#### AT HOMESTEAD.

The contest now fairly inaugurated between the Carnegie iron firm and members of the Amalgamated Association seems likely to become the most important struggle of capital and labor since the great strike of the telegraph

While only the three thousand work. men to the Homestead mills were concerned the strife really involved little more than the usual consequences attendant upon an ordinary lock-out of like magnitude. The succession of the adoption by the firm of electricity as a means of protection and defense, continued with the attack, battle and ended for the time being with the arcertain degree unwarranted by the actual condition of affairs.

But out of this situation has grown another of the gravest import, directly affecting the welfare of every capitalist and every workingman in the country, and bearing upon the most difficult of social problems as well as upon all

commercial interests.

There should be and need be no misunderstanding of the reat point at issue It is not a question of wages. The new scale proposed by the firm affects a comparatively small number of the men employed and with full promise of a busy season and constant employment, would reduce the incomes of those whom it bears upon most heavily so little that nobody would be senously embarrassed. Mr. Frick, of course, asserts the truth of this statement and the workmen practically admit it. If all other conditions were satisfactory they would gladly return to work on the basis proposed by the

The one point and the only one upon which agreement at this time is impossible is simply whether the firm shall recognize the Amalgamated Association and treat with its officers. The men insist that they will never return to work on any terms until this is done. Mr. Frick, speaking for the firm, declares that he will never do it. Both are determined. Both are strong. The end is not in sight.

The following notice was posted up

NOTICE—Individual applications for employment at the Homestead steel works will be received by the general superintendent, either by telegraph or in person, until six p. m. Thursday, July 21, 1892. It is our desire to retain in our service all of our em-ployes whose past record is satisfactory and who did not take part in the attempts which have been made to interfere with our right to manage our business. Such of our old employees as do not apply by the time above named will be considered as having no desire to re-enter our employment, and the position which they held will be given to other men, and those first applying will have the choice of unfilled positions for which they are suitable. This notice will be the last given to the employes of the works, and after non-coepliance with this the places will e filled with non-union men.

One of the leading officials of the Carnegie steel company was found at the general office sorting over a miscellaneous collection of mail, among which were many letters making applications for positions in the Home stead mill. Others expressed dissatis faction with the strike and were intended to square the writers with the firm when the trouble is over. Among the letters was the following, which the reporter was permitted to copy, omitting he signature:

HOMESTEAD, July 15, 1892.—Carnegie Steel Com, pany; There are a good many of us out for sympathy's sake, but sympathy does not fill a hungry stomach, and there is no use for 3,500 men to stay out for 220 who make from \$5 to \$15 a day. They can stand it to take a vacation if they saved their money, but we mechanics do not receive such a large amount, and I think there are about the most of us that would go back if protection was assured.

At noon Monday Secretary F. T. F. Lovejoy, of the Carnegie Steel Company, Limited, appeared before Alderman McMasters and made information against seven of the Homestead strikers, whose arrest on the charge of murder has been threatened for several days. The informations, although not entirely unexpected, created considerable surprise and excitement and were the subject of conversation on the streets all afternoon and evening.

They were made against Hugh O'-Donnell, the leader of the strikers: John McLuckie, Burges of Home-stead; Sylvester Critchlow, Anthony Flaherty, Samuel Burkett, James Flannagen and Hugh Ross, who are colectively charged with the murder of T. J. Connors and Sylas Wayne on the norning of July 6, during the riot.

Connors was a Pinkerton man. 30 ears of age, and lived at 80 Bond treet, New York. He was struck on the back of the head with a dynamite omb and had his right arm crushed Vayne was a young single workman who lived with his parents in Home-stead. He had his head shot off with cannon ball, fired from the opposite de of the river, while standing with is brother in the steel yard.

#### A I LEASANT PARTY AT PROCTOR.

Monday evening was one which will not be forgotten for a long, long time by the society people of Bluonisburg, for it was the occasion of one of the most delightful parties ever given in this vicinity. Invitations had been extended by Mr. and Mrs. L. F. Waller, and a special train conveyed their guests over the Bloomsburg and Sullivan railroad to Jamison City, where at Proctor Inn, the popular resort, a

most delightful evening was spent. The train started from the Main St. station of the road promptly at 6:20 and for about an hour and a half the guests were treated to a ride through one of the most beautiful regions in the State, along the banks of old Fish

ing-creek. Upon arrival at the City, all repaired to rooms assigned them, and when the party appeared again in the parlors all were in full evening dress. At about nine o'clock the sweet strains of an overture, well rendered by the Stopfer and Fisk orchestra of Williamsport, floated out upon the cool mountain air, and the guests began assembling, being received in the parlors by Mr. and Mrs. Waller, Mr. and Mrs. P. E. Wirt, Mrs. R. C. Neal, and Mr. and Mrs. Wigfall.

In a short time the orchestra struck up a waltz, and the beautiful ladies and gallant men were soon circling in the "mazy". From this time until supper was served the dancing was almost continuous.

Shortly after eleven o'clock the doors leading from the parlors to the dining rooms were thrown open, and the guests entered and were seated around eight tables, according to cards bearing the name of each one and placed at their respective places. The tables and dining room, as well as the parlors, were tastily decorated with ferns, etc.

After supper dancing was kept up until nearly one o'clock, when the guests again repaired to the various rooms, and after changing their costumes, wended their way down stairs to the station, and boarded the train, which was soon in motion, reaching Bloomsburg in the short time of one hour. The trip was one that will live long in the memories of all present, every one expressing him or herself as having had a delightful time.

Those present from a distance were: Mr. and Mrs. J. C. Wiegand, Dr. and lones and Williamson.

Everything in the arrangements moved smoothly from beginning to end. Mr. Hill proprietor of Proctor Inn, did everything possible for the ac-commodation of his guests, and the railroad facilities were excellent.
