Don't forget the great Comedy, "Widow Murphy's Goat" at Opera House, Wednesday, September 14.

A handsome brass guard railing was put around the counter at the Bloomsburg Banking Company Monday.

Several boys and a girl were arrested Monday morning by Constable Woodard for stealing watermelons from the lot of Samuel Trump.

### GET OUT THE VOTE.

Below will be found a list of the townships in Columbia County together with the total vote polled for president in 1888, the registered vote for 1892, and the gain in each township. It will be found that Beaver loses 3 votes and Mt. Pleasant 30 over four years ago.

The total vote cast in 1884 was 6787, with a democratic majority of 1911. The total vote in 1888 was 7160, and a democratic majority of 2192. The present year we find a registration of 8777—an increase of 1652 over four years ago. If the democratic Committee, together with the members of the vigilance Committee, will make special efforts to get out the vote our democratic majority will be over 2700. In addition to the registered voters there are always a large number of 60 day voters, which will probably swell the number to over 9,000, in that event we can look for 3,000 majority. We must remember that under the new ballot law there will be an extra amount of labor required in getting the vote. We have a few townships that poll nearly 500 votes; here there must be an average of 45 votes polled every hour. Each voter may be allowed three minutes in the preparation of his ballot, but since the provisions for polling the vote allow 10 to 12 voting booths for the large townships, all the votes can be polled in a little educational work is commenced at once. It is not expected that all will be made familiar with the voting before election day, but an effort ought to be made to familiarize at least one-half. Mock elections should be held in as many townships as possible, and the democratic election officers should act as the officers in the mock elections, in order to get a thorough knowledge of all the knotty points in the law. It is eight weeks until election day, but the time will pass rapidly. Systematic work should be commenced at once to get out the whole democratic vote, and the election of Cleveland and Stevenson will be assured and an era of prosperity follow. Get out the vote and you have done your part.

### World's Fair Notes.

Governor Pifer of Illinois, has detailed Colonel Charles P. Bryan of his staff to assist in receiving officers of state and foreign troops at the dedication of the World's Fair buildings in October. The appointment was made at the request of the joint committee on dedicatory ceremonies.

From the applications already on file it is estimated that more than 100,000 men will participate in the great civic parade at the time of the dedication of the World's Fair buildings in October.

A gold brick worth \$230,000 will be exhibited at the world's Fair by Montana.

Seats will be provided at the World's Fair dedicatory ceremonies in October for 1,500 newspaper correspondents, it having been estimated that about that number will be present.

Prof. Elisha Gray, the celebrated electrician, has returned from an extensive European tour taken in the interest of the electrical congress which will be held in Chicago in connection with the World's Fair. He secured the promise of 200 electricians to attend the congress.

Sacramento, Cal., will make at the World's Fair an exhibit illustrating its postal service from the days of '49 to the present time.

The Home Insurance Company, of 118 Broadway, New York, has subscribed \$2,500 to the capital stock of the World's Columbian Exposition company, and has promised to subscribe \$2,500 more.

Plans for the World's Fair passenger station at Jackson Park call for a main station 150x300 feet, with an annexed trainshed 100x672 feet. Provision is made for loading and unloading thirty-six trains at one time on reserved tracks.

An offer of \$120,000 in cash has been made for the exclusive privilege of selling peanuts at the World's Fair.

Applications for space in the Electricity building at the World's Fair aggregate 388,000 square feet, while only 185,000 feet are available. Foreign nations have already been assigned 68,000 feet, and several of them are urgently asking for more.

The International Peace Congress, at its recent session in Berne, Switzerland, decided unanimously to hold its next meeting in Chicago at the time of the World's Fair.

A company has been incorporated with \$100,000 capital stock for the purpose of erecting near the World's Fair a \$75,000 club-house, which shall be maintained during the Fair as headquarters for wheelmen from all parts of the world. Thereafter the building will become a central club house for the League of American Wheelmen. The project is approved by members of the National Association and by the Council of the Illinois branch.

On each side of the MacMonies mammoth memorial fountain in front of the Administration building at the World's Fair will be a high electrical fountain which will throw a stream 150 feet high, brilliantly illumined by variously colored electric lights.

Fac-similes of thirty seven of the most prominent of the Aztec idols in the museum in the City of Mexico have been prepared for the World's Fair at Chicago.

The Japanese government has arranged to send to this country 2,000 Japanese of the middle class, who are to be here during the World's Fair and afterward make a tour of the principal cities of the United States. Instruction and information as to the industries and customs of the American people constitute the object desired to be attained.

The Kansas State Normal School, which has 1,500 pupils, and is the largest in the West, will make an exhibit at the World's Fair.

The nitrate industry of Chile will be illustrated by an elaborate exhibit at the World's Fair.

A false statement is going the rounds of the press to the effect that visitors will not be able to get any drinking water at the World's Fair without paying for it. There will be an abundance of excellent water free to all who want it. Those who wish to drink mineral spring water, piped to the Exposition grounds from Waukesha, Wis., a hundred miles distance, will have to pay one cent a glass for it. The free water will be that of Lake Michigan, brought by tunnel from a point four miles from shore, and much better than the inhabitants of most large cities are supplied with.

The Austrian wood carving industry will be specially represented at the Chicago Exposition by thirty-four ex-

pert wood carvers from Vienna, who will exhibit their work in its various branches. Everything is being done to organize a thoroughly representative and interesting collection of exhibits.

