MISSIONARY CONVENTION.

The fourth convention of the Women's Missionary Society of Wyoming Classis, was held in Trinity Ref. Church, Bloomsburg, April 23rd and 24th.

The first session was opened Thursday afternoon, by devotional service conducted by the President, Mrs. Houtz of Orangeville.

Mrs. William Snyder gave the convention a cordial welcome, to which Mrs. Rev. Meckel responded appropriately.

After the reading of minutes of last convention, roll call, and appointment of committees, Miss Kate Scott of Milton, delegate to the W. M. S. of General Synod, held at Lebanon, May 1890, and Mrs. Houtz, delegate of the W. M. S. of Eastern Synod, held at Reading Oct. 1890, gave full and instructing reports of the work done at those meetings.

Miss Mamie Schoedler of Turbotville read a paper on the subject "The needs of our Mission Field." She spoke of these needs as being three-fold, 1st. Well qualified missionaries, and plenty of means, 2d. Consecrated effort. She gave the qualifications and training necessary for successful work in Japan, and suggested that we give our aid to the Theological Seminary in Sandai, Japan.

On motion it was decided that we as a Classical Society pay to the Synodical Society \$2.00 a year as a contingent fund, and that the delegates on their return request the local societies to send \$1.00 a year for the same object. Reports were heard from fourteen local societies, having a membership of 407, and also from two mission bands. These reports were very encouraging, and we were pleased to learn of the increased interest being awakened throughout the Church.

The closing services of this session were conducted by Rev. G. S. Sorber of Watsontown.

The evening session was held in the audience room which was handsomely decorated with the colors of the Reformed Church, and beautiful flowers in profusion, whose fragrance filled the air, and by their beauty and fragrance, led us to look with thankful hearts, from Nature up to Nature's God, who has given us this beautiful world to enjoy.

The exercises of the evening consisted of excellent music by the choir, male quartet, and solo by Rev. Au-

man. Recitations by Miss Flora Jones and Miss Jessie Ent, papers were read by Mrs. G. C. Stahl, of Milton, Mrs. Houtz, and Miss Sallie Mauser of McEwensville. Rev. Sorber conducted the opening and Rev. Auman the closing service. After which the congregation were invited to repair to the Sunday School rooms where a generous supply of cake, cream and coffee, were served.

We were entertained with excellent music by the Glee Club, had the opportunity of becoming better acquainted with each other, and passed a very pleasant hour.

Friday morning's session was opened by reading of Scripture by Miss Leidy of Milton, and prayer by Mrs. Stout also of Milton.

After the usual routine of business the following officers were elected for the coming year: President, Mrs. Rev. Houtz of Orangeville, Vice President Mrs. Rev. Meckel of Plymouth, Recording Secretary, Mrs. Anna McHenry of Stillwater, Cor. Secretary Miss Mamie Schoedler, Turbotville, Treasurer Miss Mary Achenbach, Orangeville. The Executive Committee to consist of the officers, with the addition of the presidents of the strictly ladies local societies. On motion it was decided that after all the members of the Ex. Com., have been notified, three shall constitute a quorum, and that the ladies local societies pay the expenses of their presidents to the meetings of the Ex. Com. and that the expenses of the officers be paid out of the funds of the Classical Society.

Greeting was received from the Women's Home and Foreign Missionary Society of St. Matthew's Lutheran Church, Bloomsburg, bidding us God speed in the work in which we are engaged. Mrs. Lizzie Wagner read a paper, subject, "The Cultivation of Benevolence Among the Young; Miss Daisy McHenry had a recitation, after which the report on committee on Plan of Work was submitted, when it was decided to assume \$125.00 of the Synodical Pledge, and that we attempt a special work of \$275.00, this sum to be divided between Home and Foreign Missions, in proportion of four to three.

The exercises of the afternoon consisted mostly of business, report of committees &c. The following persons were elected as delegates to the Synodical Society to be held at Harrisburg in October. Mrs. Anna McHenry, } Primarii.
Miss Lillie Deiffenbacher, }
Mrs. J. H. Stout, } Secundi
Mrs. Lizzie Wagner, }

Miss Sterling sang a beautiful Solo, "She Hath Done What She Could," after which the closing services were conducted by Rev. Dechant.

Thus ended one of the most pleasant and interesting meetings we have attended, many thanks are due Rev. Auman, the choir and the Glee Club, and friends generally for the kindness and hospitality shown us, and also to our Ministerial brethren for rendering us efficient aid. Our next annual convention will be held at McEwensville, one month prior to the meeting of the Classis. May the God of Missions aid us, that we may in the coming year do more and better work than we have in the past.

