Postmasters may do something—perhaps, a great deal—to increase the postal revenues, by calling the attention of the patrons of their offices to the facilities offered by the Parcels Post System, for sending miscellaneous merchandise, at comparatively low rates, to a number of foreign countries with which the United States has frequent direct mail service, and whose peoples are disposed to establish friendly trade relations with this country.

Packages of merchandise may now be sent by mail to Mexico, the Republic of Columbia, and British Guiana, British Honduras, The Republic of Honduras, Salvador, and Costa Rica, Jamaica, Barbadoes, The Bahamas, The Leeward Islands (The Virgin Group, Saint Christopher, Nevis, Anguilla, Antigua, Barbuda, Montserrat, Dominica); The Windward Islands (Grenada, Grenadines, Saint Lucia, and Saint Vincent); The Danish West Indies (Saint Thomas, Saint Croix, and Saint John); The Hawaiian Kingdom (the Sandwich Islands).

Each separate parcel must not weigh more than eleven pounds; and must not measure, if for Colombia, Costa Rica and Mexico, more than two feet in length by four in girth; if for any of the other countries named, more than three feet six inches in length, nor more than six feet in length and girth combined.

Parcels must be well wrapped, and so secured as to permit easy examination of the contents by postal and customs officials.

Postage must be FULLY PREPAID on every parcel, at the rate of twelve cents per pound, or fraction of a pound.

A fair exertion of enterprise on the part of our manufacturers and merchants, would soon develop trade worth having, both for its extent and profits, in many articles, by making full use of the facilities afforded by this Parcels-Post Service. It is safe, speedy, and the most available convenient means for sending goods in the quantities allowed to the destinations named. In illustration of the use which has already been made of it, the fact is of record, that last summer a St. Louis establishment sent to Mexico the parts of a complete buggy, to fill an order from that country.—Postal Guide.

PUMPING FOR LIFE.

A Unique but Startling Cure for Laziness.

A traveller, in the course of a morning walk in Amsterdam, came upon a group gathered round a well, into which a strongly built man had just been let down. A pipe, whose mouth was at the top of the well, had been opened, and a stream of water from it was flowing into the well, and gradually filling it. The man below had quite enough to do, if he did not want to be drowned, to keep the water out by means of a pump that was at the bottom of the well.

The traveller, pitying the man, asked for an explanation of what seemed a cruel, heartless joke.

"Sir," replied an old man standing near, "that fellow is, as you see, healthy and strong. I have myself offered him work twenty times, but he always allows laziness to get the better of him, and will make any excuse to beg his bread from door to door, though he might easily earn it if he chose.

"We are now trying to make him realize that he must work. If he uses the strength that is in his arms, he will be saved; if he lets them hang idle, he will be drowned. But look," continued the old Dutchman, as he went to the edge of the well, "the fellow finds out that he has muscles already; in an hour we shall let him out with better resolutions for the future."

The traveller watched until the man was liberated from his watery prison, and felt sure that at least a temporary cure had been effected.—Youth's Companion.

IT PAYS

To be cautious in the choice of medicines. Many are injured by trying experiments with compounds purporting to be blood-purifiers, the principal recommendation of which would seem to be their "cheapness." Being made up of worthless, though not always harmless, ingredients, they may well be "cheap;" but, in the end, they are dear. The most reliable medicines are costly, and can be retailed at moderate prices, only when the manufacturing chemist handles the raw materials in large quantities. It is economy, therefore,

To Use

Ayer's Sarsaparilla, the valuable components of which are imported, wholesale, by the J. C. Ayer Co. from the regions where these articles are richest in medicinal properties. "It is a wonder to me that any other than Ayer's Sarsaparilla has a show in the market. If people consulted their own interest, they would never use any other; for it is not only the best, but, on account of its concentrated strength and purity, it is the most economical."—James F. Duffy, Druggist, Washington St., Providence, R. I.
Dr. A. L. Almond, Druggist, Liberty, Va., writes: "Leading physicians in this city prescribe

Ayer's

Sarsaparilla. I have sold it for eighteen years, and have the highest regard for its healing qualities."
"Although the formula is known to the trade, there can be no successful imitation of Ayer's Sarsaparilla. Without having the enormous facilities of the J. C. Ayer Co., it is impossible for other parties to put together such valuable ingredients, at the low cost of Ayer's

Sarsaparilla

It stands at the head of all similar preparations."—Mark A. Jones, 50 year & druggist, 60 Cambridge St., E. Cambridge, Mass.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osmond, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. KINCHLOS, Conway, Ark.

The Centaur Company, 77 Murray Street, New York City.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ANCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

UNITED HOSPITAL AND DISPENSARY, Boston, Mass. ALLEN C. SMITH, Pres.,

GREAT FLOODS IN THE WEST.

MILLIONS OF DOLLARS OF PROPERTY DESTROYED.

PEORIA, Ill., May 7th.—The great marsh dike, fifteen miles long, and protecting a strip of bottom land about two miles wide, gave way at a point opposite Pekin last night. The crevasse is about 600 feet wide and is increasing rapidly.

As soon as the news of the break was received rescuing parties were organized at Pekin, and at the risk of losing their own lives several made a tour of the districts in boats. At midnight the entire district had been gone over and all the people had been rescued. They were very scantily attired and were taken to Pekin and temporarily cared for. Household goods of every kind are floating about the river and the inundated district. There was a large amount of live stock of all descriptions in the district and the loss from this source will be very great.

At Ottawa the list of unfortunates was added to by numbers of people driven from houses which escaped Thursday. Despite all efforts, the manufacturing district was totally covered by water. Ottawa will be helpless for a week at least.

Marseilles, La Salle and Peru are in an even more desperate condition. At Marseilles the river is steadily rising and is more and more dreaded as the levees weaken. There is little hope they will stand much longer, and every one in the district threatened have removed all property to high ground. At La Salle the situation is worse than it was last night, the water having advanced from two to three feet all around the city, and the manufactures, the water works, street railway and electric light plants are still under water.

The Illinois, Texas, Kankakee, and Vermillion Rivers have been from twenty to twenty two feet above low water mark for eighty hours, while their currents have averaged fully fifteen miles per hour. This immense mass of water does not include one-tenth of the terrific fall of rain precipitated upon this area. Splendid farms in all of the counties of the valleys were turned into great frog ponds by the flood, and as the earth was already filled with water, these farms will remain submerged for perhaps a week. Between 2000 and 3000 acres of land along the river banks are also under many feet of water, and the prospect of farmers, both above and along the rivers and for miles in all directions are most discouraging. A half million to a million dollars will not cover the loss to farmers alone.

L. T. Sharpless has added considerably to the beauty of his large stone room and residence by having it newly painted.

L. Bernhard is keeping abreast with the march of progress in this town by giving his residence on Fifth street a coat of paint.

Iowa held its State Convention Wednesday, and instructed their delegates-at-large to support Horace Boies, the present democratic governor as their choice for the nomination for president.

In another part of the paper will be found the card of M. E. Edwards, Insurance agent. Mr. Edwards has taken companies that have good assets and is giving strict attention to the insurance business. His office is in the Sanitarium building.
