PARIS OCCUPIED BY TROOPS.

THE AUTHORITIES SAY THEY WILL RESTORE ORDER AT THE FRENCH CAPITAL AT ANY COST.

PARIS, July 5.—The body of Neger, the young man who was killed during the fighting between the police and students in the Latin quarter was sent to the home of his parents, in Lyons, to-day. The authorities feared that the rioters would take advantage of the shipment of the body to cause further trouble, and considerable secrecy was observed in transferring the body from the morgue to the Lyons railway station.

As the day wore on the rioters, hundreds of whom have no connections with the students, gathered in the vicinity of the markets and restarted the disturbances. Several conflicts occurred between the rioters on one side and police and soldiers on the other. The crowd was composed of the riff-raff of the city, a majority being out of work and men who never work.

The fighting was quite severe and numbers on both sides were injured. The affair has assumed such a serious aspect that the authorities, who at first imagined that it was due entirely to the effervescence of the more mischievous of the students, have determined to restore order at any cost. The disorderly elements in all parts of the city took advantage of the demonstration of students to join in to create disorder, and now as a matter of fact, they and not the students as a body are responsible for the rioting.

To-day almost the whole of Paris is occupied by troops who are under orders to repress disorder with a strong hand. The government has not yet carried out its threat to close the labor exchange. It was decided this morning to allow the building to remain open for a little while longer. At five o'clock this evening quietness prevails in the district. Prompt action to-day of the military and the knowledge that they had orders to use any amount of force to disperse the rioters has had the effect of cowering the mob. There was a disgraceful scene in the chamber of deputies to-day. The proposal was made that the body discuss the riots. The extremists howled and for a time the utmost disorder prevailed. The matter was postponed until Monday.

Rioting was resumed at 9.30 o'clock to-night. A mob in the Boulevard St. Michael assumed a threatening attitude and the police charged upon the crowd, driving the rioters down the Rue Des Ecoles as far as the place Maubert. There the mob made a determined stand, showering stones and every kind of missiles on the police. A hand to hand fight followed, and the struggle continued until the police were reinforced by a large force of guards, when the rioters dispersed. In the meantime a body of police and Republican guards had driven off the turbulent crowds that had assembled in the vicinity of the labor exchange, which is now occupied by troops.

At eleven o'clock there was a sanguinary encounter on the Rue des Ecoles. The exact details are wanting, but it is known that the Republican guards charged the rioters with drawn swords and that the police opened fire with revolvers upon the mob. One man was killed on the spot by a sabre cut. Others were taken to the neighboring drug stores and their wounds were dressed.

The Gettysburg Desecration.

From Harper's Weekly.

Within the last few weeks a storm of protests has broken upon the heads of those who are responsible for the scheme of running an electric railway over the famous battle-field of Gettysburg. It is thirty years since Meade and Lee decided the issue between the North and the South at that little town, within seven miles of the Maryland line. Since then the veterans of the blue have regarded as holy the scenes of the three days' awful struggle, and Gettysburg has become known the Union over as the "American Mecca." With a reverence unappreciable by the ordinary civilian the veteran has journeyed back to it, and standing bareheaded on some hallowed spot, has recalled with mental vision the awful carnage that swept from the Round Tops to the Cemetery. The imagination was not taxed greatly to reproduce the scenes, for the field has remained mainly as it was in '63, and the conditions that existed then have been preserved by the gratuitous efforts of the Memorial Association, aided by the various States that were represented in the Army of the Potomac.

The battle field of Gettysburg covers twenty-five square miles, the first day's engagement having occurred to the north and west of the town, and that of the second and third days to the southward. It is over the second and third days' field that the electric railway has run its desecrating track, ploughing, hacking, blasting, and destroying everything that impeded its progress, and shattering with vandalistic completeness all the sentiment that has hung over the blood stained ground.

The trolley goes out the Emmittsburg road—that runs about midway between Seminary and Cemetery ridges, upon which the two armies were stationed—to the Peach Orchard. Here it turns to the left, and pursues the narrow lane leading to the Taneytown road. Just before reaching the Wheat Field it deflects abruptly to the right, making for the Devil's Den region.

The Memorial Association has from the first opposed the electric railway, and scorned their request for a right of way over its land and avenues. Consequently the trolley purchased from private parties the necessary privileges, and wherever possible it has run its route along the line of the Memorial Association's land.

The Columbian Bell a Success.

The Columbian Liberty Bell was rung for the first time at 1 o'clock Tuesday afternoon at the Clinton H. Meneely bell foundry in Troy, N. Y., the ringing being controlled by electrical communication with Chicago. The hour was chosen to correspond with noon at Chicago and thereby carry out as nearly as possible the original programme modified on account of the delay in casting the bell. The statement coming from Chicago that the bell will be remelted and recast because of a flaw is denied by Mr. Meneely, who says that there is not a word of truth in it. The casting was a perfect success, and the bell is one of the finest ever made at the foundry.

The calling of congress in extra session is already evoking gossip as to the organization of the House. Complete reorganization is involved, with many new members to take their seats. A new speaker, clerk, sergeant-at-arms, door-keeper and postmaster are to be elected.

