

TUESDAY'S RESULTS.

Pennsylvania has given Gregg and Morrison pluralities of over 50,000. McCreey is elected Treasurer of Philadelphia by 21,000. John Lynch is elected Judge in Luzerne, and J. C. Wiegand Prothonotary. John M. Gorman beat Gen. McCartney for District Attorney. Judge Bucher is defeated for Judge of the Union-Snyder-Mifflin district, by H. M. McClure, republican.

NO CONVENTION.

There will be no constitutional convention. It is defeated in the state by many thousands. In Columbia county there is a small majority in favor of it. This proposition was not of a political nature, and the result of the vote has fully justified our assertion that the Columbia County Democratic Convention made a mistake in endorsing a constitutional convention.

The COLUMBIAN opposed the Constitutional convention from the beginning. It looks now as though it is beaten by 150,000.

The result of the election Tuesday, shows conclusively the necessity of more polling places in Bloomsburg. In the east district about fifty voters were at the polls with tickets, when the clock struck seven and the polls closed. They were all deprived of a vote. Votes were received at the rate of about one each minute—while the crowd was at the polls. There are now 600 voters in the east district. If all had desired to vote on Tuesday, there would have been a continual crowd and even then the votes would not have been all received. In 1888, for president, there were 531 votes cast and then a large number did not vote. It would be impossible for all to vote who live in the east district, if they come to the polls. The voting place should be changed. As now arranged they are located at the extreme end of each district. They should be located near the center of each voting district.

The light vote in Columbia county can in no wise be charged to inefficiency on the part of chairman John K. Townsend. He has worked early and late, and arranged for a series of meetings in the county, but was disappointed in several instances by not being able to secure speakers, or by their failure to appear at the appointed time. Out of three speakers promised him by state chairman Kerr for the meeting in Bloomsburg last Saturday evening, not one appeared, or even telegraphed that he could not come. W. C. Gilmore Esq of Williamsport was secured through the individual efforts of Mr. Townsend. If there was apathy in the Democratic party, it was not because Mr. Townsend failed to do all that could be done to arouse the people to the importance of the election. He did his whole duty, in a most satisfactory manner.

Mr. Howells' New Novel.

It is announced that Mr. HOWELL'S new novel will not go to the Harpers, as has been the custom with all that the novelist has written for some years past, but that it has been bought by The Ladies' Home Journal, of Philadelphia, and it will be published in that periodical. Mr. Howells has been induced to make this change of publishers for his next novel because of the financial inducements offered by the Journal management, and of the enormous audience which his work will command through this periodical. The story is one distinctly for girls, and will portray the life of a Western girl in New York City.

The publication of the Baker ballot law is concluded in this issue. This law goes into effect next March, and as it is somewhat complicated, a copy of it will be very handy for reference. Those who have preserved it as it has appeared from week to week in this paper, have done wisely, while those who have not done so, will find that they have missed a good thing.

FLOWER IS VICTORIOUS.

He Defeats Fasset in New York State.

GOVERNOR RUSSELL RE-ELECTED.

Massachusetts Again Goes Democratic by a Small Majority Over Allen, Republican. A gubernatorial Candidate—The Opponents of Russell Concede the Election. NEW YORK, Nov. 5.—Revised returns show that Flower carried the state by 45,648 majority. The senate stands: Republicans, 17; Democrats, 15. The assembly is: Republicans, 65; Democrats, 63. The Twenty-fifth senatorial district, which was believed to have returned the Democratic candidate, proves to have elected the Republican, Rufus T. Peck. Two senatorial districts are still in doubt, according to Democratic calculations, the Duchesne-Columbia-Putnam, where the Democrats claim the election of their candidate, Edward B. Osborne, by between 20 and 30 majority. The Republicans, on the other hand, assert that their candidate, Gilbert A. Deane, has carried the district by a majority of 137.

The returns are about complete in the Sixteenth senatorial district, and John H. Deasy, Rep., seems to be elected by about 500 majority. Both Democratic papers of this city give Derby credit of election. The Troy Press (official Dem.) says that Derby is now 250 ahead and the 'Troy Times (official Rep.) claims it for Derby by about 600. The table of members of assembly is also changed by the later returns of yesterday, and to such an extent as to indicate that the slender Democratic majority has been wiped out and a majority of two votes has been given the Republicans.

