A very slick swindler has been "doing" some of the country people in other sections, and it will be well to keep an eye out for fellows of his class. He calls at the farm house and salutes the lady about in this way: "Good morning, madam. I have just met your husband and purchased a calf from him. He could not change this \$20 bill and told me to call at the house and get \$16 change." The good voman, supposing it to be all right gives him the requisite change and he departs, saying that he will call for the calf in a day or two. When the husband comes in and he is told of the transaction, he thinks there must be some mistake; but as he has the \$20 bill he concludes that he is not out much. BENTON FAIR

This year has been the most profitable as well as the best fair in the history of the association. The first day of the fair, Wednesday October 1st, was bright and clear, and this possibly was a stimulus to the people that led them to bring an abundance of entries. In the building set spart for canned goods, needle work and fancy articles, every available space was taken. In the line of canned goods, especial attention was called to the fine peaches. There was also an abundance of plums and quinces, together with jellies and butters. Throughout the building, nicely arranged upon the shelves provided, or hanging overhead, was the fine work of the needle, quilts of all kinds, pillow shams, cushions, all articles of toilet, in fact, about everything that the fancy of the ladies could conceive of was here represented. Then there was the hair work, crayon work, fancy carved work, artists display, ancient articles, &c. The merits of the Wheeler & Wilson Sewing Machine were explained by Mr. Kline, Benton's sewing machine agent. A fair in this section would be rather tame without the exhibit of J.
