None do so little for the very poor of New York as its very rich. Efficient workers among the poor are at present generally drawn from the poor themselves, or from the middle and professional class. No one need wonder at this. Effectual charity work and the requirements of modern society do not easily consort. A very small proportion of those who possess enormous wealth in the city subscribe liberally to its various charities; comparatively few can be counted on for a ready support in any properly conduct ed and hopeful philanthropic movement; and fewer still are found willing to fulfil the more difficult, the more necessary duty of gaining personal knowledge of the needs and wrongs of the poor through personal study of their situation, and friendly intercourse with themselves.

I say, such attention, such knowl edge, are not likely to be given by the very rich. To win fortune to day implies a singleness of purpose, a concentration of all the faculties of the man to the doing of one thing. The very rich man must be a very busy man it he would make large sums or keep large sums of money. The difficulties presenting themselves to his ambition are like tough wood, that nothing but the keen edge of an axe can deal with, and to be sharp means almost of necessity to be narrow. Great riches are apt, as One we reverence taught long ago, to ossify the soul, and make the attainment and development of an ideal or truly sympathetic life always difficult, sometimes wellnigh imposai ble. I say, therefore, we expect too much from our very rich men and women when we call upon them to lead the crusade against poverty and vice. Certainly if we have expectation of their doing so, we in New York have been disappointed .- Dr. W. S. Rains ford in Harper's Weekly.

It being a well settled fact that any remedy which would kill the germ or microbe would destroy the life of the patient, it has been found that to force out these germs is the only safe relief from their ravages. In this way Swift's Specific has for 60 years been curing blood and skin diseases. It forces out the microbes through the pores of the skin, and soon sends out the poison which they may have left. In this way the disease is cured, and the general health of the patient is built up.

A BIG SILVER CONGRESS.

THAT'S WHAT CHAIRMAN SPRINGER, OF WAYS AND MEANS, WANTS TO SEE.

Silver Legislation Impracticable Now-He Would Have an International Conference During the World's Fair-Pass a Bill in the Next Congress.

Washington, Jan. 11.—Chairman Springer, of the Ways and Means Committee, was asked last night what he thought Congress should do in regard to the silver question. He re-plied: "I am a bimetallist and as such I cannot support any policy which would relegate silver to the rear or eliminate it from political discussion. On the contrary, I would make it a great national and international question, and would settle it upon lines as broad as possible, and at the earliest time practicable."

With a Republican Senate and a Republican President, however, free coinage cannot be allowed in this Congress, he said. Nothing could be done until the next Congress shall assemble in December, 1893. The practical thing to do was then to prepare to legislate on the subject. Congress could, he said, authorize the holding of an International Monetary Congress to fix the relations of gold and silver at Chicago during the World's

"This Congress should be a popular one," he said. "It should be a Congress, not a secret conference or commission, as in the past, and should have a large representation from this government and the governments with which we maintain diplomatic relations.

"The president should be authorized to invite the governments with whom we maintain the diplomatic relations to send representatives to this international congress, and he should be instructed to inform such governments that the Government of the United States earnestly desires to secure uniform system of coinage and of weights and measures, to be adopted thereafter by all commercial nations in order to facilitate, so far as possible, exchanges of commodities and to simplify monetary trans-actions; that this government desires international agreement as to the relations which should be maintained between gold and silver, and that in the event no conclusion is reached which would meet the approbation of this country the law-making power of the United States will feel at liberty to adopt such measures in reference to the subjects named as may be most conducive to the welfare of the people of this country.

TWO DEFEAT 700.

Seven Men Injured and Nine Dogs Killed by Pumas, Who Still Live.

LEIPSIC, Ohio, Jan. 11 .- The greatest hunt ever undertaken in the State took place near here Saturday, when 700 men and fifty hounds turned out to run down two pumas, which for two weeks have been preying on live stock in the neighborhood. The beasts were encountered early in the afternoon, much to the sorrow of both hunters and hounds.

