Notwithstanding the fact that J. L. Dillon already has 40,000 square feet of glass in his flower houses, he has not room enough, and cannot supply all the orders that come to him from every direction. J. A. Hess gives a free crayon portrait to every customer whose purchases amount to ten dollars, at various times. The only condition is that the customer shall pay for the frame which costs \$3.00, thus securing a fine picture of yourself or friend for that small sum. It is a rare opportunity. A portrait of Mr. Hess' father exhibited in his store window is a fair sample of the work.

Prof. Welsh, principal of the Normal School, has again demonstrated the interest he takes in the progress of the Bloomsburg Public Schools, by suggesting to Prof. Sterner, superintendent of the public schools that he should say to the eight who recently graduated in the public schools, that they might have the privileges of the class room at the Normal School in the instruction of drawing and music. This will give the eight young ladies an opportunity to thoroughly prepare themselves for the state examinations, and at no expense.

A BRILLIANT WEDDING.

Commencement Exercises at Catawissa.

The commencement exercises of the class of 1892, of the High School, were held in the Opera House, Monday evening May 16. The house was crowded, even the aisles were filled by eager listeners. There were three graduates, Misses Jennie R. Scott and Ella M. Clewell and Harry G. Dechant. The exercises were commenced by invocation from Rev. U. Myers. The address of the evening was given by Henry A. Fuller Esq., of Wilkes-Barre. It was one of the most interesting addresses on the subject of "Education" we have ever heard. The address was eloquent, full of pleasing hits and much sound sense. Mrs. Carrie B. Kilgore of Philadelphia, gave the address to the graduates upon the subject of "Woman in the Profession." Mrs. Kilgore was the first woman to be admitted into the practice of law in this state. Her address proved that she was fully enthused on the subject of woman's rights. The exercises were interspersed with music by the Catawissa Band and Orchestra.

BLOOMSBURG PUBLIC SCHOOLS.

One of the most successful years in the public schools closed Wednesday of last week, and was publicly commemorated Thursday evening May 12, when Hattie F. Carpenter, Minnie G. Hehl, Kate Peifer, Irene L. Girtor, Jessie B. Ent, Emma Cadman, Theresa Hehl and G. Carrie Briggs, graduates, took part in the first Commencement of the Bloomsburg Public Schools. Two causes brought about this result. The first was the compilation and adoption of a graded course of study, having as an object, graduation in the Normal course, Business course and Scientific course. The course of study was arranged by the committee on text books, etc., and about a year ago adopted by the Board of Directors. The first step having been accomplished, the next was to secure a person, as principal, who could begin the work upon the new basis. The Board by a unanimous vote selected Prof. L. P. Sterner, who had served as assistant in the High School for the two previous years. The new principal entered upon the work with a determination to give the course of study a thorough test, that it might be ascertained how well it was adapted to the schools and if defects were found to report them to the Board of Directors; most of the teachers in the district labored diligently with the principal. The supervising work that is necessary for a principal where we have three separate buildings, consumed much time, attention could therefore only be chiefly directed this year to the one course, viz: the Normal course and accordingly eight persons have graduated.

A class in the Business course was commenced this year, from which a number will graduate next year. A few have commenced the Scientific Course, who wish to pursue more advanced studies.

Soon after the opening of the fall term the principal appointed monthly teachers' institutes to be held the second Saturday of each month. These institutes were attended by the teachers; with but few exceptions; much good resulted. The attendance was better, while the citizens seemed to give personal attention to the welfare of their children—this cannot be better illustrated than by stating that 701 persons visited the schools against only 363 the previous year; 145 visits to the High School against 15. Six pupils outside the district attended the High School, against none the previous year. The members of the Board of Directors were aroused to the needs of the schools and made frequent visits, offering suggestions when needed.

The principal made monthly reports to the Board of the progress of the schools, this was an innovation; and was more faithfully carried out than the Board had hoped for when it was incorporated in the rules to the principal—it was a gratification to the Board to learn monthly of the progress in the schools. In the final report there was recommended a few changes in the course of study, the adoption of a system of physical exercises and music, and a course of supplementary reading.

There are many things that claim the attention of the Board during the summer, before beginning a new term. The attendance in the schools will require additional teachers, the buildings at Third and Fifth street should be remodelled and we ought to give nine months term of school. The progressive spirit of the town has entered the Board of Education and it is hoped our schools will soon rank first in the land.
