Governor Pattison has signed the pardon of Abe Buzzard, the Lan- his services as Mr. Harrison's private caster county outlaw, on the recommendation of the Board of Pardons. It has been shown on the confession of a witness against him that he did not commit the crime for which he was convicted.

Clinton DeWitt, a prominent lawyer of Towanda, has been in Washington for a few days taking observations concerning appointments in Pennsyl Stanley Brown, who was Garfield's privania. He brings with him a large vate secretary, draws \$10 a day as re batch of indorsements for the United States District Attorneyship of Western Pennsylvania. He discovered that Foster directed that he, also, should there are several strong candidates in the field for this office who are being dition to his regular salary. There pressed by Representatives Sibley, Sipe and Kribbe, each having his own man. This three cornered contest he considered favorable to his candidacy, as he is not antagonizing any of the political forces which are arraigned against each most prominent officials that are alother by the representatives of the rival candidates.

The lead in the race is held by Henry Alvin Hall, of Elk. The other time the bureau was transferred to the candidates are trying to prevent Hall's department of Agriculture, and never appointment, which is now practically certain. It is thought that Mr. De-Witt might slip in as a compromise.-Philadelphia Inquirer.

Mr. DeWitt is an able lawyer, a sound Democrat, and a man of excel-lent character. He has a high reputation as a public speaker, and has frequently been invited to take the stump | ily arranged whether the fusionists or in the cause of Democracy in this the straight-outs are to be given constate, Ohio, Connecticut and other trol, or a division made between them. states, and always accepts. He never shirks a duty. His appointment would be an eminently fitting one.

#### The Nesbit Road Bill.

The proposed road law, to which a State appropriation of three million dollars has been hitched, creates the office of County Supervisor of Highways, to be elected for a term of three Supervisors, one from each township. elected for the same term, to be under the supervision and subject to the direction of the County Supervisor. The township supervisors are to be paid \$2.25 per day for the time actually spent in the performance of the duties of their office, and the County Supervisor, who must be a civil engineer, is is to be paid a salary fixed by the Board of Township Supervisors.

The important features of the proposed law, beyond the creation of the machinery for its execution, are the levying of a tax of one dollar for road purposes upon all males over 21 years of age, and the application of a State appropriation to the construction of important permanent highways extending from county to county. The usual tax, not exceeding eight mills to the dollar of valuation. may still be levied for local road purposes. In other words, the bill retains practically the present system of local road management and repairs and provides through the County Supervisor and a State appropriation for a gradual evolution of a system of permanent macadamized highways.

The value of the act, if passed, will depend upon two important conditions, the character and fitness of the men chosen as County Supervisors and the amount of the State appropriation. If good County Supervisors are chosen and the Legislature should pursue the uniform policy of devoting two or three millions annually to this object, some good permanent highways would gradually be constructed and would be worth all they would cost. If, on the contrary, the office of County Supervisor should be treated as mere partisan spoils to be bestowed upon the men with the strongest pull rather than upon those possessing the technical fitness for the place, and the Legislature should treat the road appropriation as one that could be granted or refused as a matter of convenience, the proposed law would prove a great disappointment. Perhaps it would be worth while to pass it, however, as a beginning of road legislation, that by judicious supplements in the future would gradually evolve a system of public highways worthy of the second State in the Union .- Times.

Nothing does the work so well .-Mr. P. Byrd of New Grand Chain, Ill., writes: "Being exposed to all sorts of weather I am more or less liable to have pains of some kind. I have tried a number of different so-called remedies, but nothing does the work so well as Salvation Oil. It is the best liniment I have ever used."

#### WASHINGTON LETTER

Washington, April 3.—Scandals in-volving the officials of the late republican administration are coming to the surface with alarming frequency these days. One that is almost embarrassing because of the nearness of those concerned therein to ex-President Harrison, is that unearthed by Secretaries Gresham and Carlisle, relating to the manner in which ex-Secretary of State Foster, is squandering the government's money upon a lot of favorites, all on government pay rolls, that he has taken on a junketing trip to Paris, ostensibly to aid him in the Behring Sea arbitration. As specimens of this pleasure party these two will suffice, giving a fair idea of the whole business; Major Halford was made paymaster in the army at a salary of \$3,500 a year as a reward for Secretary, and was ordered to Paris to remain during the arbitration, although no one could see the necessity for an army paymaster there. Mr. Foster. who is U. S. agent at a compensation named by himself while Secretary of State, wished the Major to have a good time so he ordered that he should be allowed from the State department funds \$15, a day for expenses. J. gular employe of the State department but having ordered him to Paris Mr. receive \$15, a day for expenses, in adare a number of others treated equally liberally. Another scandal exists in the weather bureau and Secretary Morton is now investigating charges of general cussedness against some of its most certain to result in a number of dismissals. According to these charges the crookedness began from the

Unless some sort of a compromise can be reached the republicans holding federal offices in Kansas are safe to enjoy their snaps for some time to come, as President Cleveland has directed that no appointments be made in that state until it can be satisfactor While Mr. Cleveland wants to do the square thing by both sides it is an open secret that his personal feelings are all on the side of the straight-outs.

