The regular doctors care; the home pathic doctors cure; the Hahnemann ites cure; and so do the faith cures and mind cures, and the so-called Christian scientists, and the four-dollar-and-a half advertising itioerants, and the patent medicine men. They all hit, and they all miss, and the great differ--one great difference-in the re sult is that when the regular doctors lose a patent no one grambles, and when the irregular doctors lose one the community tands on end and howis.—Rochester Union and Adver-

Nature cures, but nature can be aid ed, hindered or deteated in the curative process. And the Commercial's conention is that it is the part of rational beings to seek and trust the advice of men of good character who have studied the human system and learned, as far as modern science lights the way, how far they can aid nature and how they can best avoid obstructing ber .-Buffalo Commercial.

It is not our purpose to consider the evils that result from employing the unscrupulous, the ignorant, charlatans and quacks to prescribe for the maladies that afflict the human family We simply declare that the physician who knows something is better than the physician who knows nothing, or very little indeed about the structure and the conditions of the human system. Of course "he does not know it all."-Rochester Morning Herald.

I have used Warner's Safe Care and but for its timely use would have been, I veribly believe, in my grave from what the doctors termed Bright's disease,-D. F. Shriver, senior Editor Scioto Gazette, Chillicothe, Ohio, in a letter dated June 30, 1890.

It Saved My Life.

After suffering for twelve years from contageous Blood Poison, and trying the best physicians attainable and al the patent medicines precurable, and steadily continuing to grow worse, I gave up all hopes of recovery, and the physicians pronounced the ease incurable. Hoping against hope I tried S. S. S. I improved from the first bottle, and after taking twelve was cured, sound and well, and for two years have had no return or symptom of the vile disease. HELD IN BLOOMSBURG NOV., 3, AND 4, 1890,

The Conference for Columbia Coun met in the Court House at a quarter to eight o'clock on Monday, the 3rd inst. Notwithstanding the excitement on the eve of an important election, the Court House was well filled. The venerable David J. Waller Sr. conducted the de-votional exercises. He said: "We are gathered in a temple of justice, and it is fitting that we should read the law on which as a foundation all hu-man laws repose." Then he read the Ten Commandments, some selections from the New Testament concerning the Sabbath, and the divine law of marriage from the second chapter of Genesis, and offered a fervent and very comprehensive prayer. A volunteer choir of some fifteen voices led in the singing, and the Rev. Mr. Galloway of the Baptist church, offered a touching-ly earnest supplication for the mercy of God to be shown to the nation. Mr Waller then introduced Col. John G. Freeze as the presiding officer for the evening. Col. Freeze is Chancellor of the Protestant Episcopal Diocese of Central Pennsylvania. In a few well chosen words he referred to the importance of the question proposed for dis-cussion, and introduced Prof. J. P. Welsh of the Normal School, to speak on "The influence of the Bible on Public Education." Prof. Welsh made a brief but most effective argu-ment in behalf of the Bible in the Schools. The Corresponding Secretary of the National Reform Association, had presented the cause in the Presbyteian and Latheran churches on the preceeds g day, then spoke on "The Peculiar Theory of Education." The Rev. D. J. Waller, Jr., Superintendent of Public Instruction for Pennsylvania in behalf of the Committee on Resolutions then submitted the following:

trainmen lost control of it. The rails were slippery, the brakes useless and down towards the coal dooks the train rushed at a terrific speed. Engineer Fry, of Tamaqua, beld fast to the throttle, though his fireman jumped, until he saw that collision with som coal cars at the dock was inevitable. Then he, too, jumped and his train crashed into the cars and hurled them with a shifting engine down the em-

The crew of the shifting engine saw The crew of the shifting engine saw the runaway train approaching and escaped in time. Engineer Fry was only slightly bruised, as also was his fireman, and the breakmen were un-hurt. It was a miraculous escape. Both engines and numerous cars were smashed, and before the debris could be deared away a temporary track had be cleared away a temporary track had to be laid. The loss to the Reading Company will be heavy.

Theodore McDowell, who for the past six months or more has been making his home with his son-in-law, msking his home with his son-in-law, Joseph Gann, No. 237 Market street Williamsport died at an early hour last Thursday morning under most distressing circumstances, and the news of his death will be learned with sincere regret by a very large circle of friends.

The particulars of this popular gentleman's death, are as follows:

Mr. McDowell had gone to Gohl & King's greery store about 6 o'clock last evening on an erran-1 for his daughter Mrs. Gann, and returned in a few moments, after which he began few moments, after which he began reading a newspaper. A few moments later his daughter noticed hishead droop slightly as though sleepy, but he said nothing, arising and walking to sard nothing, arising and walking to ward the stair steeps, at the foot of which he sank down, and called for assistance. Mrs. Gann hurried across the room and by this time he had began vomiting and said he was awful sick. Mr. Gann was sent for as were a number of physicians, and the unfortunate gentleman was assisted to a couch. Drs. Rich, Lumley and Hunt were soon at the house, but pronounced the case one house, but pronounced the case one beyond all human aid, Mr McDowell's condition weakend rapidly, and about 4 o'clock this morning his spirit "departed to eternity. His death was due to apoplexy. He was nearly seventy years of age, and leaves two sons and thre daughters to mourn his demise. Charles, a son, the inventor of the German drafting machine, William, Emman drafting machine, William, Emman man drafting machine, William, Emma and Flora are all at present residing in New York city, and Mrs. Gann, of

Williamsport.
Theodore McDowell has spent Sabbath, is, therefore, not only a sin against God, but an offense against the Commonwealth, and ought to be restrained by law.

Resolved. That all citizens have a right to claim the protection of the civil law in the quiet observance of the Sabbath: and as the President of the United States is expressly exempted by Constitution from attending to public business on that day, the rights of all our citizens should be defended by equal safeguards.

Resolved; That we regard "Sunday Mails," "Sunday Rallroad Trains," and "Sunday Newspapers" as an unholy triple alliance against the sanctity of very active life, and even at his adtation of producing some of the finest iron known. During his lifetime deceased, through thrift and energy, acquired considerable wealth, and the McDowell homestead, situated at the head of the main street of Light Street head of the main street of Light Street is a model of comfort and rural beauty Here he and his family lived for many years, and none enjoyed a higher dis-tinction in that section of the country than did the name of McDowel. applications. Many medical men, including a number of English and American physicians, have been studying the process under Dr Levy, in the same wards of a private hospital at No. 26 Preuz'auer strasse, where Professor Koch first achived striking results with small means. Here since October eight prominent cures of consumptives have

been in progress. The secret of the composition of the lymph has been communicated to Professors Bergmann, Fraentzal, Brieger, Levy and other intimates of Professor Koch here also to Professor Weigert, of Frankfort; Dr. Rast, chief of the Hamburg hospital, and Professor Nothnagel of the Viena university. Professor Nothnagel, addressing the students of the university. said; gan smashing the Furniture. He was face one of the greatest intellectual remonstrated with, but to no effect. His nephew, Boyd Gilmore, aged 17, finally put him out. At this Stewart Koch's discovery has a far wider scope than Jenner's, and is perhaps the grandest feat in the history of our science. What inspires me with admiration is not so much the actual disont, but, not succeeding, picked up a covery as the method of bacterological heavy base ball bat and struck him on research, which must serve as the basis of all future discoveries in that line.

Professor Bil roth holds that Professor Koch's method places it beyond doubt that a remedy will be found before long for cancer, which is still the greatest mystery in mediane, as ex-perience indicates that carcinoma has a bacilic organ.
