One gallon of the material is used to three thousand gallons of water and no bad taste can be detected in the purified water. The system, Dr. Lee says, is t here.

#### Through the World's Fair for Twenty Cents.

Naturally, every patriotic American wants to go to the Columbian Exposirion, and will go, if possible; and, just as naturally, the impossibility of going makes the desire all the stronger to see the beauties and wonders there displayed. Whether one goes or not, a souvenir of the grandest Exposition of all time is a desirable thing to have; unly in an experimental stage, but if of all time is a desirable thing to have; successful it would be well to adopt and no more complete or beautiful one can be had than the September number of Demorest's Family Magazine,—the Exposition number,—which contains over 300 illustrations, showing as much as one could see in a week's visit, and accompanied by vivid descriptions of all points and obects of interest. In fact, 'tis a collection of photographic souvenirs that would cost a lot of money, and yet you may possess it for only twenty cents. Through it you may also become familiar with the city of Chicago as well, for the history of that city is graphically told in "From Fire to Fair," which is also profusely illustra-

"Familiar Talks on the Different Schools of Art" treats of modern French painters, and the illustrations include reproductions of some of the paintings that are exhibited at Chicago: "Society Fads" tells of all the latest fancies in fashionable society; the fiction includes a story of the Chicago fire; and all the departments The farmers in the lower end of for which this Magazine is famous are Huntingdon county are in despair especially replete. NEW YORK, Aug. 14.-The Sun's Mobile, Ala., special says: Definite news has been received that Lev James, his brother, Kirk James, and Tooch Beisole, three of the notorious outlaws of Meacham's Beat, Clarke county, have been killed. Eabe Eurke, Mack Burke and James Jordan, of the gang, were chased into the swamp and a courier just from the scene reports that they have been captured and killed. These six men are the avowed leaders of the Meacham gang of outlaws, illicit dis-tillers and counterfeiters and have terror-ized Clarke and neighboring counties for many years. The posse, which is com-posed of more than 300 men, are from the towns of Jackson, Whatley and Thomasville, and, as they are in the outlaws' stronghold, there is no teiling where the

killing will end.

DENVER, Aug. 15.—The great disparity between the number of men out of employment and the amount of work to be was strikingly illustrated yesterday when 2,000 unemployed men gathered at the place where work on the new sewers was to begin. There was work for only 40 men. A crowd of about 500 Italian laborers gathered near the spot, but were not al-lowed to approach by the crowd, which ex-hibited considerable feeling, but was quiet and orderly. Only three Italians were given work, and they were known to be old residents of the city. The projected public improvements cannot possibly sup-ply work for all the unemployed.
