Bullheads or catfish are being caught by the hundreds in the Wapwallopen creek, near the Crystal Spring reservoir. The spring is so low that there is not enough water for the fish and they are going down the creek in thousands to find deeper water in the river. The creek is low in places and the fish are easily caught by hand as they come down.

The Allegheny Valley railroad began running a through coach from Williamsport to Pittsburg, last week, which is quite a convenience for persons traveling between those cities. Wyoming County Bears occasionally make their appearance about Noxen. The bear gazed at him a few moments and then waddled off into the bushes.

A Great Medicine Institution.

One of our reporters in passing the establishment of Dr. Kilmer & Co., the other day noticed that they are building another five story addition to their present quarters. The growth of this concern is truly remarkable. Established a dozen years ago, they have now as large, if not the largest and most complete plant of its kind. Although working all departments night and day they seem to be unable to supply the demand for Swamp Koot, which by the way has reached the largest sale of any kidney remedy on the market. It is a pleasure to refer to such facts in our columns.—*Binghamton Daily Herald.*

Reading Railroad's Winter Time Table.

Twice each year the train service of the Reading Railroad's various lines is readjusted to meet the exigencies of the seasons and the ever increasing demands of travel. Each successive change of this sort is marked by greater or less improvement in the convenience afforded the public, both in the arrangement of the trains and in the quickening of their transit. The Autumn and winter time table on the Reading's lines goes into effect on Sunday 13th inst. There are no conspicuous changes to be noted, but the slight alterations are all in the direction of furnishing better service to the Reading patrons. The new time tables can be obtained at the ticket offices on and after the 12th inst.

## ELECTION ECHOES.

The entire Democratic ticket was elected in Sullivan county. M. J. Lull goes to the Legislature.

In Wyoming county the Republicans got everything except Representative. Frank Piatt, democrat, was elected by a good majority.

In Montour county everything is democratic as usual. For Congress S. P. Wolverson runs ahead of the ticket 127, and J. K. Geringer for Representative leads it 65. James C. Heddens was elected county treasurer.

In a total vote of 39,118 Hines carries the Luzerne district for Congress over Foster by 1,594 majority.

Of the twenty-five State Senators chosen, the Democrats get one—Senator Green, of Berks, whose majority of 7,900 could not be overcome.

Harrison's plurality in Pennsylvania is 59,467 against 79,458 four years ago, an apparent Republican loss of 19,991. His actual majority is 45,203 in a total vote of 983,735, according to a semi-official count.

The political complexion of the next State Legislature is not altered by later returns. With a majority of 16 in the Senate and 68 in the House the Republicans have 84 majority on joint ballot.

Kline, Republican, defeated Wright, Democrat, for State Senator in Luzerne by a plurality of 67.

Joseph Scranton was elected to congress in Lackawanna by a small majority.

Judge Pershing was elected the third time in Schuylkill county. There was a republican candidate, and John W. Ryan was an independent democrat after failing to secure the party nomination. The people of Schuylkill as well as the whole state have reason to congratulate themselves over the continuance in office of so able and upright a jurist.

## Elected by Popular Vote.

Every four years, immediately following the election of a president, the subject of amending the Constitution, so that the people can vote direct for president, is discussed. Now, that the democratic party will control both the Senate and Congress, together with the executive, this reform ought to be enacted. It will require two-thirds of both houses to pass an amendment Act, and that must again be ratified by the legislatures of two-thirds of the states. It ought not be difficult to pass such an amendment, when the subject is properly understood. Some of the so-called debatable states might object, because it would deprive them of monopolizing the nomination. New York state has been favored for the last 32 years; Indiana for 16 years; two presidents were chosen from Ohio; but the rest of the states have had a hard struggle even to present a candidate. By the present system, money is gathered from all corners and poured into the doubtful or wavering states, and what ought to be a gift of the people becomes a purchasable object. The result would probably be the same. The advantage would be that each state could present the noblest son at the nominating Conventions, and the selection made with due regard for ability, rather than residence. Each state would make an effort to get out the entire vote; and the necessary money for campaign expenses, would be kept in the several states. There are exceptions to the rule of selection, and notably so this year. Crover Cleveland would have been one of the standard bearers, even though his residence had been in the smallest State of the Union. His nomination was a demand of the people and his overwhelming majority the voice of the common people, with Cleveland in the presidential chair, would be the most opportune time to make an amendment to the Constitution, that we may blot out forever the suspicion of the presidential office being a purchasable object. In the State of Pennsylvania alone probably 100,000 voters did not go to the polls. It was a foregone conclusion which candidate could get the electoral vote and no contest was made.

## A Million Friends.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs, and Colds.—If you have never used this Great Cough Medicine, one trial will convince you that it has wonderful curative powers in all diseases of Throat, Chest and Lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at C. A. Kleim's Drug store.

A supper pork was served at the Rupert Hotel on Wednesday night, nearly a hundred guests partook of it. Landlord Unangst knows how to get up a square meal, and all present enjoyed it.

## COMPARATIVE VOTE.

Below we give the vote of Cleveland and Harrison for 1888 and 1892, showing the gains and losses in the different townships of Columbia County. Berwick shows the largest democratic gain, and yet polled the smallest proportion of its vote. Mt. Pleasant township polled the largest proportion of votes, being 29 in excess of the registration. Bloomsburg stands second in gain of democratic majority.

## It Tastes Good

One reason why Scott's Emulsion of Pure Norwegian Cod Liver Oil and Hypophosphites of Lime and Soda has had such a large sale is because it is "Almost as palatable as milk;" but the best reason is that its curative properties are unequalled. Scott's Emulsion cures Coughs, Colds, Consumption, Scrofula, and all Anæmic and Wasting Diseases. Prevents wasting in children. Almost as palatable as milk. Get only the genuine. Prepared by Scott & Bowne, Chemists, New York. Sold by all Druggists.