THE SENATE. 1. Floyd Jones, D. 17. A. J. Parker, D. 2. John McCarthy, D. 18. H. J. Donaldson, R. 3. Joseph Aspinall, R. 19. L. W. Emerson, R. 4. P. H. McCarran, D. 20. G. Z. Erwin, R. 5. W. L. Brown, D. 21. J. Mullen, R. 6. P. Ahearn, D. 22. H. J. Coggeshall, R. 7. G. F. Roesch, D. 23. J. E. Smith, R. 8. M. T. McMahon, D. 24. O. O'Connor, R. 9. E. P. Hagan, D. 25. R. T. Peck, R. 10. Hon. Warner Miller, when seen at Re-

publican headquarters, said to the United Press reporter: "I am simply dazed at the result. From what I had heard I believed Mr. Fasset would certainly be elected. My source of information must have been all wrong."

Flower Receives the News. Candidate Flower spent all the evening at his home, 592 Fifth avenue. A special wire had been run into his house and a telegraph instrument merrily ticked the good news from all parts of the state in the library. It was regarded from the outset as good news and the governor-elect never once lost confidence. A party of friends were with him and it was early in the night that they said that everything was over but the shouting, and they might as well shout then and there. Soon thereafter the special wire began to tick jubilant and congratulatory telegrams and there was a big stack of them on his table. As early as possible the governor-elect sought his bed, and probably got the first sound night's sleep undisturbed by party cares he has had for many a day.

Mr. Cleveland Gets the Returns. Ex-President Cleveland received the returns quietly at his home in Madison avenue, in company with a few personal friends. He evinced much interest in the results in this and other states, but was not inclined to make any comments on the spur of the moment.

What Governor Hill Says. ALBANY, Nov. 5.—Governor Hill says: "The result is extremely gratifying and the more so because all of our big gains were either in the country or else in districts where there was alleged disaffection, such as Brooklyn and Erie county. It is a vindication of the party and party principles. The stuffed tiger was not 'in it' in the country as was evidenced by the increased Democratic vote. I am particularly gratified over the results in my own city of Elmira. The result also in the senate and assembly districts is all we expected."

It should be considered a great Democratic victory, presaging Democratic success in the nation next year. The crushing defeat which Mr. Fasset received in his own city of Elmira and in his county of Chemung is particularly significant of the people's dislike for his methods of campaigning, and I am especially proud that my own county recorded its preference for Mr. Flower so emphatically."

The United Press supplies the following estimate of pluralities by counties:

How Fasset Received Defeat.

ELMIRA, Nov. 5.—Mr. Fasset received the election returns from a telegraphic instrument placed in his library. His wife, father, mother, brothers and sister were present. The first reports indicated his election. About 10:10 o'clock a report from a Democratic source claimed Mr. Flower's election by 25,000 majority. Mr. Fasset called his wife in from the drawing room and laughingly said:

"Well, June, my dear, we are relieved of a tremendous responsibility."

"I wonder why you ran at all," was the chiding reply.

"I didn't," responded Mr. Fasset, laughingly. Then, as he looked over the returns from others of the country districts, he added, "It is apparent that 'Fare' and not 'Fair' defeated us."

When spoken to regarding alleged frauds perpetrated in this city he remarked without surprise: "I told our boys, though, to work honestly, regardless of what our opponents were doing, whether I was defeated or elected. I am convinced that this election will demonstrate the truth of my characterizing the past as a three card monte ballot and the absolute necessity of adopting the blanket ballot."

RUSSELL'S GREAT POPULARITY.

Massachusetts' Governor the Only Democrat Elected on the State Ticket. BOSTON, Nov. 5.—The entire Republican state ticket, with the exception of governor, is elected by ample pluralities. Returns for members of the legislature are incomplete. The returns thus far indicate that 17 Republican senators are elected. Among the senatorial candidates defeated is Robert Howard, of Fall River. His defeat is something of a surprise. Complete returns for 127 members of the house of representatives, a little more than one-half, show that 82 Republicans have been elected and 45 Democrats. The plurality for Speaker Barrett is twice that of last