The fight was kept up until dark, with the result that seven of the hunters are dangerously injured, at least be renewed.

FORTY KILLED AND INJURED.

Three Theatrical Troupes in a Wreck on the Monon Route.

CRAWFORDSVILLE, Ind., Jan. 12.-The northbound Monon passenger train was wrecked north of this city yesterday afternoon by a broken rail. Two passengers were killed and thirtyeight injured, two of whom will probably die.

Hardly a passenger on the train escaped injury. Help was soon at hand, and in a few moments the roadway was full of the mainted on their way to town.

There were three theatrical troupes on board, one of which was the City Club Burlesque Company, nearly every member of which sustained serious injury.

THREE MEN KILLED.

A Head-End Collision on the New York,

Ontario and Western Raliroad. Utica, N. Y., Jan. 7.-A head-end collision occurred between a freight and accommodation train and a light engine on the New York, Ontario and Western Railroad half a mile north of Smyrna, Chenango County, yesterday morning. The following were killed: Engineer Fred J. Young, of Utica; Engineer Martin Sheedy, of Oswego; Fireman Albert Cady, of Norwich. Both engines exploded soon after

they struck and were blown into twisted scrap iron.

The Work of a Good Man.

WHAT DR. B. M. WOOLLEY IS DOING FOR THE SUFFERERS FROM THE USE OF OPIUM AND WHISKEY.

The works of a good man live after him. He enjoys the blessings and distinctions they entitle him to in this world, and build for him a home in eternity. It is the mission of every living soul to do some good to benefit this manner.

A few now and then, here and there, realize this great responsibility, and devote their lives to the salvation of their fellowmen. One of the most conspicuous examples of this character in Atlanta, is Dr. B. M. Woolley. He is a man noted for his Christian integrity and fair dealing, being an old and highly esteemed citizen of Atlanta, and having built up a reputation among his home folks as a specialist in the cure of the opium and whiskey habits that is of the highest character. Although he has had years of experience in the treatment of these dreadful diseases, he is yet an ardent student, and studies the science of his profession gentleman). with as much diligence as if he were hobby?" only just entering the profession.

Dr. Woolley, unlike a great many specialists, treats what is called the opium and whiskey habits as a disease, affirming that they are strictly diseases, and nine times out of ten the sufferers are not directly responsible for their condition. The success he has had in bigger dog." this line has been something phenomenal. He has cured patients in every state and territory in the Union, and has treated cases in London, France, Germany, Canada and Mexico.

Opium and whiskey are two of the most powerful, and when improperly used, the most life destroying medicines in the world, and to know how to extract or eradicate the effects of these drugs from the human body is an art to which Dr. Woolley can justly lay claim. As evidence he simply refers to his hundreds of patients who have been thoroughly and soundly cured. Being a man of scholarly at-tainments, he has prepared a work on opium and whiskey, and their effects upon the human constitution. In his work he has testimonials of people whom he has successfully treated and permanently cured. This book will be mailed free of charge to your address if you will only send Dr. Wooley a letter asking for it. If you are not afflic-ted with the opium or whisky disease, probably you know of a friend or have a relative who is. If you will kindly send their names or inform them of Dr. Wooley's ability, he will take pleasure in sending them any information they may desire. Address Dr. B. M. Wooley, Atlanta, Ga. A Little Girls Experience In a Lighthouse.

Mr. and Mrs. Loren Trescott are keepers of the Gov. Lighthouse at Sand Beach, Mich. and are blessed with a daughter, four years old. Last winter she was taken down with Measles, followed with a dreadful Cough and turning into a Fever. Doctors at home and at Detroit treated her, but in vain, she grew worse rapidly, until she was a mere "hand-ful of bones".—Then she tried Dr. King's New Discovery and after the use of two and a half bottles, was completely cured. They say Dr. King's New Discovery is worth its weight in gold, yet you may get a trial bottle free at C. A. Kleim's Drugstore.
