When I received the invitation to attend the Hess re-union to-day I concluded the day was a suitable one and the time and should any books be lost or deall right, and I thought it would certainly be a success, but when I continued reading I came to that part of the program which made the announcement that speeches would be made by the president and others. Now the others part suited me admirably, but I could not for a moment reconcile myself to the fact that I was elected president to make a speech at every annual meeting. I was under the impression that when my inaugural address was made as president, my mission at speech-making was ended. I congratuiated myself last year, after the committees had been appointed, that I would not be called upon the coming year. I pondered over the matter as to what I should say and was in a serious quandary as to what I should say and how I should say it, in order that I might not disappoint you too seriously, and I finally came to the played. Accident on the N. & W. B.

At 9.25 o'clock Tuesday morning as the Pennsylvania Railroad pay car was going to Nanticoke from Macanaqua the eccentric shaft of the engine broke and one part penetrated the engine boiler, causing the steam to escape freely. The engineer and fire-man stuck to their posts and brought the train to a standstill. Detective Hefferon, Paymaster W. M. Watson and Assistant Paymaster G. B. Faust were on the car and jumped when they heard the roar of steam and were badly burned and shaken up.

POSTPONED.
