WASHINGTON, NOV. 20, 1803

The complacent smiles of President Cieveland and Secretary Gresham since the last news from Hawaii was received indicates that it contained to them. But no smiles are seen on the faces of those who had previously worked themselves into a frenzy over the policy of the administration in dealing with Hawaii, without knowing what that policy was. They expected to hear a sensational story of the driving of the Provisional government of Hawaii from power and the restoration of the queen, by U. The Supreme Court has recently rendered another decision on the fence law, called for in the case of Barber against Mensch, sent up from from his country residence to the Union county, in reference to the fence law now in force in Pennsylva nia. The opinion was delivered by tensive grounds in the rear of the Judge Dean and the following points were sustained : "1. Since the pass ably accompanied by Mrs. Cleveland, age of the Act of April 4, 1889, repealing the Act of 1700, no man is required to fence against his neighbor's usually not far off. He who would pasture his fields must make the division fence if that is necessary to keep his cattle off his neighbor's field. He may then have recourse to the Act of 1842 to recover a proportionate part of the cost of the fence. 4. Barber made one half of a division fence. Mensch refused to make the other half. Held, that Mensch is liable at common law in trespass for the damage done by his cattle on Barber's land."
