STYLES OF MARKING, TRAVELING DRESS-ES, SILK WAISTS, SHOES, GLOVES, TRIMMINGS.

Ruffles are carried to such an extreme on wool costumes, that cotton ribbon, or embroidered edging, so far gingham, made with one deep flounce, plain waist with excellent effect. reaching above the knee (merely the increased width of the skirt) headed by two rows of narrow white braid with three at the bottom, and Eton a perfectly plain skirt; seams corded in white and Eton jacket with light blue satin *revers* and white China silk blouse. It should not be inferred however that no ruffles are seen on cotton fabrics, as white or colored dotted Swiss muslins may have a muslin ruffle or several of lace ; when

lined throughout with silk and trimmed with lace and ribbon make very handsome costumes. Duck sails are again fashionable, pearl buttons on the vest being the only trimming, with perhaps the addition of one or two rows of braid.

TRAVELLING DRESSES

assume this year an unusual importance, and serges, small checks or Cheviot challies are most in demand, made with plain skirts, short jackets with silk blouse and belt. A full shirring is a newer blouse front than a wide, plaited frill, the latter however is still fashionable. Plaided, striped, dotted or plain silk are all appropriate for this purpose, great liberty existing as regards color. Challi dresses ad-mit of very elaborate trimmings of colored silk ruffles, lace and ribbon, when however the material shows a conspicuous figure, skirts are often entirely plain, or large knobs of four- J. And, in this connection we wish to say that all machinery we manufacture or handle is equal to any on the market, and sold at lowest prices. We make a good cast head Land Roller, which every Farmer should have. Also Plows, Scotch Harrows, Cultivators, Wood Saws, Corn Shellers, and Feed Cutters, and a specialty of Horse Power Threshing Machinery. Then we handle the 'Empire' Fertilizer, Grain Drill and Hay Rake, "Hench's" Walking and Riding wheel Cultivators, "Woods" Harvesting machinery (which needs no recommendation), single and double Corn Cultivators, Engines and Saw Mills etc. Lastly we wish to show up the New Deerfield Lever Harrow the only one that has a separate adjustment for each tooth independent of the levers. The only four lever Harrow on the market whereby the two centre sections can be let down in a dead furrow, or any one or more of the four sections can be raised and the balance of the teeth kept at work, frame at all times being level. It has a self coupling hinge, no bolts or pieces to lose, with circular steel evener to equalize draft while turning corners. This Harrow is no experiment with us, and will be put out on their merits same as any other goods. We also make and carry a large stock of Plow repairs, also an endless variety of other implement repairs. We are also prepared to do almost any kind of saw orgrist mill repairing (having recently put in new Iron Lathe and boring machinery etc. We also carry a full line of dressed building lumber. We appreciate the patronage of the public in the past and covet a continuance of the same in the future and will be glad to have any one call to see us, or answer their inquiries for any-thing in our line and will quote lowest prices.
