

Boys Find \$300 In Gold.

MAY BE PART OF "RED NOSE MIKE'S" BOOTY OR WHAT WAS TAKEN FROM MEYERS.

WILKES-BARRE, Nov. 16.—On Wednesday two little boys, Thomas Joseph and William Jones, found about \$300 in gold and silver hidden in a hole on the borders of a wood near Miner's Mills. They were scraping away some dirt to build a little fort when they came upon the money. Who hid it is a mystery, but the fact of its finding gives rise to two questions, one which involves the guilt or innocence of a man now in prison, and the other forming an interesting point about a great murder.

Some five months ago Henry Meyers, a driver for Reckard & Co., came into town and told a startling story of having been held up by highwaymen near Miner's Mills, and relieved of a sum of money belonging to his employers. His story was not believed and he was arrested, tried for larceny, convicted, and sentenced to three months, which he is now serving.

He now claims that the money found by the boys is the sum stolen from him and hidden by the highwaymen. Why they should bury it is not explained, but his attorneys are investigating, and hope to prove that Meyers is innocent.

The other and more probable theory is that it is part of the money stolen when the famous McClure murder took place. It was found within a mile of the scene of the crime. Captain Linden, who was engaged on the McClure case, discovered that not all of the \$12,000 stolen had been taken to Italy by Bevinio and Vellela, and Red Nose Mike, just before he was hanged, said there was some of the money still hidden. The little boys have advertised in legal form, and should no owner be found, they will keep the money.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge to all who desire, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper. W. A. NOYES, 820 Power's Block, Rochester, N. Y. mar-6-1y.

The Largest Passenger Elevators in the World.

The largest elevators for carrying passengers in the world have just been completed on the banks of the Hudson, near Weehawken. The high tableland in New Jersey, opposite New York city, and between the Hudson River and the Hackensack, has up to this time not been used as generally for purposes of pleasure and residence as it should have been. The elevated plain, known as the Palisades, is at its beginning some one hundred and fifty feet above high tide, and is over a mile wide at the same point. It stretches north for many miles up the Hudson River, and naturally rises in elevation as it proceeds. This high land has been accessible only by steep grades for wagon roads, and by means of stairways which climbed laboriously up the steep cliff. The Hudson County Railway Company, which operates the elevated road at Hoboken and controls many of the street car lines in that neighborhood, has of late years been extending these lines, and increasing the facilities for getting on top of this high plateau to another. The most recent addition to the plant of this company has been the building of huge elevators at Weehawken, where the ferry-boats from Forty-second Street and Jay Street, New York city, discharge their passengers, and where also the West Shore Railway starts north and west to Albany and Buffalo. These elevators are the largest ever constructed for passengers, and in planning them the engineers have adopted new devices to secure their safety against accidents. From the elevators, which rise just from the water's edge, there is an immense viaduct or elevated railroad which runs some eight hundred feet back to the hill, where connections will be made with the various steam and horse cars which will run in one direction and another.—Harper's Weekly.

How Champagne is Made

"Yes," the speaker continued, "the making of champagne is interesting. The grapes go through three pressings. The juice from the first is the best, and with each pressing the quality of the wine is reduced. After the pressing the juice is put into vats, and if it does not ferment in twenty-four hours a fire is put into the room. Then it is transferred into other casks, in which it is left during November, December, January and up to April. Next it is mixed in other vats, each containing 300,000 gallons. After this it is drawn off into bottles and allowed to remain in cellars for six months to test its strength. Now comes another portion of the work. The bottles are placed end down, on what is called a papirte, and allowed to remain for a month, so that all the sediment can collect on the corks. The cork is gradually eased till it flies. A mixture of liqueur is then put in, the bottles are recorked by one man, wired by another, till each one does a portion of the necessary work, all being done at the same time. The liqueur consists of rock candy, spirit and alcohol. Altogether it takes two years to make a bottle of champagne, and it passes through sixteen hands before it is fit to be turned out. One house supplies the different Courts. The Russians must have theirs mixed with 16 per cent of the liqueur, and the Belgians 12. The German Emperor has his of the driest quality, and so does the Court of England. The greater the amount of liqueur the sweeter the champagne."

14 MONTHS IN BED. "Mrs. Kelly requests me to write you in regard to what S. S. S. has done for her son, who has been sick long with an abscess. She had two physicians, and they did everything for him that they could and he didn't improve. For fourteen months and five days he was in bed and not dressed. Some one recommended your S. S. S., and after he had taken two or three bottles he began to improve. He continued until he had taken eleven bottles, and today he is as well as ever. The boy is fourteen years old, and Mrs. Kelly lives next door to me, and I am well acquainted with the facts of the case." C. W. HODGKINS, Postmaster, East Lamoine, Maine. Swift's Specific has a wonderful effect on children and young people. It should be given to every child who has any blood trouble or blood taint. It drives out the poison and poisonous germs, and enables nature to develop the child. Our treatise on the blood and skin will be mailed free to all applicants. SWIFT SPECIFIC CO., Atlanta, Ga.