Germany's building at the World's Fair will cost about \$125,000, and will be a combination of typical styles of German architecture, such as are seen in perfection in Nuremberg. It will be massive in construction, the first story being of great blocks of sandstone and the second of a combination of brick and cement. At one end will be erected a Gothic cathedral, the windows of which will show exceedingly artistic effects, being the work of several of the most famous designers in Germany. The interior of the building will be finished throughout with natural woods unpainted. Much of the building material has already been received from Germany, and the construction of the edifice is in progress.

The World's Fair souvenir coins, some of them, it is now expected, will be issued in November, probably by the middle of the month. The Exposition authorities have offered quantities of them to banks throughout the country at the uniform rate of one dollar each, and it is believed that those institutions will be prompt to avail themselves of the opportunity to get a supply for their customers. Orders for them are already being sent in at the rate of \$5,000 to \$10,000 a day.

Since 1864 Illinois women have taken out 284 patents for inventions and devices of one kind and another. The Illinois World's Fair board will exhibit copies of all of these patents, and models of all of the inventions that can be obtained.

The Winnebago County, Ill., Woman's Columbian Club, for a time contemplated making an exhibit at the World's Fair, but has now decided instead to raise sufficient money to send to the Fair for eight days 156 working women and pay all expenses. It is believed that many other women's clubs will follow their very commendable example.

Allow me to add my tribute to the efficacy of Ely's Cream Balm. I was suffering from a severe attack of influenza and catarrh and was induced to try your remedy. The result was marvelous. I could hardly articulate, and in less than twenty-four hours the catarrhal symptoms and my hoarseness disappeared and I was able to sing a heavy role in Grand Opera with voice unimpaired. I strongly recommend it to all singers.—Wm H. Hamilton, Leading Bass of the C. D. Hess Grand Opera Co. 9-2-21

### WASHINGTON LETTER

WASHINGTON, Sept. 5, 1892.

Using the Executive Departments of the government to obtain republican campaign material has been one of the specialties of the G. O. P. ever since it controlled a national administration. Whenever it has been possible to do so this sort of work has been done under authority of a Senate or House resolution, but the absence of any such authority has not prevented its being done during every national campaign. There is scarcely a single department of the government in which a larger number of employees of the highest are not engaged upon work which would never have been considered necessary if the managers of the republican campaign had not ordered that it be done.

Senator Sherman is an adept in this sort of thing, and his resolution, which was adopted during the closing hours of the last session of Congress, calling upon the Secretary of the Treasury for certain information concerning banks, State and National, since 1830, was for the two fold purpose of getting the republican party the strong support of the National banks and for obtaining statistics which might be used as an argument against the plank in the democratic national platform favoring the repeal of the prohibitory tax on the circulating notes of State banks. Under this resolution all of the official machinery of the United States Treasury has been put to work for the republican party. In sending circulars to the National banks requesting—demanding would be nearer the truth—them to assist in gathering these statistics comptroller Hepburn felt that some reason ought to be given for such an unusual proceeding, so the following note was inclosed with each circular: "While it is admitted that calls of this character create unusual demands upon bankers and their clerical force, still the value of the results secured will, unquestionably be recognized and, therefore, the willing co-operation of all national bank officers is confidently anticipated" (the underscoring is mine.)

In addition to the circular to National banks several thoroughly posted officials, including Henry H. Smith, assistant Register of the Treasury, have been ordered to personally visit the National banks in the Eastern States where the information is mostly to be used, in order that there shall be no mistake concerning

Children Cry for Pitcher's Castoria.

the precise information wanted. Besides all that, a large force of expert clerks are at work searching the old records of the Internal Revenue Bureau, hoping to find something detrimental to State banks, which may be used in the campaign. Meanwhile the legitimate work of all these officials remains undone and they draw their pay for hunting up republican campaign material, pay which democratic tax-payers have to contribute their share of.

Superstitious democrats are very much pleased because the first sloop to arrive at the Capitol this season, with a car load of oysters, was the Grover Cleveland; they regard it as an omen favorable to the election of Cleveland and Stevenson.

### Inconsistency.

It never is seen away to fly. Though birds' wings furnish woman's bonnet, White man's straw hat will soar sky high, With never a fluttering feather on it!

According to the latest edict of fashion from Paris and London the robe de nuit, or, to call it by its plain English name, the nightgown, has got to go. Its place is to be taken by pyjamas, those nondescript garments consisting of very loose trousers and jackets, the use of which at night has hitherto been restricted to the masculine sex. The new pyjamas for feminine wear are very dainty and beautiful contrivances, trimmed with lots of ribbons and laces. Far from diminishing the attractiveness of a pretty woman, they vastly increase it by endowing her with an air of gamine which is exceedingly fetching. Pyjamas should be made of the thinnest finest wool. Here in the United States, especially where tropical heat is generally followed by sudden cold waves, wool next to the skin is essential for preventing chills. Moreover, they possess the inestimable advantage of being not only warm in cold weather, but of keeping the body cool when the atmosphere is hot.

### Believed in Ecme Signs.

From the Chicago Tribune. It was the witching hour of night. Light, fleecy clouds scurried across the face of the moon, the wind moaned dreary through the chimney tops, the street lamps, in all the glory of their one-and-a-half candle-power, threw their majestic radiance over the scene, and the man who was sitting on the curbstone shivered slightly as he saw a meteor flash across the heavens and disappear.

"Shykes," he said "do you believe in signs?"

"I believe in some signs, Glizzard," answered the man who was leaning unsteadily against a lamp-post. "Fristance, if I see a bright light in my wife's room when I get home it's a sign she's waiting for me and I'm going to catch it. That's a sign, Glizzard," he added, shaking his head gloomily, "that I've never known to fail."
