The New York Sun makes some sensible remarks on Chief Justice Fuller's decision in the World's Fair case. It says : "To appreciate the importance of the Chief Justice's opinion, it is only necessary to consider what a formant was an employee of the Pendecision the other way would have signified.

It would practically have held the Government of the United States responsible for the pecuniary affairs of make this pledge to the House ; that the Exposition. If the right of the at the very first opportune moment it Federal Government to dictate as to the management of the Fair has been established, the Chicago people could have gone to Congress next winter with a very strong case, demanding an appropriation from the United States Treasury to cover every dollar of deheit.

More than that, it would have prac tically asserted the supreme authority the Pension Office, was dismisted of the Federal Government in regard to matters which, under the Constitution, belong to the States. It would have been the longest and most dangerous step toward centralization since the reconstruction period.

Every American citizen ought to re joice at the decision of the Court of Appeals, whether he believes that Sun-day opening is a good thing or a bad R. I. Light Artillery, who was allowed thing for the people."

The Farmer's Hope.

Our elevators are bursting with wheat for which the farmer can command but fittle more than 60 cents a bushel. There are in Europe alone, if we may credit the statement made by the late Secretary of Agriculture, Mr. Rusk, 150,000,000 people who never cat wheaten bread. In the one country is an immense supply of visible food waiting for buyers. In the other countries are millions who go to bed hungry. Between them ply ferry-boats with freight charges reduced to a minimum. What prevents an exchange that means benefit to both sides, needed food to the one and needed markets to the other ?

Not the sea, for it costs no more to send a bushel of wheat abroad than to send a letter in the mail, but the Mc. Kinley bill, which takes from the farmer, or his middleman, one-third or onehalf of the commodities for which he might exchange this surplus wheat in foreign markets as a fine for not buying those commodities from some pro-

tected home producer. It is clear, then, that whatever direct benefits may come to classes from release of taxes on the necessaries they consume or on materials with which they work, the great general good to be sought in tariff revision is a healthy expansion of foreign commerce. This was the immediate result of the Walker tariff in 1846. During the twenty-five years previous our foreign trade had not doubled. In 1822 it was \$141,000,000. In 1846 it had grown to \$227,000,000, an increase of but 60 per cent.

Under the low revenue tariff enact ed in that year it swelled by 1860 to \$687,000,000, a growth of more than 220 per cent. in fourteen years. More significant and instructive still was the increase in the tonnage of American shipping engaged in the foreign trade. For thirty years prior to 1846 it had been nearly stationary. In that year it was only 943,307 tons, almost 40,000 less than in 1810. By 1860 it reached 2,379,396 tons.

These figures speak volumes, but their chief encouragement is for those who produce the surplus products that must have other markets besides our own for remunerative sales.

The tariff of 1846 made a vent for our surplus products by opening a market for the things which, and which alone, other peoples had to ex-change for them. Yet this rapid expansion of imports brought no distress to home manufacturers. On the contrary, after eleven years' experience of that tariff they assented, almost unanimously, to a further decrease of 20 per cent.

The party of low tasiff and revenue duties is not about to try a new and dangerous experiment. It has no new fangled theory which it wishes to test upon the body politic. It has not only the support of reason but this solid justification of experience in the reform it proposes to make by purging our laws of the duties that smell of monopoly and rescuing the sovereign power of taxation from private control. - World.

MEN AND WOMEN INTERESTED.

"It is astonishing," said one of our physicians the other evening, "how many of the ordinary diseases people suffer from come from the one cause -excess of uric acid in the blood. To discover a medicine that would dissolve this acid has puzzled thousands of the best men of the medical profession, until Dr. David Kennedy, of Rondout, N. Y., produced what is known the world over as Dr. Kennedy's

Favorite Remedy. The great value we place in Favorite Remedy comes from the fact that it is the only medicine that will effectually dissolve this acid thus curing rheumatism, dyspepsia, kidney, liver and urinary troubles and the sicknesses women suffer from. These and many more troubles all come from the one cause, as I said before, this death-dealing uric acid." Perhaps there has been no one person in Wyoming Co., Pa., that has suffered more than Mrs. Carrie Bouton, formerly of Schottville, but now of Harvey's Lake, Luzerne Co. Mrs. Bouton, in relating her restoration to

health, said : "From a growing girl I suffered from female trouble or weakness peculiar to my sex. Several phy sicians prescribed for me but I found no relief. I was reduced in flesh down to 68 pounds. By accident I heard of Dr. Kennedy's Favorite Remedy and determined to try it, and to my great joy I began to realize that I had found a medicine that was doing me good. I think I had used five bottles when I found that I weighed 1211 pounds and was better in health than

ever was before. Inquiry among Mrs. Bouton's neighbors shows that she states nothing but the facts in regard to her case. Many other instances of the kind are widely talked of in Scottsville, Tunkhannock, Wilkesbarre and other places where Dr. Kennedy's Favorite Remedy has effected many cures after physicians had given up hope.

"But," says one of our prominent druggists, ' Favorite Remedy is equally efficacious in other diseases, as talks with people I have sold Favorite Remedy to affirm. To my knowledge right in our town Favorite Remedy has cured people suffering from rheukidney, liver and urinary troubles." Since the publication in one of the New York medical journals of the case of Mr. E. P. Tayer, of East Nassau, N. Y., Dr. Kennedy's Favorite Remedy has been increasing in sale. Mr. Tayer had suffered for fifteen years with inflammatory rheumatism. His case was practically abandoned by his physicians. Favorite Remedy was brought to his notice and in less than three months after its use he was a well man.

THE NEW PHASE OF THE SILVER QUES TION DISCUSSED AT LENGTH.

WASHINGTON, June 28 .- Two hours money on that account. were consumed by the cabinet to-day discussing the new phase of the silver yesterday afternoon and evening between the President and Secretary Carlisle simplified matters to some extent. Although the discussion, it is said, took a wide range, it was necesand unmanageable point-that the executive had no power in the premises, congress alone being able to deal with the measure for relief. It was plain to the cabinet that the monthly purchase of silver must be continued or else congress must be convened in special session immediately. As the President had decided to call congress together in the early part of September, to deal with the financial situation, and manifested no intention of changing his stated purpose, the project of an earlier session of congress, it was understood, was dropped. So far as the continuance of the purchase of silver bullion under the Sherman law was concerned, it was pointed out that little more than two months remained before congress would convene in extra session and that during the intervening time the purchases. The best way to deal with the question was to wait the course of events for two months longer. This view was generally agreed to and the meeting adjourned.

Next Friday will close the present fiscal year and instead of the eight or ten million deficiency which was esti-mated by Raum there will semain unexpended more than \$1,000,000 of the pension appropriation.

It is understood that Sec. Lamont's action in revoking his recent order appointing an army Court of Inquiry to inquire into Col. Ainsworth's connection with the accident at Ford's old theatre was the result of a conference with President Cleveland, and that it had been definitely decided not to suspend Col. Ainsworth until the courts decide whether he is guilty or not. He will be indicted by the grand jury this week.