Literary Note.

A picture to every third page or so of November Book News (Philadelphia) gives a foretaste of what may be expected for the coming holidays. Mr. Dole, in his letter from Boston, tells of a number of the Christmas books, and this is supplemented by the announcements of publishers in the advertising pages. The price list of current books, which Book News always describes so well, covers over twenty pages. All this for five cents. The author portrait of E. W. Howe will interest all readers of his "Story of a Country Town." The biographical sketch by Miss Garside is a well written and extremely readable article, prepared expressly for this number of Book News.

Does Protection Protect?

Certainly, in one instance, it does. Hood's Sarsaparilla is the great protection against the dangers of impure blood, and it will cure or prevent all diseases of this class. It has well won its name of the best blood purifier by its many remarkable cures.

The highest praise has been won by Hood's Pills for their easy yet efficient action. Sold by all druggists, Price 25 cents per box.

Young Mushman—"Miss Clawa, beg pardon, but recently your mannan, dontcher know, quite distwesses me. Perhaps you are not awaah of it, but you have acquiached a chronic habit of staving at vacancy." Miss Clara—"You silly boy! How can I help it without being inattentive to you?"—Boston Courier

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 2 drops to a teaspoonful. It acts directly upon the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. 11-20-04.

What Ailed Her Stocking.

At church one day they sang the familiar hymn, "The Church's One Foundation," in which are the lines:

By schisms rent asunder,  
By heresies distressed,

That evening, when preparing for bed, little Kitty found a large hole in her stocking, and she shouted out, "Oh, mamma, mamma, my stocking's by chasms rent asunder."—New York Tribune.

Bull's-Head Horse and Cattle Powder has been in use for years. Farmers prefer it to all others, and they get their money's worth, as each package contains one pound. Sold by all dealers.

Two young Avondale married ladies were talking the other day about their husbands. Said one of them: "Do you really think your husband went fishing yesterday?" "Well, I don't think he tried to deceive me yesterday; I am inclined to think he went." "But he didn't bring back any fish?" "That's what makes me feel sure he did go."—Cincinnati Commercial Gazette.

Good Looks.

Wiggs (at rehearsal)—"Mr Baconshak, we want to put a little realism into this play. Can you suggest anything? Baconshak—You might try paying real salaries."—Boston Herald.

Uncle Josh (who has awakened himself snoring).—"Well, I swan, you don't catch me coming to such a noisy city again. A man can't even go to sleep."—Lowell Citizen.

I was a sufferer from catarrh for fifteen years, with distressing pain over my eyes. I used Ely's Cream Balm with gratifying results. Am apparently cured.—Z. C. Warren, Rutland, Vt.

I suffered from a severe cold in my head for months and could get no relief. Was advised to use Ely's Cream Balm. It has worked like magic in its cure. I am free from my cold after using the Balm one week, and I believe it is the best remedy known.—Samuel J. Harris, Wholesale Grocer, 119 Front St., New York. 11-13-2

"Just try to frighten me, will you?" said B—to M—"What for?" "I have got the hiccup, and if you frighten me it will make it go away at once." "Very well, then, here goes," shouting at the top of his voice, "lend me 500 francs!" "Ah, thanks, it is gone!"—Herbert Spencer's Data of Ethics.

First youth (at railway depot)—"Traveled far?" Second youth—Not yet, but I expect to before I stop. I am going west to seek my fortune." First youth—"I just got back. Lend me a dime, will you?"—Kansas City Journal.

How to save money is a problem that interests everybody. One way to do it is to invigorate the system with Ayer's Sarsaparilla. Being a highly concentrated blood medicine, it is the most powerful and economical. It is sold for a dollar a bottle, but worth five.

Weuse Alcohol

pure alcohol to make Wolff's Acme Blacking. Alcohol is good for leather; it is good for the skin. Alcohol is the chief ingredient of Cologne, Florida Water, and Bay Rum the well known face washes. We think there is nothing too costly to use in a good leather preservative.

Acme Blacking retails at 20c. and at that price sells readily. Many people are so accustomed to buying a dressing or blacking at 5c. and 10c. a bottle that they cannot understand that a blacking can be cheap at 20c. We want to meet them with cheapness if we can, and to accomplish this we offer a reward of \$10,000 for a recipe which will enable us to make Wolff's Acme Blacking at such a price that a retailer can profitably sell it at 10c. a bottle. We hold this offer open until Jan. 1st, 1893.