W. E. RUSSELL. year. The executive council will probably stand 7 Republicans to 1 Democrat. Russell, it is estimated, has received 156,000 and Allen 151,000 votes, leaving the governor a plurality of about 5,000. The vote in Boston is 36,512 for Russell and 22,987 for Allen, which gives the Democrats a plurality in the city of 13,525. The towns outside of the cities last year gave Brackett 59,313 and Russell 52,883. Returns from 283 towns this year give Russell 49,871 and Allen 59,384. Governor Russell gained 13 per cent. in these towns, which applied to the rest of the towns would make his total in all towns 59,159. The same towns showed a gain for Allen of 16 per cent. over Brackett's vote of last year. This percentage applied to the rest of the towns will give him 68,803 in all the towns. Add to these figures the vote of Boston, and it swells Russell's vote to 95,711, and Allen's to 91,790. The cities outside of Boston gave Russell a year ago 55,144, and Brackett 52,515. Russell carried them then by about 2,600 plurality. The increased vote this year in these same cities indicates that Russell will have over 60,000 votes and Allen 55,000, thus making the total vote in the state about 156,000 for Russell and 151,000 for Allen. An analysis of the returns from these cities shows that Allen gained over Brackett in Chelsea and Somerville, and relatively in Holyoke. On the other hand Russell has made net gains in Lawrence, New Bedford, Fall River, Salem, Chicopee and elsewhere. Colonel Allen, the Republican nominee for governor, was beaten in his own ward, and in his own precinct by 88 plurality.

FORTUNES IN PHOSPHATES.

A Trade Whose Story Recalls the Arabian Nights.

The history of the development of the phosphate industry by Americans reads more like a romance than the truthful record of a mining pursuit. In Florida alone, where an experimental venture was made only two years ago, the industry is already established on such a basis as to involve millions of capital and employ thousands of men, adding thousands of dollars daily to the country's wealth and challenging comparison in prospective magnitude with any of the great industries of the world.

The world's consumption of phosphate, which must be an indispensable article of commerce until that probably distant period when the chemist shall manufacture in the laboratory what the agriculturist now grows in the fields, is now rated at 1,500,000 tons, and increases annually at the rate of 25 to 30 per cent. In five years 4,000,000 tons will be required to supply the markets for the season, and in 10 years 12,000,000 or 13,000,000 will be required.

The old sources of supply, South Carolina, Canada, and the West Indies, have probably all reached the point of maximum production, and it is to Florida that the world must look for its increasing wants. What untold riches lie under the soil of the Peninsula State may be imagined from the fact that one of its richest tracts of phosphate land is 1,000 miles square. Over most of this land the thickness of the deposit varies from three to 30 feet or more, the average depth being about 10 feet.

A cubic yard of the crude stuff will wash out from 600 pounds to half a ton of clean, dry nodules, and a recent survey has given the contents of a single section of land (640 acres) at 3,000,000 tons. An acre of phosphate land, if the deposit be only three feet deep, will contain 4,840 cubic yards of stratum, yielding 1,600 to 2,000 tons of clear phosphate nodules.

An electric drill in an Idaho mine recently performed the feat of boring a two inch hole through 20 feet of solid granite in four hours.

Be Sure. If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

To Get.

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me by their own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

Hood's. When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." Mrs. ELLA A. GOFF, of Terrace Street, Boston.

Sarsaparilla. Sold by all druggists. \$1; six for \$5. Prepared only by C. L. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar.

AGENTS send for How I Made a Year. Our copyrighted methods free to all. Invest a Home, or business change. Pay to \$200 Monthly. Teachers and ladies. Send for spare hours. Testimony. New York Publishing Agency, 27 4th Ave., New York.

LOWENBERG'S CLOTHING!

FALL ANNOUNCEMENT! BLACK AND BLUE CHEVIOTS.

LADIES SHOULD SEE THE PRETTY SUITS FOR CHILDREN.

DOUBLE BREASTED SACKS AND CUTAWAYS.

THE LATEST COLLARS, NECK TIES, DRESS SHIRTS, NIGHT SHIRTS &c.

Call and examine and see for yourselves that LOWENBERG'S is the right place to buy your Clothing.

It goes back

—all the money you've spent for it—if there's neither benefit nor cure. That's what ought to be said of every medicine. It could be—if the medicine were good enough. But it is said of only one medicine of its kind—Dr. Pierce's Golden Medical Discovery. It's the guaranteed blood-purifier. Not only in March, April and May, when the sarsaparilla claim to do good, but in every season and in every case it cures all diseases arising from a torpid liver or from impure blood. For all Scrofulous, Skin and Scalp Diseases, Dyspepsia, Indigestion and Biliousness, it is a positive remedy.

Nothing else is as cheap, no matter how many hundred doses are offered for a dollar.

With this, you pay only for the good you get.

And nothing else is "just as good."

It may be "better"—for the dealer; but you are the one that's to be helped.

For Best Photographs Go to KEMP, for he employs nothing but first class artists to work his two branch galleries, enabling him to make first class work.

ALSO HAS TAKEN FIRST PREMIUM AT THE COUNTY FAIR.

14 CABINETS FOR \$1.00 until January 1, 1892.
