The Columbia Democrat, STABLISHED 1847. CONSOLIDATED 1869. - PUBLISHED BY-

ELWELL & BITTENBENDER EVERY FRIDAY MORNING at Bloomsburg, the County seat of Columbia County, Pennsylvania.

TERMS:-Inside the county, \$1.00 a year in advance; \$1.50 if not paid in advance Outside the county, \$1.25 a year, strictly in advance. All communications should be addressed to THE COLUMBIAN,

FRIDAY, FEBRUARY 5, 1892.

COUNTY COMMITTEE.

A meeting of the Democratic Standing Committee will be held on Saturday, February 6th, 1892, at 2 o'clock p. m., at the Exchange Hotel, Bloomsburg, for the purpose of electing delegates to the State Convention. and for the transaction of such other business as may properly come before the Convention.

JNO. R. TOWNSEND, Co. Chairman. JAS. H. MERCER, Secretary.

The state Supreme Court has refused a petition for permission to file a bill in equity attacking the constitutionality of the new election law of 1891, on the ground that it has not the original jurisdiction.

DELEGATE-AT-LARGE.

The Democratic State Convention will name four persons as delegates-atlarge to the National Democratic Convention which meets in Chicago in June. We know of no man better fitted for the place than D. C. Dewitt, Esq., of Bradford county. He is a staunch Democrat, knows what he believes, and believes what he knows, and is never afraid to tell it in public or private. He made the speech in the convention last year placing Mc-Sparran in nomination for Auditor-General. In 1888 he was sent to Connecticut, Massachusetts, New York and other states, by the National Democratic Committee, and made speeches for five weeks during the Presidential campaign, and wherever he spoke there was a change in the vote in favor of the Democrats. He is a forcible speaker, strong in argument, and full of humor; a man of unblemished character and reputation. Last year he was called upon by the State Committee and at their request travelled over the entire State with the Democratic candidates, Wright and Tilden, and made speeches in learly every county. For his services te never asked anything more than is expenses. Let's send him to the vational Convention.

Washington Letter

WASHINGTON, Feb. 1, 1892.

The administration having by means not altogether satisfactory to those who place American patriotism above the political aggrandisement of any one man, secured a satisfactory settlement of the Chilian imbroglio, it is now the turn of the people, represented by the democrats in the House of Representatives, to obtain a satisfactory settlement with the administration. The mere suspicion that Mr. Harrison and Mr. Blaine have dared to bring the country unnecessarily to the very verge of war in their rivalry for the republican Presidential nomination, is of itself disgraceful to the party, which they both represent.

It has not yet been determined what, if any action will be taken by the House. There is a strong feeling in favor of the House committee on Foreign Affairs making an investigation of the matter, in order to ascertain whether there is any real ground for the suspicion so generally entertained, that the sending of the ultimatum to Chili was an unnecessary bit of buncombe to boom Mr. Benjamin Harrison. Should the committee decide to call upon Mr. Blaine for his testimony, some interesting developments may be expected. It may be, however, that shame for the position which the result of such an investigation might place the United States in before the nations of the world, will prevent the investigation being officially made.

Mr. Blaine and Senor Montt, the Chilian Minister, "do not speak as they pass by," owing to Montt having made statements seriously reflecting upon the veracity of Mr. Blaine. It will not be surprising if Senor Montt shall conclude that he doesn't care to remain in Washington. Mr. Egan may also come home from Chili before long. Mr. Harrison has invited Montt to the diplomatic dinner to be given

Tuesday. Representative Sherman Hoar's resolution, providing for an investigation of the "sweating system" of tenement house labor, will be favorably reported from the Committee on Manufactures, and it is almost certain to pass the House. Everybody is interested in ascertaining whether the charges that clothing and other articles of general ise, are manufactured in tenement nouses in the large cities which are ceking with pestilential diseases, and t is believed that an investigation will

lo it. The international American banking

scheme, which was before the last Congress, is in the ring again, a bill having been introduced for the incorporation of such a bank, with a capital of \$5-000,000, which may be increased to 25,000,000. The incorporators named are nearly all well known millionaires.

As far as it may be done by the Ways and Means Committee, the tariff policy of the House has been agreed upon, the democrats of that committee having decided by a vote of seven to three that it would report a series of separate tariff bills, instead of one general bill. There are still a number of prominent and influential members of the House who believe that this matter should be discussed in caucus before being finally decided. There is to be a caucus next Friday night, but as that was called especially to discuss the silver question, it is not probable that it will take up anything else, although something may be said about the feasibility of the caucus electing a "steering" committee of fifteen, which shall have entire charge of everything and settle just what shall be done and what shall be left undone at the present session. Much can be said both for and against this last idea.

