

Did you Drink Lion Coffee For Breakfast?

A STIRRING BUSINESS.

Yes, a regular revolution business in which one sale helps to make another. The people make us stir around to fill orders, and evidently believe we do a fair square business. Seeing we have such a large patronage too, convinces others they better try us, and so the trade increases. We're happy over it, and so are all our customers. The demand for our bread, cakes and candies (our own manufacture), is greater than ever, but we are ready to supply the demand. As the holidays are now coming on you will be thinking of Clear Toys. Give us a trial on these goods.

SLAIN BY CHILI'S POLICE

Schley Says Ruggin Was Killed by an Officer.

SAILORS LASSOED AND DRAGGED.

The Whole Conduct of the Authorities in Valparaiso During the Late Unpleasantness Seems to Have Been of an Unwarrantably High Handed Character.

WASHINGTON, Nov. 2.—Further details of the affray between the Chilians at Valparaiso and seamen of the United States cruiser Baltimore have been received by cable from Captain Schley, whose dispatch confirms the previous report that the Valparaiso police treated the Baltimore's men outrageously, and assisted the mob in its work of killing two of the crew and wounding others. The dispatch from Captain Schley follows:

VALPARAISO, Oct. 31.
Secretary of the Navy:
Petty Officer Johnson, in whose arms Charles W. Ruggin was killed, declares that the act was done by the police guard. Apprentice Francis D. Williams reports that he was arrested by a mounted policeman, who placed catgut nippers around his wrist and started his horse into a gallop, throwing him down. After that the policeman walked his horse. Coal Heaver Patrick McWilliams was arrested and taken to prison, with catgut nippers around his wrists and lasso around his neck. He was bitten by the arm after arrest. Coal Heaver Joseph Quigley, while trying to effect escape from the mob, was struck with a sword by a police officer. Apprentice John W. Talbot was arrested, catgut nippers were placed around his wrists, and on the way to prison he was struck repeatedly by police.

Dragged Unconscious to Prison.
Petty Officer John Hamilton dangerously wounded and unconscious was dragged to prison. One of my people trying to make him comfortable was threatened with the butt of a musket and made to assist. My men in prison were examined secretly, although I sent an officer to the court to request authority to allow his presence. The request was denied on account of the proceedings being secret. Before discharge my men were required to sign a paper, but before doing it Rinehart asked a clerk official the meaning of the paper. He was informed that it was a more formal statement than the one which was in the papers. Two are dead, three are dangerously wounded and about fifteen are slightly injured. Surgeons believe the wounded out of danger.

Chili's Defiant Reply.

WASHINGTON, Oct. 30.—The department of state has received a telegram from Minister Egan, dated Santiago, Oct. 28, in which he gives the following as the reply of the Chilean government to the president's telegram of Oct. 25 asking reparations for the recent murder of American sailors in the streets of Valparaiso:

Minister of foreign affairs replies that the government of the United States formulates demands and advances threats that, without being cast back with acrimony, are not acceptable, nor could they be accepted in the present case or in any other of like nature. He does not doubt the sincerity, rectitude or expertise of investigation on board the Baltimore, but will recognize only the jurisdiction and authority of his own country to judge and punish the guilty in Chilean territory. He says the administrative and judicial authorities have been investigating the affair; that judicial investigation under Chilean law is secret, and the time is not yet arrived to make known the result; when that time does arrive he will communicate the result, although he does not recognize any other authority competent to judge criminal cases than that established by the Chilean people. Until the time arrives to disclose the result of investigation he cannot admit that the disclosure in Valparaiso or the silence of his department should appear as an expression of unfriendliness toward the government of the United States, which might put in peril the friendly relations between the two countries.

TRUMBULL AND BURT GO FREE.

The Agents of the Itata Did Not Violate Our Laws.

LOS ANGELES, Cal., Nov. 4.—Judge Ross, of the United States district court, instructed the jury in the case of Trumbull and Burt, agents of the Chilean insurgents, who were indicted for their connection with the Itata affair, to find the defendants not guilty. The case of the Itata was fully reviewed by Judge Ross, who held that the Itata not being a United States vessel nor fitted out within its limits, and the right of citizens of the United States to sell provisions and guns having been settled in prior cases, the defendants could not be held responsible.

IT PAYS

To be cautious in the choice of medicines. Many are injured by trying experiments with compounds purporting to be blood-purifiers, the principal recommendation of which would seem to be their "cheapness." Being made up of worthless, though not always harmless, ingredients, they may well be "cheap," but, in the end, they are dear. The most reliable medicines are costly, and can be retailed at moderate prices, only when the manufacturing chemist handles the raw materials in large quantities. It is economy, therefore,

To Use

Ayer's Sarsaparilla, the valuable components of which are imported, wholesale, by the J. C. Ayer Co. from the regions where these articles are richest in medicinal properties. "It is a wonder to me that any other than Ayer's Sarsaparilla has a show in the market. If people consulted their own interest, they would never use any other; for it is not only the best, but, on account of its concentrated strength and purity, it is the most economical."—James F. Duffy, Druggist, Washington St., Providence, R. I.

"Although the formula is known to the trade, there can be no successful imitation of Ayer's Sarsaparilla. Without having the enormous facilities of the J. C. Ayer Co., it is impossible for other parties to put together such valuable ingredients, at the low cost of Ayer's.

THE MAVERICK NATIONAL BANK CRASH.

The Maverick National Bank President, Fred Potter, Nov. 3.—Asa P. Potter, president, Colonel Jonas H. French and Thomas Dana, directors of the Maverick National Bank, were arrested by United States marshals last night, enured with "the embezzlement and misappropriation of funds of the Maverick National Bank." Although sums mentioned in the warrants are nominal and comparatively small, it is understood that the amounts involved will reach \$1,500,000 in the case of Potter, \$600,000 in that of French and \$800,000 in that of Dana.
Mr. Dana was the only one who made an attempt to secure bail. He was brought before United States Commissioner Hallett, and furnished sureties in the sum of \$75,000. In Mr. Potter's case the bail was placed at \$150,000 and that of Mr. French at \$100,000. The two latter remain in their respective residences in charge of deputy marshals.

The losses of the Maverick National Bank are estimated at upward of \$2,000,000, which wipes out the reported surplus and undivided profits of \$1,000,000, the capital of \$400,000 and all of the 100 per cent. assessment that the shareholders may be called upon to contribute. But as nearly a majority of the bank shares were owned by President Potter, some of which he had pledged with savings banks, etc., it is doubtful if the full assessment can be collected. The depositors, however, should only lose a fraction of their deposits.
