WASHINGTON LETTER

WASHINGTON, April 17, 1893.

Neither President Cleveland nor Secretary Gresham have any apologies to make for the action of Commissioner Blount in carrying out his instructions, declaring the protectorate proclaimed by Minister Stevens, without a shadow of legality or authority, at an end, and in withdrawing the protection of the U. S. flag and marines from the provisional Government of Hawaii. And the attempt of a few republicans to use the incident as a means to create bad blood between members of the two parties has fallen very flat, as far as Washington is concerned. There is no politics in the matter. It was simply a question of righting a wrong which was officially acknowledged to be wrong by the Harrison administration but was not righted then, as it should have been. If the provisional government of Hawaii is not strong enough to maintain itself without the United States it is not strong enough to be recognized in any negotiation looking to annexation or any other settlement of the present problem. What has been done is neither for nor against annexation, in fact, has no bearing whatever upon it. It is simply a step towards doing the right thing, as soon as the right thing shall become apparent. Meanwhile the administration is fully determined that no other nation shall interfere with Hawaiian affairs.

Senator Butler, of South Carolina, scored a point, as he usually does whenever an opportunity is given him, when Senator Lodge, of Massachusetts offered an entirely needless resolution, directing the Secretary of State to inform the Senate by whose authority the American flag was hauled down at Honolulu, by offering an amendment adding the words "and also by whose authority the same was hoisted." Mr. Lodge knew that the President was responsible for lowering the flag, and the resolution was only offered for unbecom.

Secretary Hoke Smith is in Georgia attending to some pressing private business. He will return to his desk this week.

Extraordinary efforts are being made by republicans to put the democratic Senators in a false position before the country in regard to the proposal to investigate Senator Roach's connection with an alleged bank embezzlement fourteen years ago. The republicans wish it to appear that the democrats refused to allow the investigation because of their wish to protect Mr. Roach. No such conclusion can be reached, except by a willful distortion of the facts. Senator Roach has from the first personally desired that the investigation be made, as he manfully told the Senate last week; he has asked no protection, and what is more to the point, he wants no protection. The opposition of the democratic Senators to this or any other investigation of events in a Senator's life before he became a Senator is based upon the highest authority in the land—the Constitution of the U. S., and it is mighty small business for anybody to try to make it appear otherwise, but then, you know, small business is second nature with some people.

The first instalment of the investigation of the Weather Bureau has been completed, and the immediate results will be the dismissal of minor officials for their inability to distinguish the difference between their own property and that of Uncle Sam, and the final results may be striped suits for them. The second instalment, which deals with bigger fish, will be started this week, and it is expected that it will result in showing that the big officials regarded the positions under the Bureau in about the same light that the minor officials regarded the property of the Bureau.

President Cleveland told a Senator Saturday just before the extra session of the Senate adjourned that he had not taken up the question of the appointment of a Public Printer yet, but expected to do so very shortly. There is no lack of candidates and the most of them are men whose reputations are such that it will be extremely difficult to choose between them.

HIS LEG CUT OFF.

Walter Savage, a boy of sixteen, who worked at the Desk Factory, had his leg cut off on Wednesday morning by the 11.40 Bloomsburg and Sullivan train. As the train was passing the Factory he attempted to board it, but stumbled on the rail and fell between the cars and was rolled along by the brake beam. The flesh was stripped from his leg, and his head was badly cut, and his body bruised. None of the train hands saw him, and they are in no way to blame for the accident. The boy had been in the habit of jumping on the train, and had been cautioned about it only the day before. He was carried to the factory by the hands, a string was tied around his leg to stop the blood, a stretcher was made and he was carried out to his home near the Furniture Factory. Drs. Gardner and Robbins amputated his leg in the afternoon, and this (Thursday) morning he is reported as doing well.

"It fits like the paper on the wall."

Of course it does if its the right kind, and it adds everything to the cheerfulness of the room.

Wall Paper gives your walls any effect and a touch of luxury that money could not otherwise supply.

To get the best, that is the question; but that is neither difficult or expensive if you go to the right place to buy it. Ours is the place, the variety is here, the prices are right.

If you want, we put it on your walls and guarantee the work. Workmen sent anywhere.

Window Curtains too, are here, prices right.

LOOK THIS WAY!

TO Farmer's and the PUBLIC —in— General.

We wish to say that we are still manufacturing and dealing in Agricultural implements at Orangeville, Pa., and certainly from long experience we should know the wants of the Farmers and public in general. And, in this connection we wish to say that all machinery we manufacture or handle is equal to any on the market, and sold at lowest prices.

We make a good cast head Land Roller, which every Farmer should have. Also Plows, Scotch Harrows, Cultivators, Wood Saws, Corn Shellers, and Feed Cutters, and a specialty of Horse Power Threshing Machinery. Then we handle the "Empire" Fertilizer, Grain Drill and Hay Rake, "Hench's" Walking and Riding wheel Cultivators, "Woods" Harvesting machinery (which needs no recommendation), single and double Corn Cultivators, Engines and Saw Mills etc. Lastly we wish to show up the New Deerfield Lever Harrow the only one that has a separate adjustment for each tooth independent of the levers. The only four lever Harrow on the market whereby the two centre sections can be let down in a dead furrow, or any one or more of the four sections can be raised and the balance of the teeth kept at work, frame at all times being level. It has a self coupling hinge, no bolts or pieces to lose, with circular steel eveners to equalize draft while turning corners. This Harrow is no experiment with us, and will be put out on their merits same as any other goods.

We also make and carry a large stock of Plow repairs, also an endless variety of other implement repairs. We are also prepared to do almost any kind of saw or grist mill repairing (having recently put in new Iron Lath and boring machinery etc. We also carry a full line of dressed building lumber. We appreciate the patronage of the public in the past and covet a continuance of the same in the future and will be glad to have any one call to see us, or answer their inquiries for anything in our line and will quote lowest prices.

WHITE & CONNER.