It is generally concluded that Charles F. Crisp, of Georgia, will again be chosen speaker and that James Kerr, of Pennsylvania, will be re-elected clerk and Lycurgus Balton, of Indiana, postmaster. For sergeant-at-arms and doorkeeper there will be several candidates to the claims of the present incumbent.

SEVERE STORMS IN OHIO.

Lightning Struck Promiscuously—Crops Ruined by Rain, Wind and Hail.

CINCINNATI, July 5.—A terrific thunder storm passed over central Ohio Sunday night, followed by another of equal fury yesterday. Much damage was done. The wind and lightning were the most severe in fifty years. Rain fell in torrents during the storm and was accompanied by hail.

In Fostoria chimneys and trees were blown down. A tree at the electric power house fell on all main wires leading out and left the city in total darkness throughout the night. A few miles south of Fostoria, the storm assumed the proportions of a tornado, blowing down several stables, outbuildings and fences. The rainfall was the greatest in years.

The damage to crops is enormous, and numerous houses and barns in the path of the storm were struck by lightning and burned.

DENNIS WILL RECOVER.

The Fourteenth Bridge Jumper is Badly Bruised.

The Young Irishman Wanted to Ellipse Steve Brodie's Feet—He Was Stimulated by Drink—Under Arrest at a Hospital.

NEW YORK, July 5.—Dennis McCarthy, the young Irishman who jumped from the Brooklyn Bridge yesterday, is reported to-day as doing as well as can be expected. He is at Chambers street hospital, where his trouble is registered as "severe contusions." His right side is one black and blue bruise, where he struck the water, and he has been vomiting quite a little blood.

He is now under arrest. As soon as he sufficiently recovers he will be arraigned in the police court, and will, no doubt, serve a term on the Island.

McCarthy is the fourteenth man to make the jump. He eclipsed Brodie's feat from the fact that he made his leap at about half way between the two piers, where the roadway is several feet higher than where the boastful Steve went over.

Dennis had boasted to his friends that he would beat Brodie's record, and well primed with liquor he rode on a truck half-way across the bridge. He leaped on the railing and went feet first towards the water, turning over several times before he struck. He was picked up by a tug and landed in the hands of the police on pier 21, on the New York side.

SHERMAN'S INTERVIEW.

The Veteran Statesman's Words Cause Some Comment.

NEW YORK, July 5.—The statements made by Senator Sherman has caused no little talk in both political and financial circles in this city.

The veteran financier said that there had never been a time since the law of 1890, known as the "Sherman Act," was passed that he would not have voted for its repeal.

SENATOR SHERMAN.

He said that the Sherman act was a compromise measure, and it was passed to save the country from a free coinage bill that had been passed by the Senate by an overwhelming majority. The Democrats helped it pass it, and now they abused and blamed it for all the financial woes of the nation.

"If the bill," he said, "had not been passed, a free coinage bill would, and the result would have been infinitely more damaging to the country."

"Will you outline what you think should be done in the present crisis?" he was asked.

"No; I will not. I prefer to have President Cleveland and his advisers unembarrassed by my advice."

"I have told Mr. Cleveland and Mr. Carlisle that I will stand with them for a sound, safe, stable currency, and that I will do."

"But the present dispute over the silver question is a Democratic party issue. Mr. Cleveland, in opposing silver, is fighting three-fourths of his party."

"Will the Sherman bill be repealed?"

"Probably so; but before it is repealed there are apt to be some warm expressions of opinion. I would not be surprised if some of the Democratic Congressmen and Senators should consent to the repeal of the Sherman act only on conditions that the administration might not favor."

Socialist Riot at Liben.

PRAGUE, July 5.—The Socialists have risen in surrection at Liben, a small town near here, and the riot has assumed such serious proportions that a force of infantry and cavalry was sent to assist the gendarmes in restoring order. About ninety of the rioters have been arrested.

The President is Fishing.

BUZZARD'S BAY, Mass., July 5.—Up to 1 p. m. to-day the President's yacht had not reached here. Mrs. Cleveland says her husband may spend two days more in fishing before reaching Gray Gables. It is understood that the Onaida is at anchor between New London and Buzzard's Bay.

"Only the Scars Remain,"

Says HENRY HUDSON, of the James Smith Woolen Machinery Co., Philadelphia, Pa., who certifies as follows:

"Among the many testimonials which I see in regard to certain medicines performing cures, cleansing the blood, etc., none impress me more than my own case. Twenty years ago, at the age of 18 years, I had swellings come on my legs, which broke and became running sores. Our family physician could do me no good, and it was feared that the bones would be affected. At last, my good old

to try Ayer's Sarsaparilla. I took three bottles, the sores healed, and I have not been troubled since. Only the scars remain, and the memory of the past, to remind me of the good Ayer's Sarsaparilla has done me. I now weigh two hundred and twenty pounds, and am in the best of health. I have been on the road for the past twelve years, have noticed Ayer's Sarsaparilla advertised in all parts of the United States, and always take pleasure in telling what good it did for me."