No time is being wasted by fourth assistant Postmaster General Maxwell. The task of putting democrats in charge of all the fourth class post offices is gigantic, but it will in time be accomplished. The average of new democratic appointments is already well years, and a board of Township Road over one hundred a day, the highest number yet appointed in a single day by Mr. Maxwell being 188.

The administration and democrats generally are delighted with the March statement of the condition of the Treasury. It was, of course, known before hand that the payments for the month would necessarily be unusually large, but it was not known, or even guessed at by ex-Secretary Foster that the March receipts would be some millions in excess of his estimates. As a result, instead of the hole in the available cash anticipated on account of the big March payments \$2,500,000, was added to the surplus, and the free gold, now near the \$8,000,000 mark, continues to accumulate. Secretary Carlisle has received many congratulations upon his first month's showing, which but tends to confirm the general belief that he would make a successful Secretary of the Treasury.

Mr. E. Ellery Anderson, of New York, credited with being the principal author of the tariff bill made public by the Reform Club, of that city, is in Washington. He says: "The reform club, which has played such a prominent part in the present situation, has promulgated its tariff reform bill, not with the understanding that it is to be accepted, but mainly for the healthy and widespread discussion which will

follow." The silly fight which has been made on Mr. John E. Risley, the minister to Denmark, has had no effect here, as Mr. Risley has received his commission and taken the oath of office. He will probably receive his final instructions this week, and rumor says a portion of them will be to open negotiations for the purchase of a Naval station on the island of St. Thomas, West Indies, from the Danish govern-

ment. President Cleveland told Senator Roach, of North Dakota, that no faction of the party in any state will re-ceive recognition to the discrimination of another faction, but that the ability and character of the applicant will decide all appointments. By the way, speaking of Senator Roach the impression seems to be general that nothing more will be heard in the Senate of Mr. Hoar's resolution to investigate newspaper charges against Mr. Roach.

Washington, April & —It is probable that the appointment of James H. Rolein, of Himein, to be comptreller of the our russy, made pesterday, was a mistake and that it was the intention to neminate him for the pestition of second comptroller of the tennusy. The salary of both positions is the same, the comptroller of the currency receiving \$1,060 extens on account of being trustee for the Freedman's saving trust fund. Section 225, revised statutes, says: "The comptroller of the ourrency shall be appointed by the president on the treasury."

This prevision of the statute providing for the appointment to be made on the recommendation of the secretary of the treasury was clearly not complied with as it is asserted on unquestionable authority that Secretary Carlisle did not recommend the appointment, and only know of it. the appeintment, and only knew of it a moments before it was sent to the sen-

The Senate's Secret Session.

WARHINGTON, April 4.—The senate was in secret session yesterday afternoon for more than an hour, and at the end of that time only a few postmasters were given out as having been confirmed. This was, however, the most unimportant part of the The Behring sea correspondence and the cases of the two governments were submitted to the senate but not read. Russian treaty was then taken up and de-manded the attention of the senators for

#### Good Democratic Doctrine.

True democracy means, as Abraham Lincoln expressed it, "government of the people, by the people, and for the people." Public office, bestowed either by the people directly or through their chosen servants, is, therefore, neces-sarily a "public trust." It is instituted not for the benefit of the office-holder, nor for the benefit of his party, but for the benefit of the people. The people are evidently entitled to the best service they can get, and those who are intrusted with the power of appointing officers are, therefore in duty bound to appoint only persons fit to give the people the best possible service. They can discharge the duty only by selecting persons for office according to their fitness for the service to be rendered. The most faithful observance of this principle will also than three months after its use he was secure to every man aspiring to public employment his rightful chance, for every man will have a chance accord- H. Mrs. Bouton, in relating her restoration to health, said: "From a growing girl I suffered from female trouble or weakconnection with suits pending before ness peculiar to my sex. Several phy sicians prescribed for me but I found no relief. I was reduced in flesh down found a medicine that was doing me good. I think I had used five bottles when I found that I weighed 1211 pounds and was better in health than ever was before.

Inquiry among Mrs. Bouton's neigh-bors shows that she states nothing but the facts in regard to her case. Many other instances of the kind are widely talked of in Scottsville, Tunkhannock, Wilkesbarre and other places where Dr. Kennedy's Favorite Remedy has effected many cures after physicians had given up hope.

"But," says one of our prominent druggists, "Favorite Remedy is equally efficacious in other diseases, as talks with people I have sold Favorite Remedy to affirm. To my knowledge right in our town Favorite Remedy has cured people suffering from rheumatism, dyspepsia, kidney, liver and urinary troubles."

Since the publication in one of the New York medical journals of the case of Mr. E. P. Tayer, of East Nassau, N. Y., Dr. Kennedy's Favorite Remedy has been increasing in sale. Mr. Tayer had suffered for fifteen years with inflammatory rheumatism. His case was practically abandoned by his physicians. Favorite Remedy was brought to his notice and in less a well man.
