The passage of this resolution has thoroughly discour aged the free silver men, and they mean to strive no more for their measure this session but accept the House bill which will pass, and endeavor in vain, to have it ...mended in respect to the bullion clause

This bill, which goes into effect 80 days after its passage, directs the passage of \$4,500,000 worth of silver every month, to be paid for by silver stood to have prepared the original draft of his will himself, but he was bullion treasury notes, redeemable in coin, and made a legal tender for all debts, public or private, except where a wise enough lawyer to call in the aid otherwise stipulated in contract. The Secretary of the Treasury may redeem them in silver bullion at the market price, and may coin such bullion as is aded to redeem silver notes, but the \$2,000,000 coinage act is repealed. If silver goes up to par coinage shall be free. Finally \$60,000,000 held in the Treasury as a redemption fund, for the notes of retired national banks, is to be turned into the general fund.

The business men are now having a hearing before the Finance committee of the Senate, in protest against the injustice of the McKinley bill. Mr. A. H. Saxton, of New York, represented the jobbing hardware trade of the United States and an investment of \$60,000,000. He fully and strongly exposed the misstatements of the cat lery manufacturers by which they had induced the co.nmittee on ways and such a case there can be no litigations means to reduce the cutlery rates He showed by their own statistics that their produces have increased 50 per cent in the last six years, instead of largely falling off as was claimed, and that importations had decreased 7 per That instead of this profit being \$815,000 in 1887, as stated by them, it was \$1,800,000. Representative Cooper, of Indiana. to-day introduced a resolution, which was referred to the Committee on Rules, directing the Committee on Invalid Pensions to inquire into the charges that have been filed with the President relative to Commissioner Rau.a's conduct of the Pension Bareau. The resolution sams up the charges as follows:

First-That the present Commissioner of Pensions has been engaged in selling to certain employees of the Pension Office shares of stock in a corporation or company of which he is President, which is organized for the purpose of introducing a patent refrig-erator which, it is claimed, is impract icable and worthless, and that in consideration of such purchase said em-ployees are prot oted in office; and.

Second-That said Commissioner of Pensions has recert'y, by an urjust and partial ruling, advanced and caused to be taken up out of their order many thousands of the claims of a certain attorney residing in the city of Washington and that in consideration there-
