## Twins and Triplets or Duets and Trios.

Where is the section that needs population? To that section we are pleased to recommend Mrs. Theoret, of Saint Genevieve, Canada. At the age of 30 years she is the mother of a "trio," signifying music in three parts, is deemed an improper term. This is the second time inside of five years that Mrs. Theoret has gotten up a little surprise party of this kind for her hard-working husband. All her marital and musical efforts are reported as resulting in duets and trios, which of course accounts for the 17 little Theorets referred to, and referred to with all due respect and best wishes for all concerned.

## A PLEASANT RESORT.

Proctor Inn, at Jamison City, offers inducements through the summer months to those who wish to escape the intense heat of this section. The evenings and mornings are delightfully cool, and the hotel is complete in all its appointments. Pure mountain spring water is conducted into the house through pipes, and the table is house through pipes, and the table is excellent. Ganoga Lake is a charming spot, and it is no wonder that more people flock there than can be accommodated, but it is a wonder that the capacity for guests has not ere this been very greatly increased. With such attractions as are found at many of the summer resorts and with large modern buildings, there would be no more famous watering place in the country than Ganoga Lake.

## M. W. Jackson's Will.

In substance the will of the late M. W. Jackson is as follows:

He directs that the business of his estate shall be conducted by his executors who shall not change any of his investments as found at the time of est of the estate and to avoid hastily disposing of the estate, or sacrificing any portion thereof. To his wife Mary he bequeathed all his household control of the homestead and also the the fierce and vivid lightning. Be- an agreement made with her before

In view of the sale of his interest in the J. & W. M'fg. Co. some years ago to his son, the late Capt. C. G. ## Spare the Trees.

"Woodman, spare the tree, touch not a single bough," is the pathetic cry of "X," in the Daily; but Mayor Drinker don't drink in the poetic sentiment so well expressed, somehow. Instead of Oak Grove Park being an elysian woodland emitting the cool and inviting atmosphere in which the poets are wont to court the muses, the chief officer of the town refers to it as "a dirty hole," if not a miasmatic hog, whose title is not clear. If somebody different pen pictures drawn of Oak Grove Park of Bloomsburg. Time no doubt will tell where the mistake lies. For our part we are most emphatically in favor of preserving the grove.
