The independent republicans opposed to Delamater have opened head-quarters at 931 chestnut street, Philadelphia Company phia. Gorge E. Mapes is chairman of the committee. They will soon be grn an aggressive campaign.

To day is "labor day", and it is being generally observed by the labor organizations of the city. They want Congress to make a national holiday, The preliminary farce of depriving another domocrat of his seat—Breckinridge, of Arkaneas—is going on in the House to-day. It is hoped that his constituents will see to it that he Hon. S. P. Wolverton has been named for congress by Northumberland county, which with Columbia, gives him half the district and makes it cercomes back to the next House with such a big majority that even a repub-lican election committee will not dare to question his right to represent his tain that he will be nominated. We expressed our preference for Mr. Wolverton some time ago, and urged his nomination in the event of Mr. Buckalew's not being a candidate. He is a garity precipitated the rumpus which ended in a slugging match on the floor of the House last week, has thereby so man of ability and activity, and he will represent this district with great credit to himself and his constituency.

Some of our esteemed contemporaries outside the county are predicting warm times in Columbia county poliwarm times in Columbia county poli-tics this fall. They seem to be under the impression that there is to be a revolt of some kind, and that things are going to be turned topsy-turvy, but we are at a loss to know upon what their surmises are based. The whole ticket nominated by the Democrats will be elected by at least the usual majority. There were a few disappointed ones, as there always is after he convention, but there has been no intimation from any reliable source of a bolt, or an independent candidate for any office. Where, then, are the "warm times" coming from? There will be great enthusiasm here over the Democratic state ticket, as the campaign progresses, and the local ticket will be warmly supported with perhaps a little cutting here and there, but Columbia will come up to the polls in November with her usual majority for the Demo-

For Congress, Hon. S. P. Wolverton of Sunbury, was nominated. This gives him two of the four counties of district and he will be nominated by the conference, as he is the second choice of Montour county and will probably receive the instructions of Sullivan when they hold their county convention. The district is from three to four thousand democratic, and of his election there can be no doubt. Senator Wolverton is so well-known to the people of this county that it is not necessary to tell our readers who he is as he is acquainted, personally, with a majority of the people of the county. For many years he has been one of the most prominent attorneys in this section of the State. For ten years he served in the State. For ten years he served in the State, leading the Democratic side of the house. He is in everyway qualified for the position and we predict his election by the and we predict his election by the largest majority ever given in the district and his holding a position in Washington among the leaders of his party.—Sunbury Democrat.

WASHINGTON LETTER.

Washington, D. C. Sept. 1, 1890. Senator Edmunds has exposed the gloven republicans foot by his resolution for a Congressional recess, instead of adjournment, from September 19, to November 10. Having by various methods succeeded in getting a date set for the disposal of the tariff bill the most unjust financial measure of the age—the republicans now propose that Congress shall meet again after the Congressional elections in order that it may proceed to do what it does not dare to do before those elections. This action of Mr. Edmunds was taken because Mr. Harrison refused to assume the responsibility of calling an extra session for the sole purpose of enacting odious political laws and mak-

ing unnecessary appropriations.

First and foremost, if the republicans are allowed to carry out their cans are showed to carry out their programme, and they will not, unless the united legitimate efforts of the democrats shall fail to prevent it, will come the force bill, upon which the republicans are already banking to carry the Presdential election of 92—their leaders expect to loose the next House; but are raising a large fund to late can be carried with all of the election machinery in the hands of anscrupulous Federal agents.

They are open to all who accept the immortal principles enunciated by Mr. Jefferson and illustrated by his administration. They would preserve the rights of the many, not the privile-ges of the few. In them the people meet, uncorrupted by money, unawed by bosses to defend their own rights

and to protect their own interests.

The political situation in Pennsylvania to-day, more than ever before, invites, if, in truth, it does not require, the voluntary organization of the people for self-defense in the form which descends to us from our fore-fathers along with the principles of free government which they employed it to protect. But the wrong being acknowledged, the remedy obvious, the cause nothing less than the restoration of the whole people to their right of self-government with free choice of public servants, shall we abide the grace of the boss and the pleasure of monopoly, or will we take and enjoy our rights at once? The road is open and straight. No one can mistake it, and no one does mistake it. The election of the reform candidates for the state offices and of

candidates for the state offices and of a majority of the reform candidates for the legislature will produce a call for an immediate constitutional convention to eliminate the marked ballot provision from our constitution, and to establish the Austra-

lian system of secret voting, making every man his own master at the polls.