THE JACKSON & WOODIN M'FG CO.

The Jackson & Woodin Manufacturing Company, located at Berwick, Columbia county, Pa., has in its employ to-day more workmen than at any time during the half century of its existence. Their special work for many years consisted in the manufacture of large cars. But this enterprising firm could not be content with one special line, and so a few years ago enlarged their foundry and began the work of making large water pipes. The work of car building has made such rapid strides in the past few years that cars could be made at a profit only by those who had improved machinery. Mr. C. R. Woodin, the president of the company, conceived the idea of re-arranging their car works so that more work could be done per day, with the same fuel, power, and workmen. Last summer they began work on rebuilding their smithshop. Two new buildings were erected, one of 90 by 100 feet and the other 60 by 80 feet; also an entire new brick building built around the old one making it about 12 feet larger on all sides. A new engine of 80 horse power was placed in last fall; also blower and eight new double forge furnaces. Several immense power punches, bolt and nut machines. The pig iron is first taken in the

ROLLING MILL

where J. H. Catterall, a trusty workman of many years experience is the Superintendent. Here the iron is pressed into square and round shapes as the work may require. The superintendent of this department has under his care about 250 workmen, and turn out over 1100 gross tons of finished iron every month. The work in the rolling mill consists not only in making iron for their own use, but for general trade—as large shipments are made to foreign points. The iron as needed for the

SMITH SHOPS

is taken by cars, and under the supervision of William Boyles, who has been in their employ for upwards of forty years, is distributed to the various machines, operated by 150 workmen, where it is cut to lengths, holes punched and drilled, bolts headed, threads cut and nuts made, the entire work of the day consuming 30 tons of iron and finishing twelve large cars, requiring over ten thousand bolts. Among the new powerful machines lately added is one that punches from cold wrought iron six holes at a stroke, one that drills 6 and another that drills 8 inch holes at a time. These thirty tons of finished wrought iron are next taken to the

CAR DEPARTMENT,

where two hundred and fifty more workmen are engaged in preparing the lumber, of which forty-two thousand feet of oak and yellow pine are used, and twelve large sixty thousand pound hopper cars are finished daily. The wood-working department is in charge of Gideon Beishline and the car erection superintended by Wm. Faust. A contract of 1000 cars for the D. L. & W. R. R. is now being completed and during the months of July and August 500 Lehigh Valley box cars must be delivered.

THE FOUNDRY DEPARTMENT

is a hive of industry. The three hundred and fifty men employed have hardly room enough to work. This department is in charge of Wm. Fens-termacher, D. C. McHenry and Wm. Shoals. Here 4000 car wheels, 400 tons of general castings and 800 tons of pipe are made every month. Over 3000 tons of pipe are now stored ready for spring and summer sales. The pipe casting department is in charge of Geo. Moorehead.

THE MACHINE SHOP,

in charge of Abner Welsh, gives employment to over 50 workmen, whose time is given to turning car wheels, axles, etc.

In addition to these various departments is the lumber yard in charge of John A. Keeper; the painting in charge of A. D. Seely; which together with the teamsters gives employment to over 150 more. This mammoth establishment has on its pay roll to-day over 1200 employees, with a monthly wage-earning of \$40,000; and a cash pay roll of about \$25,000. The outlook for the summer's work is very bright, as their present orders will likely carry them nearly to the winter months.

TOO SERIOUS FOR JOKING.
"Smart Alex" air their wit to amuse sufferers with funny stories while reciting the imaginary virtues of some inert substance, but the pangs of rheumatism, neuralgia, tooth and earache, the horrors of scrofula and gonorrhoea, are not at all funny. It is more interesting to know that Cactus Blood Cure invariably cures these ailments by simply purifying the blood.

Pure Rye Whiskey.

One year ago we had 5000 gallons of Old Rye Whiskey in Bond, which was considered a large stock to carry and sufficient for the trade. The demand, however, for our whiskey became such, that we were compelled to increase the capacity of our distillery, in order to give the whiskey some age before placing it on the market.

We are now making over a barrel a day; having a daily capacity of over 50 gals. and carrying a stock of 11,000 gals. in Bond. We hope to give our patrons the benefit of the age and will sell no whiskey under six months, and from that up to three years. No second hand barrels are used at our Distillery; all our whiskey is bonded in new, clean, charred, barrels, and for purity and quality we defy competition.

We have never distilled a bushel of corn, and we do hereby guarantee ALL our whiskey to be absolutely Pure Rye and doubled on a copper lined still and to any person who will find any drugs or corn in our whiskey as it leaves our Distillery or Salesroom, we will forfeit \$500.00.
