly not the individual who has an ax to the scene looks like so many natural gas grind and who thinks he may subserve his jets burning. The work of screening the own personal interests by securing the banks is rapidly progressing, and should election of this or that man. Neither should it be the irresponsible and unprincinot be long before other companies will pled demagozue whose personal predju-follow suit, and the numerous banks in the dices alone prompt him to exert his influence to prevent the election of a gentleman, who, through nine years of efficient services has given such complete satisfaction that none, not even his bitterest personot enemies, nor those who are most vigor ously opposed to him in the present can rass, dare utter a word against his fitness for the position. This question of fitness has not entered the contest at all except when it has been to speak words of praise for Mr. Grimes and his administration o the school affairs of the county.

The late Dr. E. E. Higbee, upon hear ing the false report that the Department served for three successive terms he should be retired and a new man elected, said. This Department never made such a silly announcement or declaration. Efficient Superintendents should be kept in office inless more efficient ones are to be had." This would seem to indicate, beyond lestion, that in the opinion of the State Department of Public Instruction, Mr. Grimes has not held the position of County Superintendent long enough.

Precedent is a pretty safe criterion. brief examination of the record shows: That Dr. Wickersham held the office of State Superintendent of Public Instruction from 1866 to 1881, four terms or sixteen

Apr. 15, 1881.

DEAR SIR: Being in receipt of a number of letters oliciting me to be a candidate for re-election of County Superintendent at the next election, which I cannot conscientiously be, having said three years ago that would not be a candidate. I thank the re licitors for their kindness and hope they will stand by my successor as they stood by me in behalf of the public schools.

Yours respectfully. Precedent would seem to indicate tha

Mr. Grimes has not held the position of County Superintendent long enough. Mr. Grimes has been an efficient Superin tendent. All admit this. The one seeking his place must admit it. His friends must admit it. The period in the history of our public schools, since they have been under his supervision, is a period of un-

usual growth and advancement in every

department. During Superintendent Grimes' adminis ration of school affairs, the County Institutes have been a marked success and have peen recognized by all as a most potent means of advancement. It has also been frequently remarked at these annual gatherings that the general appearance of the teacher has improved, showing conlusively that the selection and commissioning of teachers has been not a matte of figures and form, but a reality, reflect ing credit on the careful and painstaking efforts of the Superintendent. To show the progress of the County Institute we shall quote from Mr. Grimes' last year's report to the Department of Public Instrucion. "The entire expenses, janitor, ball,

lecturers, instructors, etc., of my predeces, sor's last Institute were one-hundred and seventy- eight dollars and fifty cents. The receipts from the evening lectures of my first Institute were sixty dollars and sever ty-five cents. The receipts of the last Institute were ten hundred and twenty-eight iollars and seventy cents. Great interest has been manifested

improved methods presented, but in creatng more interest and enthusiasm in educational work. The schools have improved fully as much as the institute."

Nearly every Saturday from the first of December until the close of the schools in the rural districts, he is engaged in holding well attended local institutes.

If you will send us your address, we will mail you our illustrated pamphiet explaining all about you over illustrated pamphiet explaining all about to pour our illustrated pamphiet explaining all about to pour address, and their charming effects upon the revous debilitated system, and how they will quick by restore you've justice, and how they will quick by restore you've justice, and how they will quick by restore you've justice, and appliances on trail.

1.5:--iy. Voltage Bett Co. Marshall, Mich. ational work. The schools have improved

It is an appreciable fact that Mr. Grimes attends the leading educational meetings broughout the state, and thereby makes himself familiar with the institute lecturers and instructors. Hence his ability to sunt the intelligence of those that patronize the County Institute. Mr. Grimes has shown marked ability and tact in securing the co-operation of the teachers and in uniting the educational forces of the country to further the interests of education. Super intendendent Grimes is an untiring worker and as such has been recognized. He poscases great skill in the way of uniting discordant elements and securing united ef-

fort upon the part of all. The real power

of a good Superintendent is not so much in what he can do himself as in what he

can get others to do. Supt. Grimes excels

in this direction. The real service which the Supt. has endered our county does not show itself in an array of figures as shown in statistics, nor can it be fairly shown in the mere statement of facts. He has carried with him an influence for good that has touched the lives of the children; an honest endeavor to do right which has secured the confidence of our people, elevated the standard of educational works and made eaching more honorable. He has touched every educational factor. The interest of the people has been greatly increased: the co-operation of directors has been more mpletely secured; the scholarship of achers has been improved and their professional knowledge increased; and more efficient work has been accomplished by the children.

In a copy of the New England Journa Education of Jan. 5th, 1883, Dr. A. E. Winship, editor said the following: Mr. Grimes is a man of rare skill in selecting teachers, a good judge of human nature an effective public speaker, an industriou school visitor, and an energetic institute

rganizer and director. In the editorial department of the Phila elphia Times of May '87 is a paragraph condemming rotation in the office of Co. Sant. It runs as follows: "The fact that Supt. Cottingham of Easton, has been in office for a third of a century and is a better Superintendent of Schools than he eve was before is only one of the many that give the lie to the claim that the public nterest is served by sacrificing experience

or the sake of rotation." There are some positions the duties o which the duties are purely clerical. A to these, rotation is perhaps, a good thing. But the County school superintenden cles are in another class and in filling them experience should always be a first consideration. The Superintendency is not a partisan office. There is no delegate election, followed by a nominating convention.

Then again Superintendent Grimes not a novice in school work. He has no only had successful experience as a teacher in the ungraded schools of this Co , but also in the graded schools. He has acted as Principal of the graded schools at Lime Ridge, Mifflinville, Buckhore, Ebervale Luz. Co., and at Catawissa for two terms He brought with him to the Superintend ency a valuable experience and has added o it incessantly during the past nine years Such a Superintendent held the position long enough? The lamented State Superin

indent Highee says "No". Precedent says "No." All the facts say "No." The School Directors of Columbia Co., on Tuesday, May 6th, 1890, will say 'No," emphatically "No." BOARD OF SCHOOL DIRECTORS.

"Of the many preparations before the public for the cure of colds, coughs, broughtis, and kindred diseases, there is none, within the range of my experience, so reliable as Ayer's Cherry Pectoral. For years I was subject to colds, followed by terrible coughs. About four years ago, when so afflicted, I was advised to try Ayer's Cherry Pectoral and to lay all other remodies aside. I did so, and within a week was well of my cold and cough. Since then I have always kept this preparation in the house, and feel comparatively secure."