With this free and secret bailot we need have no fear for the future, Whether Pennsylvania thereafter shall be Democratic or Republican, or neither, it will, at least, be a free state, and the Democratic societies, inspired by the faith of their forefathers. may look forward with confidence to the ompletion of their selfimposed mission, when there shall be no longer either a political or an industrial slave within the board limits of our commonwealth.

THE MINERS REVOLT.

WHY THEY REJECT DELAMATER AND SUP PORT PATTISON.

Interview of Hugh McGarvey, Chairman of the Legislative Committee of the Knights of Labor in the Ladger. The sentiment ther, and in the imediate vicinity is strongly in favor. of Pattison. I have been in Carbon, Luzerne, Schuylkill and Lackawanna counties since the nominations were made, and found the feeling intense. My correspondence with friends and

abor men is very much to the same effect. I have yet to hear a working man, who knows "how many beans make five," stand up and defend Delamater. On the other hand, I have heard hundreds—and Republicans at that—denounce him and advocate the election of Pattison. It is not all love of Pattison, to be sure, as it is opposition to Delamater. Still, Pattison is extremely well liked by the mine workers and would receive a handsome vote from them, no matter whom

officially included—to give the relief and protection asked for by the working people of the State. Besides the more intelligent among the miners are satisfied that the charges made against Delamater in connection with the ore plug bill in the session of 1887 are true. This strengthens their belief in the further charges made against

the further charges made against hom by Senator Emery.

The key of the situation, however, is Mr. Delamater's record on labor measures last session. First he failed to vote for the factory inspection bill, giving protection and relief to the working women and children of the State. Next he voted against the employers' liability bill, but when he discovered that it had passed the Senate by two votes he changed his, because it is believed that, as a candidate for Governor, he saw it would date for Governor, he saw it would senate the court of the records and proceedings of the country and state from the records and proceedings of the country and state for a common Pleas of columbia contary, and state for a forward that its interest of the application of Charles H. It must be noticed that Mr. Delamater's votes on the most important labor bills tally exactly with those of Mr. Watres, the Republican candidate for Lieutenant Governor. This may be a mere coincidence, and I believe it is, as far as the first two votes on the factory inspection and employers' liability, but believe that Mr. Watres, who is by far the brainiest, ablest and boldest man of the two, did in some measure lead Mr. Delamater in the vote against the anti-company store bill and the miners' dockage bill. Mr. Watres fought both those bills before the Senate, and, I say it fearlessly, in opposi-tion to the will and best interests of bor, a wonderer in search of work!

WHAT IS SCROFULA

It is that impurity in the blood, which, ac-cumulating in the glands of the neck, pro-duces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which developes ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, can-cerous growths, or the many other manifesta-tions usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for yery few persons are entirely free from it.

How Can CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla.

"My daughter Mary was afflicted with scrofulous sore neck from the time she was 22 months old till she become a tracer from the old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely dis-appeared, and now she seems to be a healthy child," J. S. Carelles, Nauright, N. J.

The Great Benefit-Which people in run down state o health derive from Hood's Sarsaparilla, conclusively proves that this medicine "makes the weak strong." It does not set like a stimulant, imparting fictious strength, but Hood's Sarsaparilla bailds up in the perfectly natural way all the weakened parts, purifies the blood, and assists to healthy action those import-ant organs, the kidneys and liver.

THAT IS SAPOLION

It is a solid handsome cake of scouring soap which has no equal for all cleaning purposes except in the laundry To use it is to value it-

What will SAPOLIO do? Why it will clean paint, make oil-cloths bright, and give the floors, tables and shelves a new appearance. It will take the grease off the dishes and off the pots and pans. You can scour the knives and forks with it, and make the tin things shine brightly. The wash-basin, the bath-tub, even the greasy kitchen sink will be as clean as a new pin if you use SAPOLIO. One cake will prove all we say. Be a cleaver housekeeper and try it. ever housekeeper and try it. BEWARE OF IMITATIONS. VARE OF INITATIONS.
