THE MORNING OF THE DISCOVERY.

Immortal Morn, all hail,
That saw Columbus sail
By Faith alone,
The skies before him bowed,
Back rolled the ocean proud,
And every lifting cloud
With glory shone!

Fair Science then was born
On that celestial morn,
Faith dared the sea;
Triumph o'er her foes,
Then Truth immortal rose
New Heavens to disclose
And Earth to free!

Strong Freedom then came forth
To liberate the earth,
And crown the right,
So walked the pilot bold
Upon the sea of gold,
And darkness backward rolled
And there was light!

Sweep, sweep across the seas,
Ye rolling Jubilees,
Grand chorals raise;
The world adoring stands,
And with uplifted hands
Offers from all the lands
To God its praise!

Ye hosts of Faith, sing on:
The victories ye have won
Shall Time increase,
And like the choral strain
That fell on Bethlehem's plain,
Inspire the perfect reign
Of Love and Peace!

HEZEKIAH BUTTERWORTH.

PREPARE FOR OCT. 21.

The outline of what is proposed for Columbus Day is enough to indicate two things:

First—That the official programme will be so simple and can be so easily arranged that no school need wait till it is published before beginning its own preparations for the celebration.

Second—That the object of the national public school celebration of Columbus Day needs the cordial co-operation of the citizens generally in each locality in order to be fully realized.

The executive committee has also sent us a few suggestions of a practical nature which will be of advantage to teachers and all other friends of the celebration just at present. They are as follows:

First—A strong local committee should be appointed at once. It would be well to include in this committee not only the leading school officials, but also editors of the local press, army veterans and leading citizens who are known to favor the celebration by the schools. Only such as are likely to give earnest support to the work should be appointed.

Second—The postoffice address of the chairman of this local committee should be sent to the office of the chairman of the national executive committee (Francis Bellamy, Youth's Companion office, Boston, Mass.), in order that the chairman of the local committee may receive the official programme and other communications.

Third—This committee should first see that each school is provided with a flag, the salute to which will be the first feature of the official programme. They should also advise with each principal as to the best way in which the celebration can be carried on in his school house, arranging for speakers and suggesting exercises additional to the official programme.

Fourth—This committee should also arrange that the citizens' celebration be made to occur in the afternoon, and should see that the desired prominence is given to the free school idea in public ceremonies. Where no arrangements have yet been made for a citizens' celebration this committee might themselves take the initiative, and organize the afternoon demonstrations as well as the morning observances in the school houses.

Fifth—The greater publicity that is given to this committee, both in its formation and in its work, the better. Accordingly, the attention of the people generally must be gained and their interest secured. Let the people be freely invited to give suggestions and to send communications to the local press as to the best conduct of the celebration.

Sixth—The committee should see that the editors of the local papers are interested in the movement, and the people informed through the columns of these papers of the celebration and what is being done to make it a success.

In one word, this 400th anniversary of America belongs to all the people. The public schools take the lead because they are the organization closest to the people, most characteristic of the people and fullest of hope for the people.

FRIDAY ONCE WAS LUCKY.

The New York board of women managers of the Columbian exposition are alive to the mistake of dedicating the buildings and grounds of the World's fair on Oct. 12. At a recent meeting in Albany a member of the board made a comprehensive statement of the reasons why the change of date to Oct. 21 should be made, and said in closing: "I would also like to state, in this connection, one sentimental reason which I am sure will show a very interesting set of coincidences. Columbus left the Old World on a Friday, discovered the New World on a Friday, left the New World on a Friday, returned to the Old World on a Friday, and the 21st of October also falls on a Friday; so we see that for us, at least, Friday is not an unlucky day."

CONGRESSIONAL SANCTION.

The following is a copy of the bill which congress passed in the interest of the national public school celebration of Columbus Day:

Joint resolution authorizing and directing the president to proclaim a general holiday, commemorating the 400th anniversary of the discovery of America, on the 21st day of October, 1892.

Resolved, by the senate and house of representatives of the United States of America in congress assembled, That the president of the United States be and he is directed to issue a proclamation recommending to the people the observance in all their localities of the 400th anniversary of the discovery of America on the 21st day of October, 1892, by public demonstrations and by suitable exercises in their schools and other places of assembly.

Over 50,000 public schools have already notified the executive committee that they will be the centers of the local observances in their various cities and towns. Have the schools in this county reported?

Rutherford B. Hayes is ranked among the millionaires of this country.

Mme. Patti says she will sing as long as she is able to do herself justice.

Judge Field is now seventy-six years of age and has been on the Supreme Bench twenty-nine years.

Dona Isadora Cousino of Chili is said to be worth \$200,000,000, making her the richest woman in the world.

