HARRISBURG, June 14 .- Governor Patticon has approved the bill relating to the naturalization of aliens and prohibiting the payment of expenses connected there-with by officers and members of political organizations and by candidates. The law provides that the certificates of naturalization shall be printed on parchment paper and it shall be unlawful for any officer or my member of any committee or organization of any political party, any candidate far office, or for any person in behalf of mid committee, organization or candidate to pay or furnish the money to pay or in any way become responsible for the payment of the fees and expenses directly or indirectly incurred by an alien in attending upon any court for the purpose of and in obtaining his naturalization papers. The penalty for the violation of this sec-tion is \$50 fine to be paid into the county

If any person convicted and sentenced to pay a fine or fines shall refuse or fail to forthwith pay said fine or fines and costs to forthwith pay said fine or fines and costs to the magistrate, alderman or justice of the pace before whom he is convicted or give matisfactory security to be approved by said magistrate, alderman or justice of the magistrate, alderman or justice of the pence to pay the same within ten days, he shall be committed to the county jail there to be held one day for every five dollars of the fine or fines which he has been sen-tenced to pay. It is provided, however, that said imprisonment shall not prevent the collection of said fine or fines and costs by level process.

the collection of said line or most and costs by legal process. The most important of the measures ve-toed by Governor Pattison yesterday was Senator McCarrell's bridge bill amending the corporation law of 1874 by providing for increase of tolls on bridges when au-thorized by the court of quarter sessions in particip cases. certain c

PHILADELPHIA, June 14 .- The difficulty tween Lieutenant Colonel Streater, of the Thirteenth regiment, who became prominent through the lams affair at Homestead, and Captain Thurber T. Braz-ier, of the State Fencibles, which occurred in Washington at the inauguration of President Claveland, has been settled. There will be no court-martial, as asked for by Captain Brazier.

It seems the Thirteenth regiment and the Fencibles were quartered in the same building and, because of the noise made by the latter, Lieutenant Colonel Streater attempted to pass the sentinels to secure guist. He was haited by Captain Brazier, when the two officers had some words, charges followed and a court was asked by the captain. The charges have been in the hands of Major General Snowden since hat March.

 GENTYEBURG, June 10.-The agitation

GETTTSBURG, June 10.-The agitation over the proposed removal of the theologi-cal seminary at Get'saburg was brought infore the board of directers compased of ministers and laymen from the district synod, which met Lere. The proposition that was presented by Dr. Butler, of Wash-forten D. C. Garing a directer of the secthat was presented by Dr. Butler, of Wash-ingtan, D. C., offering a site, known as the Cook residence, in Georgetown, near the National capital, was considered and rejected. In view of the fact of the his-toric ground owned by the church at Get-tysburg, with present building and a late bequest of \$22,000, it was almost unani-mously agreed that the old building be repaired at a cost of \$5,000 and a new building erected consisting of recitation halls and library at an expenditure of \$15,-000.

A BIG BREAK IN FREIGHT BATES. Some Cuts that May Distarb Two Power

ful Associations NEW YORK, June 10 .--- There has been a big reduction of freight rates out of New York to all Mississippi river points. This may well be regarded as the first serious menace to rates in the territory of the Trunk Line Association and that of the Central Traffic Association.

The onts made by the Southern and Canadian Paolic companies affect only Pacific coast traffic and do not disturb the situa-tion in the east. The reductions made were by the Kanawha Despatch and Savannah steamship line. They made a clean cut of fifty per cent on dry goods and cer-tain other first class products from this city to the Mississippi river, which is the junction point between the castern and western associations.

The Savannah line's rate is 36 cents per 100 pounds, the old rate being 73 cents. The Kanawha Despatch, which runs over the Chesapeake and Ohio railroad, went one better and put in a rate of 35 cents. The National Despatch, which is a Grand Trunk line, anticipated the low rates of the above mentioned companies by announcing on Wednesday a rate of 50 cents. Its former rate was 82.

mer rate was 52. The object is to reach points west of the Mississippi river, so that the standard rates of the western railroads have to be added to these reduced rates. From the Mississippi river to Kansas City, for ex-ample, the first-class rate is 55 cents.

