To go bristling all over with arms and armor is to invite attack anywhere. She should remember, too, that sometimes parents have the right to interfere. Even if the interference comes at last, even if it be ill-judged, she will do better to meet it gently than to repel it forcibly. She will be wise to look at the possibilities of her future, too, and we see the folly of weakening any of the anchorages, as one may say, of her husband's life; to see the better part of increasing his love and fealty to his own people, to appreciate the help they will always be eager to give her in streng-

## Sunday School Convention

The seventh Sunday school convention f Madison township was held in the M. E. Church at Jerseytown, Oct., 25, 1890. The devotional exercises were conducted by Rev. A. W. Decker, after which Della Wagner was elected secretary and Mr. A. Smith, tressurer.

The first topic for discussion, "The good opened by Rev. L. F. Brown, who said, it Sunday School was needed. You will nothe exclusive territory basis, and persons single that in a community where there are desiring to secure agencies will find the Sunday schools people stand on a higher Publishers' announcement in another plain, spiritually, morally, civilly and intelectually than in a place where there are no Sunday schools. Rev. A. W. Decker said, Sunday schools are needed in the winter as well as summer, a church is made more prosperous by being connected with them. The next subject for discus sion. "The Advantages of the Sunday family in a measure, that is, in its close School to the Community and the Obligaay school is the right arm of the church

of the Sunday school work. To be an ad vantage the Sunday school must be a part and subordinate of the church; the church officers should be the officers of the Sun time enough to resent interference, if it is day school. After the benediction, ad journed to meet at 2:30 o'clock.

At the appointed time the session opened with music and prayer by Rev. L. F. The topic. What should be done with tardy opened by D. A. Shultz followed by F. P. Decker and Mrs. Merrical. The conclusion reached was-Do not expel him, encourage him by rewarding him, by being present yourself and by praying for him. Give him all the influence you can, speak well of his school on every occasion. The question, "Is it proper for some other nember of the Sunday school to open the school in the absence of the Superintendent?" was asked by Mr. Geo. Mausteller. The answer. It is decidedly proper. Should the superintendent fail to make his

appearance and the session remain unopened, some thoughts of great importance might be lost. D. A. Shultz was then elected Vice to meet at 7 p. m.

The evening session opened with music and prayer by Rev. Engle, after which the following topics were discussed: Girton, who said, Ignorance of the love of cation and identification. God is a highway to sin. Many a sinner under the load of adversity would no doubt be relieved many a time had he memorized some of those good texts such are heavy laden and I will give you rest." Rev. Engle said, We can't have too

A Remarkable Book By Rev. T DeWitt Talmage, D. D.

This is said to be a year of remarkable ooks, but doubtless the most remarkable that will appear for some time to come is Rev. T. DeWitt Talmage's new work on the "Life of Christ" and "Palestine and its People," Some idea of what the book contains and how it was prepared may be oblained by reading the following extract from the Doctor's preface: "In my American home, on the Atlantic

on Mediterraneae, on camel's back, on mule's back, on horseback, under chandelier, by dim candle in tent, on Lake Galllee, in convent, at Bethel where Jacob's ladder landed; at the brook Elah, from which little David picked up the ammunition of five smooth stones, four more than were needed for crushing like an egg-shell the skull of Goliath; in the Valley of Ajaon, over which, at Joshus's command, Astronomy halted; on the plain of Esdraelon, the battle-field of ages, its long red flowers suggestive of the blood dashed to shattered masonry of Jerico, in Jerusalem that over-shadows all other cities in reminiscence, at Cana where plain water be came festal beverage, on Calvary whose aslant and runtured rocks still show the effects of the awful hemorrhage of the five wounds that purchased the world's resue, and with; my hand mittened from the storm, or wet from the Jordan, or bared to the sun, or gliding over smooth

table, this book has been written."

This book will certainly be worth reading and preserving. It is not only a life of Christ from an entirely new stand-point, but it is also a very interesting history of a country and people who occupy a prominent place in the thoughts and feelings of all Christian nations. The large number of excellent pictures of places and scenery in the Holy Land with which the volume is il lustrated, give it a special interest and value. We cannot all go to Palestine, but this ele gant book, through the aid of its pictures and Dr. Talmage's wonderful descriptions eccompanying them, brings Palestine to our very doors. The book is indeed positive necessity to a proper understand ing of the Bible accounts of places and events. We can understand and ap preciate Bible bistory all the better when we see photographic representations of the places where this history was made. "From Manger to Throne" marks a new and need of the Sungay School," was era in the literature of Bible Lands, and we opened by Rev. L. F. Brown, who said, it are not surprised to learn that the demand was evident without discussion that the for the book is phenomenal. It is sold on