Representatives of the Deep Waterway convention recently held at Detroit, made arguments before a joint session of the Senate Committee on Commerce and the House committee on Rivers and Harbors, Saturday, in favor of the construction of a great waterway from Duluth to the sea, via the great lakes and the Erie canal. The estimated cost of the work is \$3,-394,000, and the time to complete it from four to six years.

The House committee on the Election of President and Vice-President, has decided to favorably report a bill providing a constitutional amendment for the election of U.S. Senators by

The House Judiciary committee has decided that Representative Watson's resolution, for the investigation of the Pinkerton Detective agencies. would infringe the rights of the several States, consequently it will be unfavorably reported. The Alliance members say they will make a fight for the resolution on the floor of the House.

The democrats of the House will probably adopt the new rules early this week, nearly all of last week hoving been devoted to debate on them and amendments offered thereto. The caucus Saturday night after an explanation from Speaker Crisp endorsed the rules as reported from the commit-

When you have come to the conclusion to purchase a package of Bull's Head Poultry Powder for your chickens, pigeons or game, do not accept a substitute from your dealer. We can vouch for the quality of Bull's Head Poultry Powder but not for that of the by druggists. substitute.

MAINVILLE.

Several attended the road view near J. W. Kelchner last week.

The protracted meeting at the M E. Church closed on Friday night, Although there were none added to the interest manifested. The pastor, Rev. S. P. Boone, is undoubtedly, a very earnest worker and it is to be hoped that much good may result from his labors at this place.

Mr. F. P. Grover, intends to rent his farm in the spring and move to town. He is one of our best farmers and we will miss him.

Several from this place are going to attend the Union Revival meetings at Bloomsburg.

Mr. C. Mensinger moved in his new house on Tuesday. He had intended to move several weeks ago, but was unable to do so, on account of the serious illness of his wife.

A Sunday school convention will be here on the 17th of this month.

The local institute for this township, which is to be held at Mifflinville on

WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which developes ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

CURED How Can It Be

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla.

"My daughter Mary was afflicted with scrofulous sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CARLILE, Nauright, N. J.

N. B. Be sure to get only Hood's Sarsaparilla Sold by all druggists. \$1; six for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass 100 Doses One Dollar

It's an insult to your intelligence, but some un-scrupulous dealers try it. For in-stance: you're suffering from some Skin, Scalp or Scrofulous affection, or are feeling "run-down" and "used-up." There's a torpid liver, impure blood, and all that may come from it. You've decided, wisely, that Dr. Pierce's Golden Medical Discovery is the medicine to help you. You know that it's guaranteed to do so, as no other bloodpurifier is.

If it doesn't benefit or cure, you get your money back.

But what is best for you to take isn't always best for the dealer to sell. He offers something else that's "just as good." Is it likely? If the makers of a medicine can't trust it, can you?

One of two things has to happen. You're cured of Catarrh, or you're paid \$500 cash. That's what is promised by the proprietors of Dr. Sage's Catarrh Remedy. By its mild, soothing, cleansing, and healing properties, it cures the worst

Saturday, promises to be well attended. We have not had much sleighing ! this winter yet, but what we had was used and highly appreciated by all. At the present writing the snow has nearly all disappeared, but there is plenty of mud to take its place. The coon could see his shadow on Tuesday so there will be six weeks of cold weather yet, if old prophecies still hold true. According to that we may expect to get several sleighrides yet.

The farmers of this community met in the school house at this place on Tuesday evening the 2 inst., and after electing Mr. J. W. Shuman as chairman, were very ably addressed by Mr. To J. T. Ailman, state lecturer of the Grange. In the course of his remarks he said the Grange had a great deal to do with raising the state appropri ation to the present five million dollars for school purposes. After the lecture the grange was reorganized.

Ayer's Sarsaparilla purifies the blo xl, and expels all poisonous elements. Sold

University Extension and the Young Men's Ohristian Association.

The reason why the Young Men's Christian Association should co-operate in University Extension, may be snmmed up under two heads. The first church, yet it seems there was a very the work. Three things are considered is because it has the facilities for doing important in the establishment of a local centre for the extension of University Teaching, viz: An existing organization of some kind to afford a nucleus of attendance; a suitable hall or rooms for lectures and classes; and reference libraries, or conveniences for handling books. The Association possesses these requisites. In the second place University Extension, being clearly a movement of the highest public good, and placing educational privileges heretofore denied them, within reach of multitudes of young men, the Association should gladly co-operate with it on these accounts. It should do so to that extent that will not interfere with its other work, or diminish what it offers to young men. This I take to be the only limitations upon it. The Association aims to give to the world, as a final product of its work, a young man, intellectual as well as spiritual; and there seems no reason why its cooperation with University Extension should not prove a union of forces that will greatly advance its efforts to realize this high ideal of an all-around man. - Mr. Walter C. Douglas, General Secretary Philade'phia Y. M. C. A.