The same rate cutters have also reduced the tariff on all cotton goods from the mills. The National Despatch has put into effect a 33 cent rate between New York and the Mississippi river, and its competitors are shipping goods for 28

WHITE LEAD WORKS IN ASHES.

Philadelphia Visited by a Disastrous Blaze.

PHILADELPHIA, June 10 .- The Philadelphia whiting works, at No. 2609 East York street, of which George W. MacKenzie is the sole proprietor, were totally destroyed by fire yesterday, causing a loss which is estimated at \$40,000.

The building was a one-story stone and brick structure with a large frame loft used in the process of manufacturing white lead. Twenty men were employed in the building, working night and day. The night gang left for their homes, and when the day force arrived the building was in flames.

The blaze was discovered by a private watchman, who notified Officer Hoffman, and an alarm was sounded, but on the ar-rival of the engines the flames had made such headway that nothing could be saved.

A strange feature in connection with the fre, and one which points to incendiarism, is the fact that the flames broke out in the room in which the white lead is dried by cold air.

There was no stove or fire of any kind in

There was no stove or fire of any kind in this room when the night force left, and Mr. MacKenzie expressed the belief that the place was deliberately set on fire. The building, which is owned by E. A. Jessup, was damaged to the extent of about \$5,000. The less on the machinery and stock is estimated at \$55,000, on which there is an insurance of \$25,000.

A Deserter and Forger in the Tells. NEW YORK, June 9.-John S. Yardley, a deserter from the United States army, was deserter from the United States army, was held here before Cammissioner Shields yes-tarday on a charge of forgery. Yardly came here about a year ago from Maddison Barricks to get his pay, and received from Paymaster John B. Kiefer a check for \$78.40. He raised the check to \$878.40, out it cabled and deserted got it cashed and deserted.

Courted in the Courtroom.

PARIS, June 10 .- It appears that the sometimes monotonous eastions of the Behring sea tribunal have not been without romance. It was in the Behring sea courtroom that Mr. Edmund A. Benedict, of New York, and Miss Janette, Major Halford's only daughter, carried on their courting, which resulted in their marriage at Nottingham.

Wny We Should Control the Nicaragua Canal.

In war or in peace the exclusive to, it is more advantageously situated than is Gibraltar for the Mediterranean. As a means of uniting the East and the West, it will be of more value than is the Suez Canal for uniting England with India. The latter saves but 3600 miles, while the Nicaragua Canal saves 9500 in the voyage from the Gulf ports to San Francisco.

If we are to continue our policy of protecting the smaller states of the two Americas against the larger ones, and all of them against foreign encroachment, we must control the canal. We must also defend our own country. Our Pacific coast is nearly defenceless. From New York to San Francisco it is 13,000 miles by water -half the circumference of the globe. Between the same points by the canal it is only 5000 miles. From New Orleans to San Francisco it is 13,500 miles. The canal will cut this distance down to 4000 miles, a still greater saving. Now England can hurl a fleet against our western ports by way of the Suez Canal or from Australia, while another fleet, with a eastern coast, is threatening the ports on the Atlantic.

Not only in war, but also in competing for the commerce of the world, and especially of the western hemisphere, will the nation controlling the Nicaragua Canal have an immense advantage. No trade will flourish unless protected by the strong arm of military power, and no better example of this can be cited than that of England. Where all the great nations of the world meet in the canal, and the nations through whose territory it runs are so miserably weak, the inevitable result will be that it will fall into the hands of some great power. If that power be not ourselves, then we may safely bid farewell to military or com mercial supremacy in America. The golden moment is now here when possession is easy -Harper's Weekly.

Are You Nervous,

Are you tired out, do you have that tired teeling or sick headache? Charcoal is valuable as fuel, but it has other uses which make it one of the most serviceable of articles. When laid flat, while cool, on a burn, it causes the pain to abate ; by leaving it on for an hour the burn seems healed when the wound is superficial. Tainted meat surrounded with it is sweetened. Strewn over heaps of decomposed pelts, over dead animals, char-coal prevents unpleasant odors. Foul water is purified by it.