Presidents Washington, Jackson, Van Buren, Taylor, Fillmore, Lincoln, Johnson and Cleveland were not college graduates.

Phillips Barry, a twelve-year-old lad, is one of the best botanists in Boston, where he has taken several prizes at exhibitions. He knows Gray's Manual almost by heart.

Tennyson is a great admirer of Gray and Burns, and once said that he would rather have written the "Elegy in the Country Churchyard" than any other poem.

Princess Marie of Edinburgh who was recently betrothed to Ferdinand of Hohenzollern, Crown Prince of Roumania, is one of Queen Victoria's cleverest and prettiest granddaughters.

Mr. Gladstone is known among his colleagues in public life as "the man with the terrible memory," and yet it has been said of him that he has forgotten more than most British statesmen ever knew.

Lord Tennyson is the oldest English author, his first book having been published in 1830. Mr. Gladstone comes next, his pamphlet, "The State in Its Relations with the Church," appearing eight years later.

"When I was a boy," says Mr. Edison, "I sold peanuts and newspapers on the railway trains. One day a baggage porter lifted me from the ground by my ears—the membranes snapped and that is how I became deaf."

Miss Betsey Trumbull, who died, recently, at the almshouse in Kowhegan, Maine, at the age of ninety-two, was supported by the town from the day of her birth to the day of her death. She was of feeble intellect, and unable to take care of herself. Ninety-two years on a poor farm is the longest time on record.

Whitelaw Reid is not the man he was four years ago. His form is bent and his gait is that of a man well along in the sixties. Acting on the advice of his family physician, he has taken to horse-back-riding and carriage drives, and may be seen any fair morning in the company of D. O. Mills on the central drive near the Mall.—New York Recorder.

Where the Good Little Girl Found Radishes—It created a smile in an up-town household the other evening when the four-year-old baby read a story from a nursery volume, improvising to suit her childish fancy. This is what she read: "And so the good little girl wanted to help her mamma, and she went out in the garden and took a high ladder and climbed up in a tree and picked the radishes for her papa's dinner."—N. AN IMPORTANT INDUSTRY.

"The Millville Wagon Works" are peculiar in the respect that they are the only wagon establishment in the United States that manufacture every part of the wood work of a wagon from the green rough lumber, and then it is kept on hand until it is thoroughly seasoned before being used, thus they are able to know positively that their stock is all perfectly prepared and entirely reliable, without taking anybody's say so for it. This important feature has largely helped to make the wonderful reputation of the Millville wagon. Mr. Dunbar, an important wagon manufacturer, on a recent visit to these works, gave it as his opinion that they are the best farm wagons made in the world.

Those who believe that Dr. Sage's Catarrh Remedy will cure them are more liable to get well than those who don't.

If you happen to be one of those who don't believe, there's a matter of \$500 to help your faith. It's for you if the makers of Dr. Sage's remedy can't cure you, no matter how bad or of how long standing your catarrh in the head may be.

The makers are the World's Dispensary Medical Association, of Buffalo, N. Y. They are known to every newspaper published and every druggist in the land, and you can easily ascertain that their word's as good as their bond.

Centralia People Will Invoke the Aid of the Law and Ask DAMAGES FOR RUINED HOMES.

The people living at Centralia whose homes were damaged to an extent that makes them uninhabitable, by the caving in of the surface over the old Hazle Dell colliery workings a few weeks ago, will seek redress in the law for the losses that they have sustained.

A number of them have combined, and placed the case in the hands of a leading Sunbury lawyer who now has the deeds in his possession, with a view to entering suit at an early day.

The insurance companies who had risks on the damaged properties have cancelled all policies, and will take no further risks on the buildings whatever.

The surface continues to give occasionally, and it is claimed that this will continue for some months to come, and in the end will have the effect of entirely running the homes affected by the break.—Advocate.

Of Interest to Young Men.

Young men desiring a successful start in business life should write to Palms Business College, 1709 Chestnut St., Philadelphia, for handsome circulars, which will be sent free, provided you name this paper. This institution issues a Life Scholarship for Fifty Dollars, and secures situations for its graduates. This is a rare chance for those who wish to become bread winners.

Would you rather buy lamp-chimneys, one a week the year round, or one that lasts till some accident breaks it?

Common glass may break or not the minute you light your lamp; if not, the first draft may break it; if not, it may break from a mere whim.

Tough glass chimneys, Macbeth's "Pearl-top" or "Pearl-glass," almost never break from heat, not one in a hundred.

Where can you get it? and what does it cost?

Your dealer knows where and how much. It costs more than common glass; and may be, he thinks tough glass isn't good for his business.
